

FROM WASHINGTON.

(Correspondence of the Alexandria Gazette.) Washington, D. C., March 16. Railroad interests are doing their utmost to defeat the Panama canal treaty.

ESTES G. RATHBONE, director general of posts of Cuba during the American occupancy, who was convicted of conspiring to defraud the government in connection with Neely and Deeves, and sentenced to prison from which he was released under a general amnesty proclamation, has filed with the Senate committee on relations with Cuba a long affidavit, protesting against his conviction and demanding an investigation which he may secure with a white-wash result.

COL. J. S. BROWNING, of Tazewell county, a republican who has no office but who wants one, has been in Washington for some time granting promiscuous interviews and roundly abusing the republican "organization" in Virginia. He has certainly hit upon the wrong way of getting an office, but is evidently laboring under the vain delusion that he may be given a position to keep him quiet.

IN THE course of his lecture before the National Geographic Society in Washington on Friday night, Prof. Charles D. Walcott, director of the geological survey, made the statement that at the present rate of consumption the anthracite coal fields of the United States would be exhausted in sixty years and that the bituminous coal field would be worked out by the year A. D. 2203.

SENATOR HOAR recently gave notice of a resolution authorizing the employment of an expert to compile a new parliamentary manual, and on Saturday offered amendments to the Senate rules intended to limit debate and to provide for closure.

THE LONDON TIMES, commenting on the reduced deposits in New York banks during the last quarter, says this has been the result of transferring indebtedness to European capitalists and that the United States business world has "bitten off more than it can chew."

BY A DECISION of the United States Court of Appeals at Boston the various patent restrictions on the telephone in the interests of the Bell company were swept away.

THE SENATE. Washington, D. C., Mar. 16. With the exception of four republicans seated there, the entire democratic side of the chamber was vacant when the Senate convened at noon today.

NEWS OF THE DAY.

Germany will ask for identical privileges from both Cuba and the United States as soon as the reciprocity treaty is ratified.

It is said that Senator Fairbanks is to establish newspapers throughout the South in endeavor to capture southern delegates to the republican national convention.

General Frederick D. Grant has sold the home of his mother, in Washington. Colonel John A. Johnston, recently resigned from the army, was the purchaser, and the price paid was \$60,000.

Six business houses and a livery stable were burned at Beverly, the former county seat of Randolph county, W. Va., on Friday night, at 12 o'clock, involving a loss of \$25,000, with \$8,000 insurance.

Judge Elmer, in Waterbury, Ct., has granted a temporary injunction, on application of the Connecticut Railway and Lighting Company, to restrain the trolley men's union, individually and collectively, and all the other unions in Waterbury from interfering with the business of the company and from making use of the boycott.

In the Senate on Saturday Mr. Spooner made an elaborate reply to Mr. Morgan, especially defending the validity of the title the Panama Canal Company can give to the United States.

Whitaker Wright, the noted London promoter, accused of fraud in connection with financial corporations, was arrested in New York upon his arrival on the French line steamer Lorraine yesterday.

The House held a brief session, and the most striking thing done in that body was the offering of a complete report of the work done by the finance committees of the two houses.

The House took up and discussed the Leake fence law at some length. The bill is rather a stock than a fence law, and provides that no stock shall be permitted to run at large on the public highways of the State.

Mr. Boaz reported two bills on the part of the joint committee, relating to the collection of taxes, and they were given their constitutional readings.

A composite legalized primary bill applicable to the whole State will be presented this week in the general assembly. It will incorporate the best features of the Norfolk city legalized primary act, which has been in force for ten years or more, and of the Henrico county primary law, which has been on the statute books for several years.

MARRIAGE ON SIGHT.—Pauline Schlieng, of Germany, and F. A. Kiregstedt, of King George county, Virginia, who had never met until 10 minutes before the marriage ceremony, were wedded at the Locust Point pier of the North German Lloyd ships at Baltimore on Saturday.

