**WHY A NATIONAL BANK IS BEST**  
1. A National Bank is under the supervision of the United States Government.  
2. Laws governing National Banks are very strict.  
3. National Banks are examined twice a year by the Government.  
4. They are required to submit to the Government, and publish in their county paper an exact statement of their condition FIVE times a year.  
5. A National Bank is obliged to have a Board of Directors who meet regularly and carefully go over the business of the Bank.  
6. The stockholders are held responsible for double amount of their stock. This is for the benefit of the depositors.  
7. The capital stock is required to be paid in cash and must be held intact for the benefit of the depositors.  
8. The Bank is required, each year, to add to its surplus account before declaring dividends. This is for further security of depositors.

No large amount is required to start an account. Begin NOW to deposit in
