

AYER'S PILLS.

THE GREAT MEDICAL DISCOVERY OF THE AGE, IS AYER'S CATHARTIC PILLS. They don't hurt complaints, but they cure them. One box has cured dyspepsia. Three boxes have cured the worst cases of Scrophula. Two boxes have cured Erysipelas. One box always cures the Jaundice. Two boxes are sure to cleanse the system from bile—often less than one does it. Two boxes have completely cured the worst cases on the legs. Small doses seldom fail to cure the Piles. One dose cures the leadache arising from a foul stomach. A strong course often repeated expel every worm from the body. The should be given to children, who are always more or less afflicted with this scourge. As a gentle Physic they have no equal. One box cures derangement of the Liver. One box cures a cold. They purify the blood, and thus strike at the foundation of every disease. As a diaphoretic they are not their equal in the world. They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good. Prepared by Dr. JAS. C. AYER, Practical and Analytical Chemist, Lowell, Mass.—and sold by E. P. Lutz, and all Druggists in Bloomsburg, and by Dealers in Medicine every where. July 11, 1857-2m.

NOTICE TO THE HEIRS & DEVISEES

Of John Allen, late of Madison township, Columbia County, deceased. You and each of you are hereby notified that at the last term of the Orphan's Court of Columbia county the petition of David Allen one of the sons and devisees of the said John Allen deceased was presented to the said court praying for the sale of the following real estate of the said decedent to wit: A lot of ground in Jerseytown in Madison township, situate on the Main road or street of said town adjoining lot of John Swisher, lot or lots belonging to Dr. Russel Parks and others, containing one acre of land on which is erected a two story frame dwelling house and frame stable. Also one other lot of land in said town situate on said Main road or street, adjoining lot of John Swisher and James Stout, being a town lot. Also two other contiguous town lots situate in said town on said Main Street and adjoining lot of John Funsion and others; And one lot of land situate on the road leading from Jerseytown to Millville containing about three and one half acres adjoining land of John Swisher, Abraham Brodt and others—which said property was on the 21st day of November, A. D. 1846, accepted by Robert Templeton and awarded to him, at the valuation and appraisement of an inquisition held thereon, and the Orphan's Court of Columbia county on the 21st of August, A. D. 1847, vacated the decree so awarding the said real estate; so that the same remains unaccepted by any devisees and unsold. And it is prayed in the said petition that the said real estate may be ordered by the Court to be sold at public sale on the premises on a day certain on the following terms and conditions: twenty per cent. at the striking down of the property, one half of the remainder on the first day of April, 1858, and the other half thereof on the first day of April, 1859, with interest from the first day of April next—and a rule is granted by the said Court upon the heirs and devisees of John Allen deceased, to show cause, if any they have, by the first day of next term why the order of sale should not be granted, of which you will hereby take notice. STEPHEN H. MILLER, Sheriff's Office, Bloomsburg, July 6, 1857.

TO THOSE WHO WANT FARMS.