Portrait of Col. Mosby.—A letter from Washington says: "An effort will be made to have the Virginia General Assembly purchase a portrait of Colonel John S. Mosby, to be hung in the Capitol or State Library at Richmond."

THE BURDICK INQUEST.—At the Burdick inquest, at Buffalo, the police say they expect to produce sensational testimony. They expect to recall Mrs. Hull, mother-in-law of the murdered man.

It is declared testimony will be produced that she was in the basement of the house early in the morning after the murder and was not there alone; also that when Dr. William Marcy, the family physician, arrived she had a talk with him before he entered.

There is a growing tendency by the police to put some of the blame on Arthur Pennell, who was killed in the automobile crash, also to hold that persons in the Burdick household have more knowledge of the crime than has been admitted.

Five men were killed by a second fire dunnop explosion in the Cardiff mine, near Kankakee, Ill., Sunday evening. Two were killed in the mine and three in the shaft. Seven men were in the mine at the time.

THE MARKET. Georgetown, March 16.—Wheat 75a.81.

VIRGINIA NEWS.

Mrs. Anna Fitzhugh Elder, wife of Major Thomas C. Elder, a prominent attorney of Staunton, died yesterday.

A bill was introduced in the House of Delegates on Saturday providing for the creation of a pension fund for retired teachers.

Rev. Harry B. Lee, jr., assistant to the Rev. Nelson P. Dame, of Christ Church, Winchester, has been called to Fairfax county.

Wallace Henderson, of King George, has purchased from Mr. Alexander Pratt the "Wenaworth" farm in King George containing 141 acres.

W. Robinson Taylor, son of the late W. Robinson Taylor, of King George county, died Friday at Timmonsville, S. C., of cancer of the stomach, aged 45 years.

A. H. J. Pritchard is held at Newport News on the charge of murdering Amos Dysart, a Fort Monroe artilleryman. The arrest was made as the result of a letter intended to extort hush money from Pritchard.

The will of Capt. Charles M. Blackford was admitted to probate in Lynchburg on Saturday. The estate is valued at \$120,000 and was bequeathed entirely to Mrs. Susan Leigh Blackford, widow of the deceased.

Mrs. Columbia Smith Buckley, wife of Mr. Thomas W. Buckley, died on Friday night of pneumonia, at her home in Washington after a weeks illness. She was 41 years of age, and is survived by her husband and two children. Her remains were interred at Fredericksburg yesterday.

John B. Hurt, of Newport News, was arrested in Norfolk on Saturday on the charge of criminally assaulting Miss Mary C. Ripley, 19-year-old daughter of R. H. Ripley. The testimony, it is learned, was that the girl was taken for a drive by the accused last week, and was taken into the woods and assaulted.

Thomas N. Eubank, of Lynchburg, died at the hospital, in Newport News, on Saturday, after an illness of less than an hour, with an attack of heart disease. He was about 60 years of age, and was a gallant Confederate soldier. He was a brother of Edward N. Eubank, grand master of the Royal Arch Masons of Virginia.

The suspected ravisher of the wife of William Rooks, of Norfolk county, narrowly escaped lynching at the hands of a mob of 100 negroes Saturday. The deputy sheriff of Norfolk county received information to this effect. The prisoner was taken to the Nansemond county jail temporarily, but will be sent to Norfolk as soon as it is safe to take him aboard a train.

Thomas E. Drinkard, aged 68, died at his home in King George county on Friday. He was a native of Petersburg, and at the outbreak of the war was residing in the State of Texas, where he enlisted in the Confederate army, and lost an arm in service. He was for several years assistant engineer at the State Capitol. He married Miss Marion Washington, of King George county, who, with one son, survives him.

