THE MEN HIGHER UP.

What happened in the private office of United States Senator Thomas P. Gore at Washington at noon last May 6 formed the basis of sensational charges, involving the names of Vice President Sherman, Senator Charles Curtis, of Kansas; Congressman B. S. McGuire, of Oklahoma, and others, in a hearing before a special congressional investigating committee at Muskogee, Okla., yesterday.

During the 30 or 40 minutes of a conference held in that office Senator Gore testified that he had been approached by Jake J. Hamon, former chairman of the Oklahoma territorial republican committee, and also former chairman of the Oklahoma state republican committee, and that he had been offered a bribe of \$25,000 or \$50,000 to remove certain legislation pending in Congress, so that \$300,000,000 might be paid to J. F. McMurray, an attorney at McAlester, Okla., and his associates.

The money was to represent "attorneys' fees" of 10 per cent, \$30,000,000, which was to be secured from a New York syndicate for 450,000 acres of coal and asphalt lands now owned by the Choctaw and Chickasaw Indians in Oklahoma.

Vice President Sherman's name was mentioned by Mr. Hamon, Senator Gore testified as being interested in the land deal to the extent of favoring the approval by Congress of what are known as the McMurray contracts with the Indians.

What happened in another private room in Washington, and also where it was alleged Hamon made more "overtures" relative to the land deal, was told by Congressman C. E. Cramer, of the Third Oklahoma district.

The charges have caused the greatest sensation.

The vice president who is on his way to the Adirondacks has authorized the following denial:

"The statement credited to Senator Gore in the investigation into the McMurray Indian contracts matter at Muskogee, Okla., yesterday, is absolutely without foundation insofar as it refers to me. There is not a vestige of truth in any charge or statement implicating me in this affair."

United States Senator Charles Curtis, when told in Topeka, Kan., yesterday about the allegations made by Senator Gore at the Muskogee Congressional inquiry into the Indian attorney fee matter, in which his name was used as one of those interested in the McMurray contracts, emphatically denied having any connection with the matter whatever. He gave the president, members of the cabinet and his fellow-senators as witnesses to prove his assertions.

THE TENNESSE ELECTION.

Indications are that the independent judiciary ticket has swept Tennessee.

Scattering reports from many sections show that the republicans voted in force for the independents in the mountain districts. An unusual thing was the presence of scores of negroes about the polls wearing straight democratic badges.

The overshadowing interest in the contest centres in the bearing on the political fortunes of Malcolm R. Patterson, twice governor of Tennessee and nominee now for a third term before the November election. A Supreme Court, free from the domination of the executive, is the prime issue involved. This issue grows out of the celebrated Cooper case, three of the judges of the present Supreme Court having charged Patterson with attempted coercion in connection with this case.

The issue means political death or a third term for Governor Patterson.

Back of the feeling is revenge for the death of former United States Senator E. W. Carmack, and Patterson's pardoning of Duncan B. Cooper, who was sentenced to 20 years for his association with the crime. In this campaign it is charged that Patterson endeavored to tamper with the Supreme Court of Tennessee, favoring a pardon for Cooper and his son Robin Cooper. The Supreme Court refused his political offer and Patterson launched another ticket in the field against the candidates for Supreme Court and Court of Civil Appeals.

Patterson and his followers declared the regular candidates "bolters," saying his was the regular democratic ticket. The bolters declared Patterson himself stood for the pardoning of all convicts and for general lawlessness throughout the state and corruption in office.

Families have been separated in this campaign. Fathers have disapproved of sons' beliefs and mothers have prayed for the success of the bolting ticket, because they thought it meant an end of Patterson and corruption.

The independent republicans have lined up with the bolting democrats.

SUSPECT POISON.

The London Chronicle this morning prominently displayed a story suggest-

ing that Dr. Crippen poisoned his wife. The assertion is made that the police are now investigating the purchase on January 19 of five grains of hyoscin from the drug firm of Lewis & Burrows, New Oxford street. A half grain of this drug would be a fatal dose.

The Telegraph prints a similar story, with the additional statement that Crippen signed the register at the drug store in his own handwriting and with his full name. This firm, the paper says, knew Crippen and knew also that he had a medical college.

As a result of these developments the authorities are hunting for poison in the remains found in the house which Crippen and his wife occupied in London and where the body was found.

Solicitor Newton, who has been retained to defend Dr. Crippen, has filed a formal application asking the authorities to permit an independent physician to examine the bits of human flesh found in the Crippen cellar. It is understood that Newton will contend that they were not identified as having belonged to the body of Belle Elmore.

THE RISE OF SOCIALISM.

What is considered the most momentous question America will be called upon to face—socialism—was pointed out by Archbishop Ireland in an address in Duluth, Minn., yesterday.

"If there is one sign of alarm in the skies of the future for our country as I see it," said Mgr. Ireland, "it is that there will be an effort to chain individualism, to give all into the hands of the government, and to bring every one to a common level, which in that case must be the level of mediocrity. We are equal in liberal and equal rights, but equal in talents never. The most perilous problem ever presented to humanity is before America. There are clamorings for a division of property, for special laws, and there are mobs and rioting. If these go on and increase the hour may come when America will say, 'I must maintain order at any cost; if not with liberty, then with a powerful centralized government.'"

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by W. F. Creighton and Richard Gibson.

SUNKEN SHIP UNDER GUARD.

Believing they have a \$400,000 treasure in their grasp, men employed by a Detroit syndicate are guarding night and day the wreck of the steamer Atlantic, off Long Point, in Lake Erie.

The Atlantic was sunk in collision in 1852 by the steamer Ogdensburg and 150 lives were lost. Many of those on board were drowned in their berths, so quickly did the ship go to the bottom.

The wreck was located recently by the tug Racy and propeller Douglas. It lies in 155 feet of water and the extreme depth makes the use of a specially made suit of armor necessary. In the hold, it is believed, the diver will find two safes containing \$400,000 in gold.

The wreck of the Atlantic was found practically intact. There was a great hole in the side.

Chamberlain's Stomach and Liver Tablets gently stimulate the liver and bowels to expel poisonous matter, cleanse the system, cure constipation and sick headache. Sold by W. F. Creighton and Richard Gibson.