A Farm within the reach of every Man. THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle or purchase a home can do so. The Farms consist of the best limestone soil of the most superior quality for farming in a rapidly improving place, into which an extensive emigration is now taking place. The property is located in Elk County, Pennsylvania, in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the fertile soil of the west is fertile, unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$20 per acre, payable by installments, or to be located at the time of purchasing, or a share of twenty-five acres entitling to locate the same for \$300, payable \$50 per month or 123 acres payable \$4 per month. It is sold for every sum of \$100 and under, paid in advance, and for over \$100 a discount of 10 per cent. In considering the advantages of emigrating to this locality the following are presented: First—The soil is a rich limestone capable of raising the best of crops, or growing so well in this settlement has obtained a present grant property. Second—It is the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business places in the State. It is well supplied with the best of the finest, and the most valuable coal, amounting in the aggregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land an inestimable value. The eminent geologist Dr. C. T. Jackson of Boston, has made a geological survey of the land, and analyzed the coal, the iron ore and limestone. This report together with maps will be furnished to applicants. Third—There are no taxes on land in this locality. The Suburban and Erie Railroad gives us a market for our coal to the lakes, it runs from Erie to Philadelphia. A large part of the Road has been finished, and is now in running order. A heavy force is now working from Erie towards our land, in the western direction, the means for the completion of which has been used, it will soon be finished. The Allegheny Valley Railroad connects with New York, Boston and Pittsburgh. The Venango Road connects with the West. There are already good Turnpike Roads running through our land, to the westward, which have been opened to accommodate the emigration and settlement which has already taken place. There is no opportunity cost it now offered to the man who wants to provide himself a home in an easy way, and to secure independence in a climate perfectly healthy. No case of fever ever having been known to occur in this settlement. It is not like going to the backwoods of the west, among peopled settlements, where there are no churches, schools, or other conveniences, where the price of land is high, and where the emigrant, after being used to the healthiest climate in the world, has to endure sickness and pain, and perhaps ruin his health and that of his family. This is a thriving locality, where there are towns, trading centres, schools, hotels, stores, saw-mills, grist-mills, and everything desired. There is a cash market at hand. The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the amount of iron works and manufacturing will soon be started; they are at present starting them extensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise in such well improved and valuable lands. By an early purchase, a substantial provision can be made. Persons should make early application, apply or write to E. Jeffries, Secretary, No. 135 Walnut Street, below Fifth, Philadelphia.—Letters carefully answered giving full information. Shares or tracts of land can be bought or secured by letter enclosing the first installment of five dollars, when the subscriber will be furnished with books, maps, &c. Warrantee Deeds given. Persons can also purchase from our Agents. Route from Philadelphia to Tyrone on the Pennsylvania Central Railroad, and also by stage to the land. This is a delightful season to visit St. Mary's—the best hotel accommodation is afforded. Enquire for E. C. Shultz, Esq. the Agent for the property at St. Mary's. JOHN A. MOORE. JOHN W. WILLIAMS. SUFFER NOT, WHEN A PERMANENT CURE IS GUARANTEED IN ALL STAGES OF SECRET DISEASES, Self Abuse, Nervous Debility, Stricture, Gleet, Gravel, Mercurial Rheumatism, Scrophula, Pains in the Ankles and Bones, Diseases of the Throat, Nose and Eyes, Ulcers upon the Body, Female Irregularities, and all other impure discharges, no matter of how long standing, or obsolete the case, recovery is certain, and in a shorter time than a permanent cure could be effected by any other treatment, given after the best CITY STYLE, and at short notice. Physician's fee seven dollars, and physicians had failed, and the disease resisted all other means of cure. The remedies are free from odor causing neither sickness nor inconvenience, and without mercury or balsam.—During twenty years' practice, I have restored to health over seventeen thousand patients, who were suffering under the worst forms of all the above mentioned diseases, which guarantee me in promising a perfect and most speedy cure. Secret diseases are the greatest enemies to health and happiness, as they are the first cause of consumption, scrophula, &c., and should be a terror to all nations on the earth; but the disease is becoming so common, and treatment so little understood, that a permanent cure is scarcely ever effected, as a majority of the cases fall into the hands of incompetent persons, who not only fail to cure the malady, but ruin the constitution with corrosive sublimate—a dangerous poison, a preparation of mercury—which, with the remains of disease in the system, produces many of the above named affections, which finally terminate in consumption, and frequently a rapid one; but should it not cause death speedily, and the victim to disease marries, the disease is then conveyed from the patient to the children, causing them to come into the world with scrophula, affections of the skin, eyes, nose, throat, &c., and finally to a premature death, between the ages of six months and thirty-five years. Self abuse is another formidable enemy to health; it destroys the nervous system, rapidly wasting away the energies of life, causing mental derangement, preventing the orderly development of the system, and disqualifying its victim for marriage, society, business, and all earthly happiness. Female Irregularities and other diseases of females treated in the most skillful and scientific manner. Medicines, with directions, sent to any part of the United States and Canada, by patients communicating their symptoms by letter. J. SUMMERSVILLE, M. D., Box 53, Post Office; Filbert Street, below Tenth, Philadelphia, Pa.

HOLLOWAY'S PILLS.

The blood is the life sustaining agent. It furnishes the components of flesh, tone, muscle, nerve and vigourment. The stomach is its manufactory, the veins its distributors, and the arteries the channels through which the war material rejected in its production is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions. THE NATIONAL COMPLAINT. Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ordinary preparations, it yields readily and rapidly to this searching and unerring remedy.
