Graduation Watches...

Graduation is an event in every girl's and boy's life that will be remembered always. A gift from father or mother should be of such value as to mark this day forever. Something that the daughter or son may refer to all their lives as fathers' and mothers' graduation present. A watch is the gift ideal for that purpose. A handsome inscription or monogram engraved on it marks forever the occasion of the gift. We are showing a complete line of watches, some plain, some chased, some set with diamonds, specially purchased for graduation, they represent the highest quality of workmanship both as to case and movement.

We beg the privilege of showing this selection to every father and mother of the graduates of 1909.
