

## DIED

**REED.**  
At the home of her parents in this city, Wednesday evening, March 22, 1905, of blood poisoning, Mrs. Alice Zoe Reed, wife of Oliver H. Reed, aged nearly 29 years. She was born in this city July 22, 1876 and was the daughter of comrade and Mrs. Jerry Ingalls. She grew up here and learned typesetting in the Transcript office until about the time of her marriage which occurred in Austin Aug. 6, 1896. She with her husband moved to LaCrosse where they have lived most of the time since. They lived for a while at Dubuque. Mrs. Reed had an operation for an abscess of the bowel about a year ago at LaCrosse and has been in poor health since. She came to her parents' home here last Dec. 18. She has been a patient sufferer and has received the most loving and faithful care. She was a member of the Christ Episcopal church for years and was also a Rebekah. She leaves a husband and one son Harry. Funeral services, conducted by Rev. C. D. Belden, were held Friday afternoon at the Baptist church which was filled with sympathizing friends. The Rebekahs, the McIntyre W. R. C. and the Degree of Honor attended as bodies. The floral tributes were very beautiful. Interment at Oakwood.

## CARD OF THANKS

We wish sincerely to thank our kind friends for their sympathy and service during our recent bereavement. The orders who were present at the funeral, the choir, those who brought beautiful flowers and all the others will ever be gratefully remembered.  
O. H. REED AND SON.

## Weekly Market Letter.

Butter—Creamery higher instead of lower and dairy in demand if good enough for table use. Pay this week 25c in goods and 20c in money.  
Eggs—Big buyers are mad "clear through," because demand for consumption keeps price so high. The fact seems to be, that eggs were high so long that people could not use them, and got awfully egg hungry, and are eating up the enormous shipment at good prices. Of course it is probable that when this demand slackens up the price will go down some. So it is wise to keep your eggs sold up pretty close. Pay this week 15c trade 12c cash.  
Potatoes—Markets worse and worse. I don't dare offer over 18c goods 13c money this week, and after asking a good many farmers, I believe the general judgment of the best stock men is, that potatoes are worth more than that to feed with hay and grain at this time of year but there are a great variety of opinions, and if you have some you want to get rid of bring them along and I will take my chances on them at those prices.  
Beans—Are like potatoes plenty and cheap, and can't pay this week for hand picked over 2 1/2c a pound goods, 2c a pound cash. Not hand picked almost unobtainable.  
Onions—Are scarce and high 20 pound trade for good dry sound ones, other garden vegetables slow sale as nearby gardeners supply the people.

## Letter From Rev. F. L. Anderson.

We make a few extracts from a letter from Rev. F. L. Anderson of Chicago read at the prayer meeting of the Baptist church Thursday evening.

Dear Friends in Austin:

The work here has kept me very busy since I arrived. Time has scarcely made me aware of its presence, the passing days being like the posts we think we see while riding on a fast train. I have been very well so that no day has passed without being able to work. I am beginning to feel at home. The people have been perfectly lovely. The church services have been most inspiring by way of numbers and interest.

Already we have taken up the building project. At a meeting of the deacons, trustees and other officers held Thursday it was decided to take practical measures for the building, those at the meeting pledging over \$6,000. Every one in the church and congregation seems favorable. We are aiming at a \$20,000 auditorium which will give us a plant worth at least \$35,000 with an equipment right up to date. Every department of the church work is most encouraging. We have one of the most enthusiastic young people's societies I was ever in. One feature is the presence of the older people who are there to encourage and help. They are all young in heart.

The possibilities of this field are greater than I had anticipated. The added material equipment will enable us to take advantage of the opportunities. Pray for the work and for the workers here that we may have wisdom and power to do the Master's work. I shall pray for you as I have in the past that you may be blessed of God that in turn you may be a blessing to man. I love Austin. I love the Baptist church here. My heart's desire and prayer is that the Head of the church may make His own appointment of a pastor for them, that the choice of the church may express the mind of the Master. Remember me to the aged and sick. It was a great disappointment that I could not see them all before I left.

I am still in a sense vitally connected with the church here. There is, as there always will be, that union of heart to heart that goes down deeper than any official relation possibly can. There is no limit to that which is fundamental. It is universal. No place can exclude it and time loses it barriers. The spirit is free. May God give richly of his blessings at all times.  
Yours fraternally,  
F. L. ANDERSON
