

RED WING AND VICINITY.

Chicago and North-Western Railway.

Time of departure of Passenger Trains from Winona, in effect January, 1876:
Leave for Chicago and the East, 4:50 p. m.
Leave for Chicago and the West, 12:20 p. m.

PAPER HANGING, Kalsomining, White-Washing and Painting done neatly to order by John M. Ingraham. Orders left at Poole's drug store.

DON'T forget the lecture before Wacouta grange on Friday evening next.

FARMERS generally are ready to sow wheat as soon as the weather permits.

A CHILD of Mr. Olin, of West avenue, fell from a step yesterday and broke his thigh.

THUNDER-STORMS and flocks of ducks and geese betoken the approach of warm weather.

HARROWS of the very best kind and at low prices at H. J. Helmeke's. Give him a call.

THE ice went out of the river in front of this city at five o'clock on Thursday evening last.

E A LEVI has a handsome show-case at his door in which he displays a fine lot of spring goods.

ONE of the two score and odd of Red Wing saloons has come to grief—cause, could not pay the debts.

DON'T forget that Dr. Humphrey, specialist in chronic diseases, will be at the St. James Hotel on the 22d.

SUGAR-making is progressing in the timber in Wisconsin, and the season bids fair to be a good one.

ANY one wishing to purchase a good city residence cheap can hear of a first rate chance by applying at this office.

No other medicine has ever cured one half the cases of Coughs, Colds and Asthma, that Dr. King's New Discovery has.

TO MAKE room for other goods, Mrs. Charles will sell her stocks of worsteds and worsted embroideries below cost for a few days.

ON MONDAY as Frank McCullough was riding horseback in the southern part of the city his horse fell with him and broke his collar-bone.

THERE is a probability of a line of steamers being run between this city and Bay City, Diamond Bluff and Stockholm, Wisconsin, during the coming season.

THE roads in this vicinity have been badly washed, and in some places are almost impassable. To this condition of affairs is due the scarcity of teams from the country.

MR. J. V. H. BAILEY has sold his farm in Goodhue township, about two weeks ago, for \$6,500, and has bought land in Washington county, whether he intends removing.

THE direct application is the right way to reach the Lungs. Inhaling "Forest Tar in Solution" has proved most satisfactory to the Patients and Physicians. The persistent use cures Catarrh.

LADIES—When you buy Saleratus please notice how much larger D. B. De Land & Co.'s Best Chemical Saleratus papers are than others; and notice how much better bread, biscuit, cake, &c., it makes than other Saleratus.

MRS. CHARLES would inform the ladies of Red Wing and vicinity that she has just returned from the East with a large and carefully selected stock of millinery. Also, that Miss Rawson is here and will take charge of the trimming.

MR GEO C DICKINSON, traveling agent for Smith, Roundy & Co., wholesale grocers of Milwaukee, has just got home from a trip in the southern part of State. He reports business fair since Jan. 1st, up till the recent bad weather set in.

WACOUTA GRANGE, No. 378, will hold an open meeting on next Friday evening, at the school house,—the usual place of meeting,—which will be addressed by the Lecturer of the Pomona Grange of this county, Mr. W. S. Grow. The public are invited to attend.

THE "Problem of Life," as delivered by Mr Theodore Tilton at Music Hall yesterday evening was one of the most powerful sermons we ever listened to. It would be a good thing for this country if we had an army of lecturers who would tell us such truths and tell them as well.

"TEN Nights in a Bar Room" will be presented at Opera Hall on the evenings

of the 21st, and 22d, by the Good Templars. The preparations made are such as to make it very certain that this entertainment will be highly interesting, and we hope there will be a large audience present.

THE Executive Committee of the P. of H. Mutual Benefit Association of Goodhue county held a meeting on Saturday last, agreed on forms of applications for and certificates of membership, and fixed the bond of the Treasurer at \$1,000.

PURE Mixed Paints, ground in White Lead and boiled in Linseed Oil, and guaranteed to be free from all impurities, will be received at Mr E L Baker's this week. Those having painting to do will do well to get their supplies at this establishment.

ON the fourth page will be found an advertisement of C H Roberts' School Furniture and Supplies. We know whereof we speak when we say that for comfort, durability, convenience and cheapness combined Prof Roberts' School Furniture cannot be excelled.

