

WEDNESDAY EVENING, SEPT. 23, 1902

PERIODICALLY it is stated that the pension role has reached the high water mark and that the tide will soon begin to recede, but this statement is invariably followed by another showing that both the number of pensioners and the amount of money required to pay them are increasing at a tremendous rate.

violent anti-organization republican and wanted either himself or another 'anti' nominated for Congress at the Seventh district republican convention held at Luray yesterday, but all his plans failed signally and Mr. Hoffman, a gentleman heretofore to fortune and to fame unknown, but an 'organization' man throughout, was nominated by acclamation. The question is asked: What will General Rosser do now, poor thing?

The general conference of the Society of Friends, held at Asbury Park, N. J., last week revealed the fact that the society is declining in numbers. Better leadership and more cultured ministry, revivifying of the spirit and more faith were suggested as needs of the society.

FROM WASHINGTON.

[Correspondence of the Alexandria Gazette.] Washington, D. C., September 24. Attaches at the temporary White House at 22 Jefferson Place are busy preparing the building for the reception of President and Mrs. Roosevelt, both of whom are expected to arrive this evening. It is not considered, however, that the President's condition is likely to become at all serious. The only question is as to how long it will be necessary for him to remain under treatment. If the abscess is merely in the muscles of the leg the healing ought to take place within two weeks. If, however, it is caused by any injury to the bone more time and attention will be required.

Rear Admiral P. M. Rixey, chief of the Bureau of Medicine and Surgery of the Navy Department, and the President's adviser, gave to the public today a specific information relative to the telegram sent him last night by Dr. Lang concerning the President's condition. He said he thought Secretary Cortelyou with the bulletins issued had given out all the information that it was deemed wise to be made public at this time. He said he could announce the President's condition as favorable. He had not been advised as to the length of the President's stay in the city but thought that after a few days' rest he would be taken to his summer home at Oyster Bay. Dr. Rixey expects to go into consultation with the President's other physicians upon the arrival of the train this evening.

Secretary Shaw will return to Washington with the President. It is understood that tomorrow he will increase the deposits of government money in national banks to the market value of the bonds deposited instead of to their par value. The government bonds are now selling at an average of 15 or 18 per cent about the face value. The result of this action will therefore be to increase the amount of government money on deposit with the banks by 15 or 18 millions. There is now in the national bank depositories \$121,000,000 of government money served by a like amount of government bonds. Secretary Shaw contemplates increasing this to about \$140,000,000. The reason for this intended action is the news from Wall street of the tightness of the money market. Numerous appeals have reached the Treasury Department during the past few days for a loosening of government money now lying idle in the treasury vaults. The amount expected to be released tomorrow will be about all the government can let go under the present laws. Practically all of the outstanding free bonds will have been hypothecated to the government. Until Congress shall pass some law allowing the Secretary of the Treasury to accept in security other than government bonds no more public money can be deposited in the banks.

This morning Chancellor Loftus of the Siamese legation informed Third Assistant Secretary of State Pierce that a visit of the Crown Prince of Siam had been deferred from October 3 to October 10 because of additional engagements in Holland. The crown prince will be accompanied by his brother and also by Col. Phya Rajavallabh and Capt. Luang Sarasiddhi, aides-de-camp, and Mom R. Anavattin, private secretary. H. R. H. Prince Chakrabongse and an aide, David B. Sikes, of New York, once United States Minister to Siam, has been designated to assist Secretary Pierce in the reception of the prince. The crown prince was educated at Sandhurst and Christ Church, Oxford College, England, and is about 24 years old. His visit is of a semi-official nature.

Mr. George E. Bowden, republican national committee man of Virginia, ex-Congressman R. T. Thorpe, and Mr. Park Agnew, chairman of the republican committee of Virginia, were here yesterday. Mr. Bowden is making a tour of the departments for the purpose of looking after appointments. Several post-office appointments for Virginia are about to be made and one of the first visits of Mr. Bowden was to the Postoffice Department. Two of the offices to be filled are Ashland and Chatham. Mr. Bowden is the Secretary of the Navy and the officials of the Navy Department about a number of small matters. The term of District Attorney Allan, of the Eastern District, does not expire until about December 23, and nothing of a definite nature can be done regarding that office now. Both Messrs. Bowden and Agnew express satisfaction with the political situation in Virginia, and say harmony exists among the republicans of their State.

