INCLUDING AUSTIN TIMES.
INCLUDING AUSTIN JOURNAL.
AUSTIN, WEDNESDAY, JULY 12, 1905
OFFICIAL NEWS OF MOWER COUNTY
Entered as second-class mail matter at
the postoffice, Austin, Minn.

The results achieved in Philadelphia in behalf of morality and honest municipal government will be an incentive to other crime-ridden cities to go and do likewise.

A WOMAN wants a divorce because her husband has been reading the Bible to a charming little widow. Some women just can't think of having their sisters saved.

A DISPATCH from Odessa says that the Russian liberals will only be satisfied with a republic on the American model. They certainly have high and correct ideals.

PROMINENT Norwegians in this city feel confident that Sweden and Norway will not come to actual fighting over the matter of separation. We hope that peaceful measures will prevail.

INCOMPLETE returns show that there were 55 deaths resulting from the recent Fourth of July accidents and 2,705 injuries. This is a high price to pay for reckless amusements with fireworks and explosives but the boys must have them.

A KANSAS tornado caught a football player and knocked him end over end across a fourteen acre corn field. When he got up he grabbed a pumpkin, tucked it under his arm, shut his eyes, ran 100 yards and cried "Touchdown." Football is such a lovely game, you know.

POSTMASTER General Cortelyou has just issued a circular providing that hereafter service on all rural free delivery routes shall be suspended on New Year's day, Washington's birthday, Decoration day, Fourth of July, Labor day and Thanksgiving day. No one will begrudge these few holidays to the hard working carriers.

A RAILROAD attorney says that no reduction in railroad freight rates would in any perceptible measure affect the prices paid by the average man for the articles he eats, wears and consumes in the ordinary routine of life. We would like to have the experiment tried. The proposition on the face of it sounds very improbable.

RUSSIA'S internal troubles appear more formidable than the opposition of the Japanese armies. All of these might have been prevented by Russia if she had simply kept her word and evacuated Manchuria as she squarely agreed to do. The world has little sympathy because of her duplicity and greed.

JAMES DALRYMPLE repeats in Scotland what he said at Chicago, that corporations cannot be conducted successfully under a municipal management in which political considerations have a place. We notice that mayor Dunne of Chicago has already practically abandoned his theory of municipal ownership of the city railways. It was simply a campaign dodge by which to catch votes.

It has been found that during the battles in the far East many of the soldiers are so severely wounded that they have been unable to call for help. With this view a French surgeon with the Japanese has put forward the idea of giving each soldier a little whistle which makes a loud noise and can be blown to attract the attention of the Red Cross people. This may save many a life.

GOVERNOR Hanley of Indiana very truly says: "It is said that many honest officials accept passes, but the argument is a poor one, for it is an admission that many dishonest ones do likewise." The passes are said to be gratuitous, but if the returns to the corporations were not satisfactory at the end of the year, the passes would be cut off. The fact that passes stop when officials retire from public office shows that the passes were given to the office and not the man.

In accepting a seat on the Court of Errors and Appeals of New Jersey James B. Dill abandons one of the most profitable practices in corporation law in this country. There is every reason for believing that he is actuated by a genuine desire to be of service to the public. He is only 50 and so at his prime in his professional life. We may expect from him decisions of the highest importance in solving present difficult legal problems.

PROF. CLIFTON HODGE, biologist at Clark university, Worcester, Mass., has come out urging the extermination of all cats by municipalities, declaring they are the worst existing enemy of bird life. He says "We need the German method of cat traps, like those

that in one year killed 30,000 cats in Hamburg." There are plenty of cats out west for the professor to trap but we wish to exterminate them for a different reason.

GUilty as charged in twenty-four of the twenty-seven counts in the indictment was the verdict returned by the jury in the United States district court at St. Paul Friday evening in the case of Thomas B. Clement, the aged Faribault banker, charged with misapplying bank funds and with making false entries in the bank books and in reports to the controller of the currency. Verily they who will get rich with undue haste fall into a snare and trouble.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

OTHER EDITORS' OPINIONS

Toledo Blade: A New Hampshire man swam a mile in order to be on time for his wedding. It is too early to say whether, as a husband, he will be a duck or a goose.

