VOLUME CX--NO. 268

ALEXANDRIA, VA. SATURDAY EVENING, NOVEMBER 20, 1909.

PRICE 2 CENTS

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore (it is said) Dr. Pierce's medicines, the knowledge of which print every ingredient entering into them upon the bottle wrappers and attests its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the searchlight of investigation turned daily upon his formulae, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite, without the soluble beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated, lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients in Dr. Pierce's medicines are composed of the unqualified endorsements of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

Alexandria-Gazette.

PUBLISHED DAILY AND TRI-WEEKLY AT GAZETTE BUILDING, 310 & 312 PRINCE STREET.

TERMS: Daily—1 year, \$5.00; 6 months, \$3.50; 3 months, \$2.25; 1 month, 45 cents; 1 week, 10 cents.

Resolutions in memoriam, of thanks, tributes of respect, resolutions adopted by societies or persons, unless of public concern, will only be printed in the paper as advertisements.

(Entered at the Postoffice of Alexandria, Virginia, as second-class matter.)

THE PRESIDENT AT NORFOLK.

As one of the concluding features of the convention of the Atlantic Deep-sea Waterways Association, President Taft went to Norfolk yesterday, reviewed a military and naval parade, made two speeches, in which he bespoke his interests in a practical system of waterways improvement to be carried forward on a business-like basis and not merely as a means of distributing patronage; partook of an oyster roast under the shadows of the towering Cape Henry lighthouse and attended a smoker in honor of a large corps of visiting newspaper men.

The president retired last night on the naval yacht Mayflower. The Mayflower got under way this morning for Hampton, where the president will attend a meeting of the board of trustees of the Hampton Normal Institute, of which he is a member. In the afternoon he will deliver an address to the colored students and then start for Washington.

Mrs. Taft accompanied the president to Norfolk, and while he was reviewing the big parade and later was making an open-air address Mrs. Taft and her sister, Mrs. Thomas K. Laughlin, Jr., of Pittsburg, went ashore and went on a sightseeing excursion. Mr. Taft was the dinner guest of Fergus Beld, of Norfolk, and a company of Norfolk people. Mrs. Taft dined aboard the Mayflower.

President Taft was introduced to the waterways convention by Governor Swanson, and said, in part:

"I am glad to be here to testify to my interest in the waterways work. What I wish to deprecate is a general proposition to raise a lot of money and dump some here and some there and some back here just in order to distribute it equally over the country. I am opposed to that, I am in favor of expending the money for an improvement in Norfolk and not spending it for improvement somewhere else, if the Norfolk project is a good one and the one somewhere else is not."

"I want to say that I will take up what is projected and proposed with all the sympathy possible, but nevertheless with what I hope is a judicial spirit to reject what the evidence does not sustain and to approve what the evidence does sustain."

The president referred to the battle of the Virginia and Monitor and said:

"I want a navy to continue to be maintained worthy of this country. We are not knocking anybody's chip off his shoulder, and we are not having a chip on our shoulder, but we are a great nation of eighty or ninety millions of people, and we must, in order, under the present conditions, to maintain the prestige that is proportionate to our stand before the world, have a navy that is worth seeing and able to fight if it has to."

Reliable Remedy CATARRH
