DENIED AUDIENCE WITH POPE. Although armed with a letter of introduction to Vatican officials from Cardinal Gibbons, Bishop Paret, of the Episcopal diocese of Maryland, has been denied an audience with the pope.

Cardinal Gibbons admitted yesterday in Baltimore that he had given Bishop Paret the letter of introduction to church officials at Rome, but said that the cardinal had heard nothing from the Eternal City.

The news of the incident in which Bishop Paret figured, comes by cable in the part as follows: 'Bishop Paret enclosing his letter of introduction from Cardinal Gibbons, sent a note Cardinal Merry del Val, saying that he would esteem it a privilege to have an audience with the holy father. The answer came promptly and remarked that his holiness is neither a picture nor a statue to be inspected and criticized, and that the requested audience could not be granted. The bishop is preserving the letter, and will take it to America with him as a memento of his Roman visit.'

Bishop Paret and his family sailed for Europe last fall, going directly to southern Europe, where they have remained practically all the time since. He was in Rome at the time of the Roosevelt-Vatican incident, and a short time ago administered the rite of confirmation to a large class in Naples.

ROOSEVELT ENDORSES TAFT. It is announced in Washington that Theodore Roosevelt has written several letters to President Taft clearly indicating that he thoroughly endorses the present administration.

Col. Roosevelt's choice for governor of New York to succeed Charles E. Hughes is said to be William Loeb, jr., collector of the port of New York.

In the letter to President Taft, and others to Senator Root and Collector Loeb, Col. Roosevelt declares his decision to remain in private life is final. The former president indicates that he is not in favor of such persistent in-urgency as may tend to defeat the republican party at the polls.

The following are said to be absolute facts: Mr. Roosevelt will not be a candidate for reelection to the presidency in 1912 under any circumstances; he will not be a candidate for Congress; he will not be a candidate to succeed C. O. Carlin in the senate; he will not be a candidate for the governorship of New York, but will indicate his preference for William Loeb, jr., he will make one or two speeches in the west advocating the return of republicans to the Sixty-second Congress; he will remain in private life, and will devote his efforts to his literary work and deliver many lectures.

STOP MONEY-SHIPPING LEAK. Secretary MacVeagh has devised a new method of handling currency redeemed at the sub-treasuries, which eventually will save the government \$200,000 a year. The same amount of money will be lost to the United States Express Company, which has been transporting this currency under a contract drawn when Thomas C. Platt was head of this company and at the height of his political power, but he is dead now.

Recently Secretary MacVeagh ran across this contract, and the charge of 50 cents for each \$1.00 struck him as too much for hauling redeemed notes from the sub-treasuries to Washington. Arrangements were made with the Post-office Department, which now transports the cancelled currency by registered mail from New York to Washington for only a fraction of a cent a thousand. So far the Government has saved \$125 a day.

It is learned that the Treasury Department proposes to extend the same system to other sub-treasury cities, whereby it is expected to save in the neighborhood of \$200,000.

GROWTH OF ZIONISM. According to David Wolfsohn, a Cologne banker and one of the leaders of the Zionist movement, many Jews are being repatriated from the United States to Palestine. Herr Wolfsohn, who is now in London, said that Zionism is growing with tremendous strides; that the society has a membership exceeding 250,000, and that finally the condition of the society is more than encouraging.

Palestine is already becoming a favorite colony for Jews. There are any number of London Jews among the colonists, and even Jews from New York. New York also abandon the commerce of the West for Jerusalem. Religious Jews endeavor in their old age to make a pilgrimage to Palestine, so that they may be buried in the Holy Land. The modern Jew, however, does not go to Palestine to die but to live. We have now got \$1,500,000 together, and every day convinces me that the Jew is as passionately enthusiastic about Palestine as his home as ever.'

Diarrhoea should be cured without loss of time and by a medicine which like Chamberlain's Colic, Cholera and Diarrhoea Remedy not only cures promptly, but produces no unpleasant after effects. It never fails and is pleasant and safe to take. Sold by W. F. Creighton & Co. and Richard Gibson.