VIRGINIA REPUBLICANS. The Washington correspondent of the Richmond Times-Dispatch says: "It is well assured that a fight is to be made in Virginia to secure Fairbanks delegates. Col. J. S. Browning, of Tazewell, who has been here for several days, had a conference with Senator Fairbanks on Friday. He is an enthusiastic Fairbanks man. He would not indicate the nature of the talk with Mr. Fairbanks further than to say that he 'talked all right.' Colonel Browning said he was going home and begin work for Fairbanks. 'He and I have been friends for years,' he said. 'I told his delegation at Philadelphia in 1900, when McKinley was elected, that Fairbanks must be his successor. The moneyed people of this country, whether they are republicans or democrats, do not want Roosevelt in the White House,' he continued. 'He is too uncertain. And the respectable white men of the South, no matter what ticket they vote, do not like his attitude towards the negro. I have found a great deal of the same sentiment in the North. Fairbanks has a clean record, is a man of moderate views and a great big head. He would make as good a President as McKinley.' Colonel Browning says that every member of the republican central committee will resign before many moons. He declares he is going to make them do it by forcing the attention of the President and the public to the rank and file of the party in Virginia—to the fact that twenty-eight of the thirty men who compose the committee are holding Federal offices. Once the committee is controlled by men who have not got office, but want it, Colonel Browning thinks it would be easy and natural to have the organization go for Fairbanks. And that is more than half the battle in a fight for republican delegates in Virginia."

Portrait of Col. Mosby.—A letter from Washington says: "An effort will be made to have the Virginia General Assembly purchase a portrait of Colonel John S. Mosby, to be hung in the Capitol or State Library at Richmond."

TO GET RID OF A Troublesome Corn. First soak it in warm water to soften it, then pare it down as closely as possible without drawing the blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by Richard Gibson, druggist.

The Stomach is the Man. A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and organs of the body. Kodol Dyspepsia Cure cleanses, purifies, sweetens and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. E. S. Leadbeater & Sons.

TELEGRAPHIC NEWS.

Battling With the Waters. Memphis, Tenn., March 16.—Waging a desperate battle with the waters of the Mississippi, which last night reached a stage of 88.5 feet at Memphis, 1,000 men are fighting to save the levees in the lower St. Francis basin. The river is now threatening to break the levee at Holly Bush, one mile above St. Clair, and fifteen miles above Memphis. For a distance of nearly 600 yards, the water has reached the top of the levee at that point, and all through the night a force of 100 men have been working to keep the flood from breaking the embankment. In several places the water has also commenced to trickle through the defense and only by the most heroic efforts has a collapse of the levee been prevented. The crest of the rise is expected to reach Memphis this evening, when it is believed the river will reach a stage of 89 feet. All along the St. Francis levee district the engineers are working night and day, raising the levees with sacks of dirt and strengthening them with timber. Four steamers are patrolling the threatened territory and the embankment is being guarded by armed men to prevent any malicious tampering with the works. Just at the present, the greatest danger in the river is between New Madrid and Memphis.

Memphis, March 16.—The Mississippi river is rising now at an appalling rate. The gauge now reads 39.1. This is 1.8 feet over the highest water mark of record and 6.3 over the danger line. The crest of the flood is now between Memphis and New Madrid, Mo., and is not due to reach this city until Wednesday morning.

Nearly five miles of the Yazoo and Mississippi valley track are under water near Lake View, Miss., and traffic has been suspended between Memphis and that point.

The New Shamrock. Glasgow, March 16.—A number of members of the press and others yesterday admitted to Denny's ship yard, where Sir Thomas Lipton's racer is being constructed. Those who were looking for sensational developments in the design and construction of the challenger were disappointed, as the underbody of the yacht was hidden by a cradle and huge pontoons. Great difficulty accordingly was met in making out the lines of the boat. It was seen, however, that she is not as lightly framed as the last Shamrock. The perfection with which the nickel and steel hull plates were wrought together was a matter of general admiration. The boat is decidedly buoyant, but stiffer, and will stand a heavier strain than her predecessors. Her underbody is secured by a cradle drawn aft, with a long counter and easy entrance forward. Stability is ensured from a powerful fin keel. While the dimensions of the new boat are withheld, it is known that the hull and keel are not radically departed from the lines of Shamrock II. The draft of which was 18 1/2 feet and beam 25 1/2. The present boat has rather more beam than the second, but she has a shallower underbody. Nickel and steel are used throughout except in the deck, where aluminum, sheathed in wood, is employed. The main spars of the boat are hollow steel. Altogether the new boat is considered a shipbuilding triumph.