The vote was 50 to 21.

Berrell Johnson, the young negro who last month attempted to criminally assault Mrs. Maggie Clog, was yesterday morning hanged in the jail yard at New Kent Court House. Johnson went to the gallows without confessing or making any statement. He was baptized at the foot of the gallows a few minutes before he ascended the scaffold. He was calm to the last and betrayed no sign of fear. His neck was broken in the fall, and death was without pain.

Mr. J. S. Hoffman, member of the legislature from Shenandoah county, was nominated for Congress by the republican Congressional convention which met in Luray yesterday. The honor was offered Mr. G. E. Sipe, of Harrisonburg, several times but was declined. Dr. Hoffman is an organization man. Messrs. John Acker, C. L. Pritchard, W. W. Logan, W. B. Genry and C. M. Lantieri were re-elected members of the State committee, and Mr. C. L. Holtzman was elected chairman of the Congressional committee. Resolutions indorsing State Chairman Agnew and both the executive and State committees were passed as were also resolutions indorsing the administration of President Roosevelt.

Josh Westhafer, of Loogootee, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm, if it cost five dollars a bottle, for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by Richard Gibson.

OPERATION ON PRESIDENT.

A bruise received by the President in the accident at Pittsfield, Mass., on September 3 has caused trouble sufficient to interrupt his tour to the North-west and to make an operation on his leg necessary. The operation was performed at St. Vincent's Hospital at Indianapolis yesterday afternoon, and less than four hours later the President was removed to his special train, which at once started for Washington with him on board.

The nature of the operation is fully explained in the following two bulletins issued just before and just after the operation: Secretary Cortelyou gave out the following at the Columbia Club after the luncheon to the President shortly after 3 o'clock: "As a result of the trolley accident at Pittsfield the President received several serious bruises. One of these, on the left leg, between the knee and ankle, has developed into a small abscess, and the President is entirely well otherwise, and has continued to meet the engagements of his itinerary, but, in view of the continuance of the abscess and out of an abundance of caution, Drs. Oliver and Cook, of Indianapolis, were requested to meet Dr. Lung, the President's surgeon, at Indianapolis, Dr. Richardson, of Washington, being also of the opinion of the doctors. The trouble necessitates an operation which they think should be performed at once at St. Vincent's Hospital, in this city. After the operation the President will require entire rest probably for at least ten days or two weeks. It has been necessary to cancel the remainder of the engagements on his trip, and he will go directly from Indianapolis to Washington this evening. The physicians say that the case is not in any way serious, and that there is no danger whatever. This statement is made so no false rumors may disturb the people, and they may be authoritatively advised of the exact nature of the case.

"GEORGE B. CORTELYOU, "Secretary to the President." At 3:15 the President went from the Columbia Club to St. Vincent's Hospital in his own carriage, and shortly after he was in the hospital the operation was performed by Dr. George H. Oliver, of Indianapolis, in consultation with the President's physician, Dr. George A. Lung, and Dr. George J. Cook, Dr. Henry Jamison and Dr. J. J. Richardson.

At the conclusion of the operation the physicians authorized the following statement: "As a result of the traumatic bruise received in the trolley accident at Pittsfield, Mass., there was found to be a circumscribed collection of perfectly pure serum in the middle third of the left anterior tibial region, the sac containing about two ounces, which was removed. The indications are that the President should make speedy recovery. It is absolutely imperative, however, that he should remain quiet and refrain from using the leg. The trouble is not serious but temporarily disabling.

"GEORGE B. CORTELYOU, "Secretary to the President." For several days those who have accompanied the President have noticed a certain constraint about his movements. It has had no more definite expression in conversation between members of the party than that the President did not seem to be feeling quite so lively as usual. But no one in all the forty or more persons who traveled on the train except Surgeon Lung could be found who was willing to say that he had noticed anything in the nature of a limp in the President's walk. But for three or four days there has been a pain in the lower part of the President's left leg just above the ankle. He spoke of it to several of his more immediate party. A white swelling over the shinbone developed where the pain was. This had the careful attention of Dr. Lung and caused him some annoyance and worry. The President, however, made light of the thing. The swelling persisted and grew. Monday night it had become so marked that it was announced to the President and Mr. Cortelyou that, in the judgment of Surgeon Lung, an operation was necessary and after the operation rest of a good many days would have to intervene unless there was to be a repetition of the swelling.