A SUBSCRIBER orders his paper stopped because we have spoken against the bonus to the Midland Narrow Gauge railroad. On referring to our list we find that he has not paid his subscription for more than a year. If he patronizes the railroad company as liberally, we can only say, heaven help the company!

WE notice that the County Auditor, Mr. S J Willard, has had the new books for the town assessors arranged in compliance with the Act of 1875, so that an entire quarter section, where it all belongs to one individual, can be included in a single description, instead of requiring a separate description for each forty acre lot, as has been the rule.

THE remainder of the stock of drugs, medicines, perfumery, toilet articles, fancy goods, &c., (together with the store fixtures and a first class soda fountain,) of Messrs. Jaehning & Teele have been removed to the building next to Bixby's bakery on Main street, where they will be sold, in lots to suit purchasers, at cost and less than cost. 27w2

MR. DALL, MASON and Mr. Beatty, from Ellsworth, were here after goods for local merchants of that village on Tuesday. Mr. Mason says the roads through the timber are muddy as usual at this season. Ellsworth is prospering. A bridge across the east channel and island lake would lead to all the Ellsworth merchants having their goods hauled from Red Wing.

ON LAST Friday evening Opera Hall was filled with an intelligent audience to enjoy the entertainment by Saulsbury's Troubadours, with which they all seemed perfectly satisfied. It came up fully to what was promised, the actors performed their respective parts excellently. A more mirth provoking exhibition we have seldom witnessed. The audience was kept laughing throughout the entire evening. May this company give us another call in the early future.

MARTIN REAGAN traded a horse for a mare with Dr. H H Bissell, last Wednesday. Subsequently Philip Waters stated that the horse was his and that Regan had no right to trade it, and demanded that it be returned, but Bissell refused to return the animal and, locking the stable door, went to supper.

Reagan and Waters returned during his absence and breaking open the stable, took the horse out and put the mare in and went off. Bissell overhauled them at Heising's brewery, and demanded the horse, but they refused and after a scuffle, drove away. Upon this Dr Bissell got out a warrant and had them arrested for horse-stealing, and they were bound over by Justice Phillips to appear at court.

MADAME BISSONNETT has opened a millinery and dress making establishment on Third street, west of Bush, in the rear of Poole's drug store, and has a fine assortment of goods, selected with taste and care, and employs skillful and trustworthy work women to make up her goods. Her silks, laces, styles and patterns are imported direct from Paris, and her goods from the best Chicago and Eastern houses. She intends that nothing shall leave her establishment that is not all she represents, and will strive to please all who favor her with patronage. Another important thing—she will fix her prices as low as can be afforded. Besides her new work, she is prepared to bleach straw goods and make them as good as new; and to color straw in any style, also, to clean and renew old ribbons, crapes, laces, etc. She invites the ladies of Red Wing to give her a call even if they may not wish to purchase.

THE CITY COUNCIL met on Saturday night last in regular meeting. His Excellency, Hon. Frank R. Sterrett, Mayor elect, was duly inaugurated, and Hon. Fred Seebach, Councilman elect, was sworn in and took his seat. Hon. T. K. Simmons, the other councilman elect, was sick and absent, and his inauguration was necessarily postponed. Because of his absence, the Council did not elect a Recorder to succeed Mr. Jorgen Simmons, but called upon him to perform the duties *pro tempore*. A resolution was adopted directing the Superintendent of the Fire Department to appoint a general election in the Department to elect a first Assistant Engineer to succeed Mr. Seebach, who has resigned because of his election to the Council. The bill of John Seastrand, of \$14 for special police service was allowed.

Mr. D. C. HILL has secured Mr. Otis G. Day, a builder of skill and experience, as foreman of his building department.

Mr. Day has, for four years past, been the foreman of Messrs. Leonard & Seegar builders, of St. Paul, and he comes very highly recommended by Messrs. C P Bassford, architect, and Cochran & Walsh and others, of St. Paul, as a builder second to none in the State. He was formerly from Maine and a graduate of Bowdoin College. With the assistance of Mr. F A Cole in the office, and Mr Day at the head of the building department, in addition to his former efficient force, Mr Hill is able to compete with any firm in the northwest, and is prepared to undertake anything in the building line in the State, and ought, at least, to be able to sustain if not to add to his past enviable reputation as a builder.

