

Alexandria Gazette. TUESDAY EVENING, AUG 4, 1908.

What He Did Know.

St. Thomas' Episcopal church, in Fifth avenue, has under its jurisdiction an east side chapel. One of the features of the chapel is a gymnasium, in which boys are trained in all of the branches of physical culture.

The Ugliest Beast.

Probably the ugliest beast in the world is a monkey, a grewsome looking animal called the bearded saki.

Missed a Chance.

"But, Tommy," said his mother, "you asked for two cakes and I gave them to you. Aren't you satisfied?"

Driven to Drink.

Artist—My next picture at the academy will be entitled "Driven to Drink." His friend—Ah, some powerful portrait of baffled passion, I suppose?

No Heredity About It.

Geraldine—That's funny. You are a young fellow.

A covetous man makes no friends.

Cingalesse Proverb.

The Artless Red Indian.

The influence of the fur trader and the mission schools has had a marked effect upon the Ontario Indians. They have to a large extent adopted modern dress, and many of the young men can be found at work in the sawmills and as river drivers.

Some Meteors.

One of the earliest known meteors fell in 204 B. C. in Phrygia, where for a long time it was worshipped. It was carried to Rome and was supposed to be a messenger from the gods.

Sacrificed to the Nile.

The ancient Egyptians, if they did not worship the river Nile, held it in great veneration and even dread. The Nile had its appointed priests, festivals and sacrifices, and if its rising was delayed for a single day a beautiful young girl was thrown into its waters and drowned in order to appease the god's anger and secure his favors.

Waiting.

Jack—By the way, how is your suit with Miss Cashleigh progressing? Tom—Slowly. I'm playing a waiting game just now. Jack—A waiting game? Tom—Yes; I'm waiting for her to change her mind.

Punishment.

"Pop!" "Yes, my son." "Did mamma ever punish you?" "Well, she married me, my boy."—Yeakens Statesman.

The fool who is silent passes for wise.

—French Proverb.

Chronic Diarrhoea Relieved.

Mr. Edward E. Henry, with the United States Express Co., Chicago, writes, "Our General Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack of the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Butler B. Hayes and William McKinley four years in the 23rd Ohio Regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by W. F. Creighton & Co. and Richard Gibson.

It's Not Wise to stick to old methods when there are newer and better. If you are using any but Electric Power you are behind the age. The biggest concerns are using electricity wherever possible. They are wise. Be likewise. Let us install electric power in your place. The first day's writing will make you regret you didn't have it before.

How Long Do Dreams Last? A German savant is investigating the matter. But there is scarcely a doubt that he cannot give him points and has not dreamed centuries in seconds. The dream, it may be stated, comes in the few seconds before the awakening and has no relation to time or space. This is clear enough to the man who has ever been placed under an anes-thetic for a short while and found time and space eliminated.

A Great Artist Enraged. Alma-Tadema has told a story of the fate of two unsuccessful pictures of his student days. One of them was returned unsold by the committee of the Brussels exhibition in 1859. The subject was a house on fire, with people rescuing the victims. The artist's face turned to stone, and he refused to touch the picture. The other unsuccessful picture that came back again and again to its creator's easel until at last it was cut out of its frame and given to an old woman to use as a table cover.

The Supposed Life on Mars. Not only do the observations we have scanned lead us to the conclusion that Mars at this moment is inhabited, but they lead us at the further one that these denizens are of an order whose acquaintance was worth the making. Whether we ever shall come to converse with them in any more instant way is a question upon which science at present has no data to decide. More important to us is the fact that they exist, made all the more interesting by their precedence of us in the path of evolution. Their presence certainly ousts us from any unique or self centered position in the solar system, but so with the world did the Copernican system the Ptolemaic, and the world survived this deposing change. So may man. To all who have a cosmo-planetary breadth of view it cannot but be pregnant to contemplate extra mundane life and to realize that such life now inhabits the planet Mars.—Professor Lowell in Century.
