

A Storekeeper Says:

"A lady came into my store lately and said: "I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was small and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now not one of them would give hers up for five times its cost."

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

New Perfection Wick Blue Flame Oil Cook-stove

It has a Cabinet Top with a shelf for keeping plates and food hot. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

A 32 STORY BUILDING.

Workmen on Saturday commenced tearing down the two-story Gillender building at Wall and Nassau streets, New York. With the destruction of this modern steel skyscraper will go the old eight-story S. Evans building, forming an "L" around it on both Wall and Nassau streets, and as soon as these two structures are razed to the ground work will begin on the erection of the thirty-two-story Bankers' Trust Company Building, which will occupy one of the most desirable corners in the financial district, with a frontage of 94 feet on Wall street and 102 feet on Nassau street. The demolition of the Gillender building will be the first time such a high-class office building representing the best type of modern fireproof construction, has been torn down to make way for a still more elaborate structure. The Bankers' Trust Company purchased the Gillender building corner, a plot only 25 by 74 feet, a short time ago, for \$1,250,000. The cost of the new building will be \$4,000,000.
