The Truth is Best.

RED WING, Sept. 8th '76
Editor Grange Advance:—The report of the proceedings of the recent republican congressional convention, published in the Republican, does injustice to some parties who participated in that assembly, and although I disapprove of stirring up the matter, I think these errors ought to be corrected. In the Republican's report I find Gen. Jennison's speech on the Renville matter given at considerable length, being pruned only of its most offensive sentences. To this I make no objection. But Mr. D. S. Hall's reply is abbreviated so as to appear meaningless. I am aware that Mr. Hall was too much excited to speak with due deliberation, but he gave fully and clearly the explanation that Gen. Jennison demanded, and showed that the accusation that the delegation from that county was fraudulent chosen was not true. When we consider the situation in which this gentleman was placed, his exhibition of feeling need not occasion surprise.

Again, the Republican says: "Renville delegates voted in favor of keeping their seats. The Wabasha delegates refused to vote." Now, I am certain that this is not the truth so far as the Renville delegation is concerned. In reply to the call of the Secretary for the vote, Mr. Hall rose in his place and said: "Renville county has no vote!" And the Renville delegation was admitted by a vote of 60 ayes to 16 noes, being a majority of 44, instead of 37, as the Republican states. The truth is that the effort to throw out the Renville county delegation, on the slight pretext given by Gen. Jennison, was a most unwise and outrageous proceeding, and did the cause of Mr. Thacher material injury. I do not know who proposed it, but am inclined to think that whoever did was not a sincere friend of Mr. Thacher, for certainly no member of that convention could have been silly enough to hope that it would succeed. If the party who did it had reason to believe that there was any unfairness in the election of the Renville delegation, why did he neglect to obtain some evidence of such unfairness and have it in the convention as a basis for his proceeding? He had had nine week's time in which to procure it.

I felt sorry for Mr. Hall and humiliated in knowing that the assault upon him was made by a delegate from this county, who could know nothing about the facts except from hearsay, and whose hearsay evidence was of the shabbiest sort. Mr. Hall was here as a guest, and his entertainers ought, at least, to have accorded him civil treatment. The attempt to disfranchise him was a good deal like essaying to kick an invited guest out of doors.

Yours, &c., JUSTICE.
[Our correspondent is right, but Mr. Hall is a reasonable and clever gentleman, and, when he has had time to regain his self possession, will come to regard this unfortunate occurrence as unworthy of remembrance.]

News Papers at the Centennial.

The Special Correspondent of the London Times says it would be difficult to find an apter illustration of the big way in which the Americans do things than that furnished by the "Centennial Newspaper Building," in the Exhibition grounds. Here you may see any one, or, if you like, all of the 8,129 newspapers published regularly in the United States, and see them, one and all, for nothing! You are not only permitted as a favor to see them, but invited, nay, pressed, to confer the favor of entering the building and calling for what paper you like. It is about as cool and agreeable a place—quite apart from its literary attractions—as a visitor to the Exhibition could wish to be offered a chair in. He may at first wonder how, among 8,000 papers, among them such mighty sheets as the New York Herald, he is to get at the small, loved print of his home, thousands of miles away, it may be, over the Rocky Mountains. But the management is so simple that, by consulting the catalogue, or even without the aid of the catalogue, any one can at once find whatever paper he wants. They are pigeon-holed on shelves in the alphabetical order of their States or Territories and their towns, the names of which are clearly labelled on the shelves. The proprietors of the Centennial Newspaper Building are ad-

vertising agents, the largest in all America—Messrs. G. P. Rowell & Co., of New York. Their enterprise will cost altogether about \$20,000, or £4,000, including the building and the expenses of "running" it for six months. The 8,000 and odd American newspapers are declared, by the same authority, to exceed "the combined issues of all the other nations of the earth".

IN THE housekeeper's department, some time since Minsie, enquired if there was any way to prepare Peppers for pickles without having to seep over it so, now I think there is, I have prepared five gallons at a time, and never shed a tear and this is how I did it. I take them where there will be a strong draught of air from right to left, and as I cut them, the pungent order, is carried off before it has time to get into my eyes, I follow the same plan in peeling onions and grating horseradish. My recipe for pickling peppers is this: Cut the tops off half an inch below the stem and remove the core; put in salt water over night, drain well and stuff them with cabbage sliced very fine seasoned with cinnamon, cloves, whole mustard, nasturtium seeds, and horseradish; pack in jars and cover with good cold vinegar, a cloth and weight to keep them under and they will be fit for use in a month and keep for years if you don't like them too well. We think they are unequalled as a relish with baked beans or boiled victuals. We raise the mountain sweet pepper. It is larger and not so pungent as the other kind.