Cedar Rapids Gazette: After the postal department has compelled the "metropolitan" papers to omit the junk from their Sunday issues, the part of the papers devoted to real news will look thin as a dyspeptic at the end of his third week in a sanitarium.

Spring Valley Sun: The apple crop this year will not be as good as former years. By going into your orchard you will notice that a great number have fallen to the ground. This complaint is made all over the state, and a partial failure this year will no doubt be the result.

St. Paul Farmer: The butter that the speculators are now putting away to sell next winter with the expectation of making a profit costs them around 22 cents a pound. This means 28 cents for fresh creamery butter next winter, or some one will be losing money.

Preston Republican: Aaron Knight brought to this office Wednesday a Northwestern Greening apple that has been stored away in his cellar since last fall, which was every bit as nice as the day it was picked. When Mr. Knight purchased this barrel last fall he remarked he would keep some until July and he was true to his word.

Windom Citizen: On Market Day a lady stopped in front of one of the stores to admire a pretty baby in a go-cart. She turned to the little girl pushing the cart, asked baby's name and wanted to know if she wouldn't give him away. "Oh, no, we couldn't part with Willie," was the reply of the girl whose mother was a dressmaker, "but if you will call at the house I am sure mamma will give you a pattern."

Wadena Pioneer-Journal: The thing for the Republican party of Minnesota to do is to select men for state, legislative and county offices who are right on all public questions, and who have been right for years. Don't name fakirs and political mountebanks. Name men who know what is and has been going on, and who have the courage and the honesty to do right. With such a ticket, the Republican party of Minnesota would sweep the state, and the victory would mean something.

Chicago Journal: It is not a political conquest of Canada by American farmers that England need to fear. It is the United States which has real cause to feel alarm over the condition. The wholesale exchange of good stock for bad cannot fail to have evil effect upon us particularly and industrially. And yet if the farmers who are going over the line to the north will assimilate Canada as thoroughly as we have thus far assimilated the foreign immigrants, we may be happy yet under one flag.

Hayfield Transcript: There is a movement on foot to dissolve the pastorate comprising the Hayfield and Blooming Prairie Presbyterian churches which is now being served by Rev. I. G. Smith, and in place thereof unite the Hayfield and Aghland churches into one charge. In that event it is likely that Rev. Smith will move to this village as the local congregation would not be willing to accept his resignation. In case this change be made, the Blooming Prairie and Oakland churches will be made one charge.

Fairmont Independent: A good many of the state papers are commenting upon Senator Clapp attending a meeting of the Christian Science church at Washington, D. C., and telling of his partial belief of the principles of that church. It is alright. The senator or any other man has just as good a right to go to the Christian Science church and become a member of it as he has to go to the Baptist, Catholic, Congregational or any other denomination.

Owatonna Journal: Once more the Owatonna baseball team went down to defeat before an outside team, and this was at Austin on the afternoon of the Fourth when the Austin team rubbed it into the locals by a score of 6 to 4. The game was one of the best that has been played in Austin for some time, and although the Owatonna team lost, the players felt well repaid for their efforts in putting up a good game by the royal way in which they were entertained by the Austin players.

Albert Lea Times: Thomas Gahagan, day switchman in the Rock Island yards, was the victim of an accident Monday. He was coupling what is called a "bad order car" to the switch engine by means of a chain. The engine started and he was caught between the bumpers. The muscles of his thighs were considerably bruised and mutilated but no bones were broken. He will probably be laid up for a month or more. He is resting comfortably at his

home on Newton street. Dr. W. E. Todd, the company's physician, is in attendance.

Anoka Union: "We had a delightful time last week," said the city cousin, who was describing the joys of metropolitan life. "One evening we trooped out to a suburban home and ping ponged until nearly midnight, and next day we automobilized to the country club and golfed until dark." "We had a purty good time last week too," ventured the country cousin, with a sarcastic smile. "One day we bugged over to Uncle Josiar's and us boys got out in the back lot and base balled all afternoon and after supper we sneaked up to the loft and lit a candle and pokered until morning."

LeRoy Independent: The city of Brainerd has captured one of LeRoy's most prominent business men. M. T. Dunn has gone to Brainerd and taken charge of a bank there at a salary nearly double that which the First State Bank of LeRoy could afford to pay. LeRoy loses not only a natural born business man but one who recognized the fact that his position made it a duty for him to devote a part of his time to the public interest. No man in LeRoy has manifested so much of that public spirit that makes a town as has Mr. Dunn in the past ten years.