It is understood that it was explained to the President there was danger that the matter causing the swelling would turn to virulent pus if not removed. Pus would naturally be followed by complications; not the least of them to be feared was blood poisoning.

Johnstown, Pa., Sept. 24.—President Roosevelt passed a good night. The inflammation has practically subsided in the wound and the President is in no pain.

Harrisburg, Pa., Sept. 24.—Plans for President Roosevelt's comfortable transfer from the Washington depot to the temporary White House were completed this morning. It was also decided to run the train on slow schedule so that the capital city will not be reached until 6:30.

Oyster Bay, N. Y., Sept. 24.—Mrs. Roosevelt left here for Washington's at the 8:08 train. She will meet the President on his arrival tonight.

THE STATE COMMITTEE.—The State democratic committee met in Richmond last night and discussed the work of the Congressional campaign. Chairman J. Taylor Elyson presided. Messrs. Lamb Maynard, Swanson, Glass, and Southall were present. There was not a full attendance of the body, only about fifty per cent of the members being present. Reports made from all the district committees as to the registration were very encouraging, they showing that in most of the counties from 85 to 90 per cent of the white vote had been registered. In only a few counties has the registration fallen below 60 per cent. Mr. Elyson advised that about fifty speakers in each district be placed upon the stump.

The United States cruiser San Francisco sailed from Newport News, Va., this morning direct for Panama carrying a heavy guard of marines from Norfolk barracks for shore duty on the Isthmus of Panama.

Josh Westhafer, of Loogootee, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm, if it cost five dollars a bottle, for it saved him from being a cripple. TELEGRAPHIC NEWS.

NEW YORK REPUBLICANS.

Saratoga, N. Y., Sept. 24.—State Senator Higgins, of Olean, will be the nominee for Lieutenant-Governor at today's republican State convention. Geo. R. Sheldon, to whom Senator Platt has clung with characteristic tenacity, was forced of the ticket early this morning, and gave out a letter of withdrawal after a conference in which Governor Odell, who has been summoned here from Albany, Senator Platt, Senator Dewey, Mr. Sheldon, ex-Governor Black, Senator Ellsworth, Lou Payne and Robert C. Morris, chairman of the New York republican committee, participated. It was 2 o'clock when the conferees finally emerged from Senator Platt's quarters and Governor Odell announced that Mr. Sheldon had withdrawn. The convention was called to order at 10:25 by Chairman Lexow. Chairman Lauterbach, of the committee on resolutions, was then called upon to read the platform drafted for adoption. The platform deeply deplored the death of the late President. It declares for Roosevelt and adds: "We look forward with confidence to his election to the Presidency in 1904, and so far as this convention has the power, we pledge therefore to the earnest efforts of the republican party of this State." The policy of the administration in the Philippines and in the possession is most cordially approved as is the consummation of the work in Cuba. The administration of Governor Odell was also lauded. Much interest was manifested in the plank on protective tariff and trusts which read as follows: "We condemn all combinations and monopolies of whatever form having for their purpose destruction of competition in legitimate enterprises, the limitation of production in any field of labor, or the increase of cost to the consumer of the necessities of life, and we pledge the party to the support of such legislation as will suppress and prevent the organization of such illegal combinations." The platform, was adopted without a dissenting vote.

Saratoga, Sept. 24.—Governor Odell was renominated by unanimous vote. Frank W. Higgins, of Cattaraugus, was nominated for Lieutenant Governor. Senator Dewey placed John F. O'Brien in nomination for Secretary of State, a few minutes later. O'Brien was unanimously nominated. Nathan Miller of Cortland, was unanimously nominated for Comptroller. John G. Wickers, of Erie, was unanimously nominated for State Treasurer.

Henry E. Coman, of Madison, was unanimously named for Attorney General.

