We have only lately learned that there has been a Baptist mission established in the old town with a goodly attendance. I am directed to say that while there has been a Sunday school established in the old town, and is in a flourishing condition, it is not a Baptist mission or any other mission. The old town is not composed of heathens. To be sure they are only a mile from Sodom, but consider themselves in an enlightened condition. The Sunday school is not of any particular creed, but for the benefit of all classes. It is essentially a union affair, and all are invited of whatever persuasion.

The question of "guilty" or "not guilty" was decided by that famous jury in the case of the State vs. Hannah Roberts after being out over five hours without their supper. It being a very cold evening too they concluded their deliberations probably sooner than if otherwise and brought in a verdict of "not guilty." It was about all they could do, considering the shape the evidence was in.

Jens O. Staae, who lived on a farm about five miles northeast of here, committed suicide last Sunday afternoon. He leaves a wife and family to mourn his death. Jens has been suffering for the past two years with nervousness, and at times he would be afraid of nearly everybody, and it happened last Sunday he had one of those spells, so he wandered away from his
