Who Was John Mort?

This Fascinating Mystery Is Cleared Up In

"A Person of Some Importance" OUR NEW SERIAL STORY Next Week.

SAYS TAMMANY IS MAIN ISSUE

Roosevelt Addresses Meeting of New York Progressives.

STILL TRUE TO NEW PARTY

Urges Support of the "Bull Moose" in Order to Secure Relief From the Old Machines.

Rochester, N. Y., Sept. 28.—In an address before the state committee of the Progressive party here Colonel Roosevelt declared that in the election in New York state this fall "the dominant concern of the people should be to prevent Tammany from obtaining complete control of the state," and that "to this the lesser issues must give way."

He urged that the predicament in which the state finds its public affairs is due to the failure of the people to elect last fall a governor and legislature pledged to the carrying out of Progressive policies. In voting against Tammany, however, Colonel Roosevelt urged the voters to support the Progressive party candidates to the end that they might "defeat Tammany without enthroning the Barnes Republican machine in its place."

Four Matters of Import.

"This year," the colonel said, "there are four matters of supreme political import for decision before the people of the commonwealth, the first, the election of an assembly, stands by itself. The other three are: First, the attempted impeachment of the governor of the state; second, the city election in the great city of New York, and, third, the election of two judges of the court of appeals.

"As to each of these four issues the overthrow of Tammany is the chief issue."

Progressive leaders, state and national, were here for the state conference and to formulate plans for the future of the party in the state. About 500 delegates were in attendance.

After a meeting of the executive committee it was predicted that United States District Judge Learned Hand and Supreme Court Justice Samuel Seabury, both of New York, would be nominated for chief judge and associate judge, respectively.