Edward A. Bond, of Jefferson, was nominated for State Engineer and Surveyor.

Wm. E. Werner of Rochester, was nominated for Associate Justice of the Court of Appeals.

The convention adjourned sine die at 1:04.

DISORDERLY STRIKERS.

Reading, Pa., Sept. 24.—Valley after volley of shots were exchanged in the southwest part of the American Iron & Steel works plant at Lebanon last night and early this morning. Treasurer Richards, of the company, received a flesh wound in the left side from a bullet while standing at the puddle mill office with President Sternberg. The report that Mr. Sternberg was shot is incorrect. All is quiet thus far today. The negro strike breakers are preparing to leave.

Mahanoy City, Pa., Sept. 14.—For the second time within a week, an attempt has been made to dynamite a non-union workman's home at Gilberton. Last night's explosion was directed against the home of Henry Gottschall, and occurred about midnight. It wrecked the front portion of the house, smashing every window in the place and overturning the beds in which Mrs. Gottschall and three children were sleeping. They escaped unhurt, however. Several adjoining buildings were also slightly damaged. Gottschall was at work when the outrage was perpetrated.

Wilkesbarre, Pa., Sept. 24.—Last night at Nanticoke a party of strikers got into an altercation with Harry Smith, who has been working as a non-union man in the semi-bituminous mine at Berenice. The party tried to induce Smith not to resume his work but he refused to make a promise and he was badly injured. A large number of strikers are marching at Nanticoke today with a view of inducing the non-union men to quit work.

Tamaqua, Pa., Sept. 24.—This morning the Governor's Troop received word from General Gobin to go to New Philadelphia where trouble is brewing. The troopers left about six o'clock, and are now temporarily quartered there. In the Panther Creek Valley everything was quiet this morning.

Wilkesbarre, Pa., Sept. 24.—At 3 o'clock this morning Mike Gillon and James Sanders, was drinking in a saloon at Plymouth. During a discussion on the labor troubles Sanders called Gillon a "scab," when the latter drew a knife and stabbed Sanders. The latter is in a serious condition.

Tamaqua, Pa., Sept. 24.—The situation at New Philadelphia, where the Governor's troops were ordered this morning, has assumed a serious aspect, and Captain Ott in charge of the troop has asked for reinforcements.

PACKING HOUSE COMBINE ABANDONED.

Chicago, Sept. 24.—The combination of the great packing houses of the country which has been under consideration and in process of actual formation for the last six months, has been abandoned. It was indicated that the completion of the combine would be announced on Sept. 27. With an injunction restraining them from entering into any agreement to form a combination hanging over their heads, and public opinion aroused over the high prices of meat since last winter, it was pointed out that Congress would need only a little pressure during the fall elections to bring about the abolition of the tariff on live stock, and throw open the markets of the country to the herds of Canada, Mexico, and South America, and the consequent increase in size of the Eastern packing houses.

SUSPECTED OF ANOTHER CRIME.

New York, Sept. 24.—Police Captain Schmittberger is working on a theory that William Hooper Young, charged with the murder of Mrs. Annie Pulitzer, may have been connected with the murder of Mrs. Kate Feeley, who was enticed away and hacked to pieces, Oct. 1899.

Mrs. Feeley lived in a flat on 17th street. A man called at the house and asked her to go around the corner and attend his sick wife. She went with him and was never seen afterward. Parts of a body, supposed to be hers, were found afterward. Captain Schmittberger says there are strong points of resemblance between the descriptions of the man who killed Mrs. Feeley and Young. Both were dark, both were westerners, both were the same height and age.

BUSINESS FAILURES.

New York, Sept. 24.—A. R. Sprecht & Co. members of the Consolidated Exchange, have failed.

Philadelphia, Sept. 24.—Robert Koons & Co. a prominent firm of brokers at 121 south Fifth street, announced today, on the stock exchange, that they were unable to meet contracts. This act in is said to be due to the recent slump in the market.

EILING HEARD FROM.

Amityville, L. I., Sept. 24.—A man said by some to be Charles Simpson Eilling, accused by William Hooper Young of Mrs. Pulitzer's murder, was seen at this village this morning and a host of detectives are now on his trail. Captain Titus of New York was notified.