St. Cloud Journal-Press: In the personal injury suit of John L. Farrell against the Great Northern at Austin, the plaintiff's witnesses made quite a strong case for Farrell. He denied any communications made to the St. Cloud people at the time of the accident when he is said to have told them that he fell from the train near the railroad bridge and claimed that he was thrown from the train by a defective car door. It is possible that the case may be tried again, but the dismissal of the case as to the Great Western will cause the second trial to be held at some other point than Austin.

Waukon Republican: Because a girl has not married young, and is approaching the age where, if single, she will be put into the "old maid" class, is no proof that she is not good and nice but rather an evidence that she knows her own worth; that she has good sense and a proper appreciation of life, and will not "hitch up" with just anybody who might propose. We have a few such in our vicinity, and they are jewels, worth their weight in gold. In this locality, as elsewhere, the best are not the easiest obtained, but lucky is the young man who is accepted.

Carriage Painting.

I am prepared to do all kinds of fine carriage painting, also interior work in residences. Shop over Rogers' Carriage Works, Bridge St. Bring in your buggies and cutters and have them painted right. W. E. HARRIS.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by all druggists.

USE FOR CAST-OFF AXES.

In Loading and Unloading Ties from Truck Old Instruments May Be of Service.

Cast off axes can be made useful as shown in the cut. The best use of this tool is for loading and unloading ties off a truck, says the Farm and Home. It will save a lot of heavy lifting and tugging. A slight blow will sink it into a tie.

The part a, shown by dotted line, is cut out, while part b is hammered out and pointed to make the part c. I am a blacksmith, and made 25 of these useful improvements last winter.

HELPFUL HINTS.

Stock turned on the early pastures need salt frequently. A sow should never have pigs before she is one year old.

Sheep fed highly on corn often shed their fleeces in winter. Our fowls would suffer were they presented with the same unvarying mess day after day.

The incubator is a great help in raising early chickens, as often one cannot get the hens to set at the proper time.

On feeding fowls the best rule to go by is a balanced ration. This means that the hen should be fed just what is needed.

A scratching shed is always a help to the poultry, as the birds keep active even when they have to be kept in out of the storms.

Ideal Grain for Horses. Clean, plump, unground oats make the ideal grain for horses that are doing severe and continuous service. Ground feeds are ordinarily eaten too rapidly, and in consequence are not fully mixed with the salivary juices which have such an important part in rapid and complete digestion.—Midland Farmer.

The Unprofitable Queen. A queen that is not profitable to the bee-keeper should be replaced by a better one. It is time and money lost to keep inferior queens.

The Three Champion Trotting Bred Stallions in this Section.

REVENUE KING 7751.

ELLERCYONE 35353.

The Revenue Kings have never been defeated in the show ring. They are animals that are strongly made at every point. Very docile, easy to teach, having plenty of brains. They carry themselves with good style and all have that rapid and regular stroke which horses must have to win in the show ring or to sell to the men who pay good prices for road or carriage horses.

As a show horse in the Gentlemen's roadster ring REVENUE KING is unsurpassed having won honors from the most prominent show horses in Kentucky, Illinois, Indiana and Minnesota. He was a prize winner at the World's Fair, in the midst of the finest horses in the United States, with 36 entries. He has sired a most remarkable lot of colts from all kinds of mares and his get are noted all over as the best type of roadsters and show horses ever produced in the state. Remember, the outside world only knows one stallion in this section and that is Revenue King. Inquiries are always for Revenue Kings. Success on track, success in the show ring, success as sellers, emphatically stamp the Revenue Kings the greatest harness horses in the state. They have won this position by sheer merit that cannot be disputed, as they have been blue ribbon winners at many important fairs and horse shows, while the old horse has won over all comers. He sires quality, size, finish, gait, speed and race horses. Youngsters by him are in demand at long prices, and always will be. He sires what you are looking for, and it is simply a good business proposition to breed to him.

The three stallions we offer for public service are all members of royal families. They are all good; there are no better. They are royally bred, good individuals with good colors. Their fee is certainly very reasonable, in fact some are standing for less than they should.

Revenue King, Ellercyone and The Prince's Fee for 1905 will be \$15 to insure, payable when mare is known to be with foal.