THE MARKETS.—There is no wheat arriving and prices are nominally 95c. for No. 2 and \$1 for No. 1. with no appearance of an advance, and the statement that there are 2,000,000 bushels in store in towns on the river from St. Paul to Winona, gives a reason for this. Local dealers are not anxious to buy more until the opening of navigation affords them opportunity of unloading.

Reports from Milwaukee and Chicago, dated 11th inst. note a slight advance in quotations, with a tendency upward, and in New York a fair export demand is reported. The latest foreign reports also indicate a more active demand.

Good butter is scarce and has sold readily at 25@30c., while for poorer qualities the price has fallen off. Eggs are worth 15@18c and receipts are larger. Potatoes are plenty at 30c to 40c as to quality. Other commodities are unchanged.

ON the fifth page of this paper will be found another interesting letter from our Texas correspondent, which is well worth reading and, especially by those who are not satisfied with Minnesota and sigh for a warmer climate. In confirmation of what "L." says, Mr. H. L. Bevans, a former resident of this city, wrote to his wife, who is in St. Paul, from Graham Young county, Texas, under date of March 22d, as follows:

"Since my last letter to you we have had a terrible norther and snow storm. It lasted about two days, and I felt it as bad as our storms in Minnesota. It is warmer today and raining. The truth is I don't like Texas as well as I expected. It is undoubtedly a good stock country and the winters are mild compared with those of Minnesota. Yet they have some awful storms in Texas in winter and long, continued droughts in summer. Fruit, except peaches, can only be raised where they have water for irrigation. I think that many who come here from the North will be disappointed. Old settlers agree that this has been the warmest winter known in Texas. They usually have a good deal of cold weather and more or less snow. I am, of course, speaking of Northwest Texas. Southern Texas is warmer but sickly. In fact they have the chills and ague here. Blakely's family and Aller's family have had the ague and there was a good deal of it here last summer.

Warren Bristol Vindicated.

Sometime ago a petition was received by President Grant, asking the removal of Hon. Warren Bristol from the Associate Judgeship of the Supreme Court of New Mexico, alleging that he was ignorant of the law and guilty of collusions with lawyers, &c. The petition was signed by 250 citizens and the object seems to have been to prevent the re-appointment of Judge Bristol, whose term was about expiring. Judge Bristol's friends in this locality were a good deal surprised to hear that he was the subject of such charges, and rightly conjectured that the fault was in his accusers rather than in him; and they will be pleased to learn that he has not only been re-appointed, but that his re-appointment has called forth very general expressions of satisfaction from the citizens of that territory generally. The Mesilla News of March 18th, published at the place where Judge Bristol resides, gives an account of a serenade to that gentleman, participated in by the lead-

ing and influential citizens of the town irrespective of political views, when one of the number, on behalf of the citizens, addressed Judge Bristol as follows:

Judge Bristol:—We are here to express our sincere gratification, and to offer you our heartfelt congratulations, upon your re-appointment and confirmation to the high office whose duties you have administered with honor to yourself and to the satisfaction of this community for the past four years. No partisan motive actuates us, for here are representative men holding different political views—men representing the bone and sinew, the wealth, the intellect, of this community.

They are here to rejoice with you that the poisoned arrows of calumny, directed by the hand of malice, have failed to reach their mark. That the voice of detraction has been silenced by the tones of truth. That justice has been done.

The concluding remarks were still more laudatory of Judge Bristol's integrity as a judge and his character as a man. These expressions of commendation are warmly seconded by The Mesilla News itself, as the views of the great majority of citizens.

The Daily New Mexican, published at Santa Fe, comments on his confirmation in a similar strain of compliment. It says:

In view of the great efforts made by the enemies of Judge Bristol to prevent this happy consummation, his honor ought to feel proud of this vindication. In our opinion, as previously expressed, Judge Bristol is in every way worthy of his position, and the support of all law-loving and honest people; the attacks upon him have been shameful and outrageous, and prompted by the lowest, vilest motives. We believe him to be a just and able judge, and are glad that he has prevailed over his enemies.

Judge Bristol's numerous friends in Red Wing and hereabout will cordially endorse these sentiments.

Dr. King's New Discovery.

For Consumption, Coughs, Colds, etc. Invariably cures the most severe and stubborn cases in the shortest time possible, as hundreds of its wonderful cures already prove. Every bottle guaranteed to give entire satisfaction or money cheerfully refunded. For sale by F. A. Poole, druggist. Trial bottle free. 27w2

Wagon and Carriage Factory.

