According to census just returned LeRoy village has a population of 772 against 523 in 1890. If the corporation were extended as it should be our population would exceed 1,100. There are some 300 or 400 inhabitants in the immediate suburbs who receive all the benefits while they escape the responsibilities of city government, many doing business in the village. Surely an effort should be made to induce them to become incorporated with us.

Tuesday morning as John Buck was returning from the creamery with Frank Sweet's milk sleigh and a tub of butter, near the corner of Broadway and Beuton street some cur dogs that infest that part of the town ran out frightening the team which became unmanageable and ran up Broadway turning east on Main street the sleigh running on the side till near the opera house, when the sleigh striking a tree, the team became detached, leaving the vehicle in fairly good condition. John crawled out of a side door, well lubricated with butter and milk and not seriously injured.

The whole community was shocked and saddened Tuesday morning, Feb. 5, by the announcement of the death of Mrs. A. E. Pennell, wife of Editor Pennell. She was taken suddenly and very seriously ill Sunday evening, Jan. 27, and although from the first grave fears were entertained yet the many warm friends which she had gained in her short sojourn with the people of LeRoy were being almost against hope that the young life might be spared, that the husband and sweet little daughter might not be left desolate. Her mother arrived Friday in response to a telegram. If human sympathy could avail how truly would these mourning friends be comforted.

If each one in town could add one or two good books we could have a good collection which might be of benefit to many instead of standing unused in our home book case.

There was a meeting at the school house Wednesday afternoon to consider the central school system. If it is considered advisable an effort will be made to do away with the district school in this vicinity and have all scholars in the country brought to school in covered wagons provided by the district for the purpose. The village school will then be enlarged to accommodate the extra pupils. The question is causing considerable discussion here. About half of the people favor the change and the other half are quite as much opposed to it.

A Convincing Answer.

"I hobbled into Mr. Blackmon's drug store one evening," says Wesley Nelson, of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as they all failed. He said: 'Well, if Chamberlain's Pain Balm does not help you, you need not pay for it.' THE RIGHT THING TO PUT ON.

(Benson's Plaster is Pain's Master.)

From the natural impulse to "put something on" a painful spot all applications for the relief of pain have arisen.

The most successful have ever been poultices or plasters, and the best of these is Benson's Porous Plaster.

No other has anything like the same power as a curative agent; it is highly and scientifically medicated, and its standard is advanced year by year.

Use Benson's Plaster for coughs, colds, chest diseases, rheumatism, grip, neuralgia, kidney trouble, lame back, and other ailments that make Winter a season of suffering and danger. It relieves and cures quicker than any other remedy.

Do not accept Capsicum, Strengthening or Belladonna plasters in place of Benson's, as they possess none of its curative power. Insist on having the genuine.

The people of every civilized land have testified for years to the superlative merit of Benson's Plasters; and 5,000 physicians and druggists of this country have declared them worthy of public confidence.

In official comparisons with others, Benson's Plasters have been honored with fifty-five highest awards.

For sale by all druggists, or we will prepay postage on any number ordered in the United States on the receipt of 25c. each. Accept no imitation or substitute.