Glasgow, March 16.—Designer Watson of Sir Thomas Lipton's challenger Shamrock III. left for the Riviera today. His health has been undermined by close application to work and he has gone for a rest.

Princess Rospigliosi. Rome, March 16.—Princess Rospigliosi, formerly Mrs. Parkhurst, of Bangor and Washington, continues to exert every effort to have her marriage to Parkhurst annulled, in order that her marriage to the prince may be solemnized by the church. She has sent a communication to the propaganda denouncing Bishop O'Connell, of Portland, stating that he was influenced by enemies of Prince Rospigliosi when he refused to declare her marriage void. The evidence adduced at the time she attempted to have Bishop O'Connell make such a declaration, she says, was most favorable to her case. Prince Rospigliosi wants Bishop O'Connell's decision reversed. The troubles of the prince and Mrs. Parkhurst have been before the Vatican for about two years. Mrs. Parkhurst, who was divorced from her husband several years ago, married the prince, legally, in 1901. She then tried to have her marriage to Parkhurst annulled and she a Catholic, and that no dispensation had been granted for their marriage. She appealed to Bishop O'Connell, and failing there, she carried her case to the higher courts of the church. The matter is still in abeyance.

TELEGRAPHIC BRIEVITIES. Every hour increases the number of victims that the Philadelphia police suspect were poisoned by the "slow doses," furnished by George Hossey, the negro herb doctor.

A wreck occurred on the Washab at Elm Point, five miles west of St. Charles, Mo., yesterday in which nine passengers were injured. The train was running fifty-five miles an hour, when the entire train with the exception of the engine and express car jumped the track. Five of the cars were ditched and badly wrecked.

Mrs. John Anderson, aged 55, wife of a wealthy farmer, living near Cooperstown, N. Y., committed suicide yesterday by drowning herself. She left a note requesting that five dollars be given to the clergyman who officiated at the funeral. Her father killed himself five years ago. She said she had lived as long as she cared to.

The First National Bank of Jacksonville, Fla., was closed today by order of the Comptroller of the Currency, J. W. Norvell, until bank examiner, was appointed receiver. Wm. Kennedy, president of the Kennedy-Murphy Brewing Company, died in Troy, N. Y., this morning of valvular disease of the heart, aged 87. He was a native of Ireland.

GOOD ADVICE. The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Water-brash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Lying Spirits, etc. Go to your Druggist and get a bottle of August Flower for 25 or 75 cents. Two doses will relieve you. Try it.

DRY GOODS.

Lansburgh & Bro., Washington's Favorite Store. Business Hours 8 A. M. to 6 P. M. Open Saturdays till 9 o'clock.

Webster's International Dictionary. The New Edition of WEBSTER'S INTERNATIONAL DICTIONARY, recently issued, brings Webster again abreast of the growth of the language and again confirms it in its position as the standard authority. A decade has passed since the International was first published and the years have been full of changes that have been reflected in the language and that must now be registered in the dictionary. A supplement of additional words has therefore been added to the International to include the thousands of new words that have come into literary use. The new edition of Webster, therefore, retains all the excellencies of the International, emphasized and multiplied, all its accuracy and convenience with added fullness and authority, so that it is, as before, the best practical working dictionary of the English language.

Monetary and Commercial. New York, March 16.—The stock market today, as a whole, lacked spirit toward developing a positive tendency toward weakness. There was only a moderate degree of activity.