TELEGRAPHIC BREVITIES.

Judge George H. Durand, who was stricken with paralysis three weeks ago, has withdrawn as the Democratic candidate for governor of Michigan.

The body of a young girl was found in a pond near Hackensack, N. J., this morning. It was identified as Roxan's Seitz, 18 years old, whose parents and relatives were alarmed last night when she did not return at the usual hour from the store where she was employed. It is a clear case of suicide.

It is expected that a number of chiefs of the republican party will gather at Atlantic City, N. J., today or tomorrow for the purpose of holding what will be the most important political conference of the year. The conference is scheduled for the cottage of Speaker Henderson. The conference will discuss the political situation chiefly as it is concerned in the announcement of Speaker Henderson of his withdrawal from candidacy for another congressional term.

A young man who registered at the Palace Hotel, Newark, N. J., last evening at Albany, N. Y., was found dead in his room today with a bullet hole in his left breast. The man had left a note on the bureau asking the proprietor to forgive him for having chosen his hotel in which to end his life. The suicide was apparently about 32 years old and a Hebrew. In his pocket was \$2.76 and a gold watch with a fob chain.

MORE BROILS.—A political surprise was sprung in Norfolk yesterday by the Wise faction district committee holding a meeting at the Monticello Hotel and deciding to hold a convention in Norfolk October 3, three days prior to the convention of the Bowden faction in Newport News on the 7th. It was contended that the district committee appointed at the convention which nominated Dr. Wise passed out of existence when the doctor died and was succeeded by Mr. Maynard, a democrat. The old district committee has been hurriedly resurrected and held its first meeting yesterday evening Samuel D. Hope, of Norfolk, secretary of the Wise committee, called the session to order, and the only business transacted was the adoption of the resolution calling a convention in Norfolk. It is contended that the district committee, of which H. K. Walcott is chairman, is the one recognized by the administration, and this may be the cause of the hurried visit of Mr. Bowden to Washington. It was stated some time ago that there were no more factions in Virginia, and also that the hatchet had forever been buried. This was after the scathing denunciation of factionists by the President in an address. The old war between the Waddy and Bowden wings has now broken out with renewed energy at a critical time in the campaign when combined action is necessary for the republicans to make any sort of a showing.

BRAIN-FOOD NONSENSE. Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at E. S. Leadbeater & Sons Alexandria, Va. Get Green's Special Almanac.

Take Care of the Stomach.

The man or woman whose digestion is perfect and whose stomach performs its every function is never sick. Kodol cleanses, purifies and sweetens the stomach and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It is the wonderful reconstructive tonic that is making so many sick people well and weak people strong by conveying to their bodies all of the nourishment in the food they eat. Rev. J. H. Holladay, of Hottelady, Miss., writes: Kodol has cured me. I consider it the best remedy I ever used for dyspepsia and stomach troubles. I was given up by physicians. Kodol saved my life. Take it after your meals. For sale by E. S. Leadbeater & Sons.

Monetary and Commercial.

New York, Sept. 24.—Stocks slumped again this morning on the stock exchange and exciting scenes. Every broker seemed to have selling orders when the first call came and they rushed about the floor wildly in their efforts to fill orders. Naturally, the whole list declined, in some cases violently. After the first fifteen or twenty minutes there was extensive covering of shorts and in the active issues there were rallies of 1 to 2 per cent, from the lowest prices. The speculation however continued to show feverish activity and trading was still dominated by short-bonded money situation. Railroad tonnage were weak. Many brokers are bitter against Secretary Shaw. They declare that the government is largely responsible for the money stringency. Its coffers are full, they say, and yet the Secretary refuses to loosen the government's purse strings.

IN MEMORIAM.

In sad, but loving remembrance of my darling son, IRVING C. PAGE, who died so suddenly on the Island of Cebu (Philippines), the 24th day of September, 1899.

Gone, but not forgotten. Home is sad, oh God, how dreary; Lonesome, lonesome every spot; We listen for his voice till weary; We wait for his dear little foot. The sunshine long has fled; Come back and dry our tearful eyes, We can't believe you dead. MOTHER.
