

# Free from Alcohol

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. If he has a better medicine, take his. Get the best always. This is our advice.

A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" A doctor if this is not a good answer. "Take laxative doses of Ayer's Pills."

He is a bright boy, and who has been staying at Hans Madsen's during the last year, left for parts unknown shortly after 10 o'clock Sunday night. Bennie took along Mr. Cobb's two-barrel shotgun and plenty of ammunition, and the two boys no doubt going to get together. Mr. Herman Grunwaldt's single-barrel gun and cartridges were also taken. Bennie had only a few cents in change and Oscar had something over a dollar. The former was about 16 years of age and weighed about 125 pounds and the latter was about 23. They could not have been treated better and placed in more comfortable homes. They had spent a very pleasant evening together at Colby's, popping corn and the like and apparently seemed contented with their lot, and it was not only a surprise to the families interested but the whole community to hear of their sudden departure. The surrounding townships were all notified by telephone, but at this writing nothing has been heard of them.

Why Autos Frighten Horses—This bit of brightness is said to have cropped out in the conversation between two law-abiding but not old enough to go to school, says the Kansas City Journal: "What makes a horse act naughtily when he sees an auto?" "It is this way, horses is used to seein' other horses pull wagon, and they don't know what to think of 'em goin' along without a horse. Guess if you saw a pair of pants walkin' down the street without a man in 'em you'd be scared, too."

Miss Helen F. Barnes of Washington, D. C., national secretary of the Y. W. C. A., spoke at the M. E. church on Sunday evening to an interested audience. She presented the needs of the girls of the country and town as well as the city. The reason why so many restless girls leave, or are enticed from homes, and the remedy therefor, was the subject.

Certainly, the Y. W. C. A. should be commended for the work it is doing in this great association as it has been brought to us by the practical efforts of their earnest leaders during the past two months. To make the lives of our girls happier, healthier, wider, and infinitely better is their object. Not to be considered as a charity but a fitting influence in which everyone interested in pure womanhood should help. Wednesday has been appointed as the great day when it will be decided if Mower county is to be the first county of the state to form a county association with a country secretary. # No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.