On Third street east of Plum there is an establishment which deserves more than a passing notice. We refer to the wagon and carriage shop of Messrs. M. & J. Kappel. Last fall these gentlemen put up a substantial brick building, 40 feet front by 60 feet deep, and three stories high, and are now occupying it as a wagon and carriage factory. Each floor is divided into two rooms extending through the building from front to rear. On the first floor in one room is the blacksmith shop, in which there are four forges constantly in operation. Besides ironing their wagons and carriages, they do general blacksmithing and repairing, including everything in this line except horse-shoeing.

In the other lower room is the wood-work shop, lined on two sides with work benches, each of which was occupied by a busy workman at the time of our visit. Here, besides making the wood-work of wagons and carriages, which is the specialty of their business, they do all kinds of work and repairing in the wheelwright line which may be required, and from what we saw of the work in progress, we feel free to add that it is well done and the material used is selected with great care.

Above the wood-work shop is the paint shop, in which were some ten or twelve carriages, buggies, spring wagons, &c., in different stages of completion, and the painters were busy finishing their work upon them, after which they are passed into the next room to be trimmed and upholstered. Going into the trimming room, over the blacksmith shop, we found it all filled, except a few yards in front which the workmen occupied, with spring wagons, single and double seated farm buggies, light single seated buggies, buggies with tops and buggies without tops; in short, a full variety of such articles as are demanded by the trade. The third story of the building is devoted wholly to storage of material.

Here is an establishment employing fourteen mechanics constantly and turning out annually scores of wagons, carriages, sleds, sleighs, &c., equal to any made here and greatly superior to the average of those brought hither from abroad, and keeping them constantly on sale at prices as low as a good article can be bought for anywhere. They get their timber from Menasha, Wisconsin, using only the best, and are determined to deserve and obtain patronage by allowing nothing to leave their shop that will not come up fully to their representations. Instead of buying vehicles made abroad, those who want anything in this line will promote their own interests by patronizing this and other similar local establishments.

Cannon Falls Letter.

CANNON FALLS, April, 10th, '76.
Editor Grange Advance.—The snow has left us and farmers are making preparations for seeding; the prospect being that a considerable quantity of ground will be seeded during the coming week. The village election which took place on Monday, resulted in the choice of the following officers for the ensuing year.

George West, President;
Gustave Westman, Recorder;
A M Knox, Councilman;
John Wilson, Justice of the Peace;
John Anderson, constable.

Cannon Falls is to have a planing mill. The engine is already on the ground, and the mill will soon be in running order.

A new doctor will soon make his appearance amongst us. It is the understanding that he is to be associated in professional practice with Dr. A. P. Woodard.

Deputy Sheriff Grow from Red Wing, visited the Temple of Honor here on last Thursday evening.

B. F. Kelsey, assisted by brethren from Cannon Falls, instituted a Temple of Honor at Northfield, on Monday evening, the 3d inst. 80 names were signed to the petition for a charter.

Cannon Falls is blessed with secret societies. There are no less than eight in existence here.

Stop That Cough!

The wonderful results and immense sale of HALE'S COUGH CORDIAL the past season, ought to convince the most skeptical; still we are going to continue the same liberal offer that we have made heretofore, viz.: Any person suffering with a cough, cold or sore throat who will call at F. A. Poole's, Hawley & Kellogg's or any other Drug Store and purchase a bottle of HALE'S COUGH CORDIAL, use one-half of it, and if they then conclude that it is doing them no good, they can return the balance and receive back their money. Who would not test this medicine on such liberal terms? No medicine ever sold in this vicinity that produced such wonderful results. All we ask is that you will try it. 5m6

Remember This.

Now is the time of the year for Pneumonia, Lung Fever, Coughs, Colds, and fatal results of predisposition to Consumption and other throat and Lung Disease. BOSCHEE'S GERMAN SYRUP has been used in this neighborhood for the past two or three years without a single failure to cure. If you have not used this medicine yourself, go to your Druggists, Jaehning & Teele, and ask them of its wonderful success among his customers. Two doses will relieve the worst case. If you have no faith in any medicine, just buy a Sample Bottle of Boschee's German Syrup for 10 cents and try it, Regular size Bottle 75 cents. Dont neglect a cough to save 75 cents. 17eoly

CITY NOTICES.
