D. MOTT'S CHAIRBEAT RESTORATIVE PILLS FOR IRON.

An aperient and stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with this. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz: In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Impediment Consumption, Scrophulous Tuberculosis, Salt Rheum, Misconception, Whites, Chlorosis, Liver Complaint, Chronic Headache, Rheumatism, Intermittent Fevers, Piles on the Face, &c.

In cases of IRON DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative by possessing the most delicate and efficacious which no description nor written attestation would render credible. Invalids so long habituated to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some of the most interesting cases of this kind are attested by female sufferers, unacquainted with medicinal marmosin, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic affections, regularly attendant on the progress of pregnancy, and which for reasons familiar to medical men, the operation of the restorative, administered, is salutary, for, unlike the old pills, it is rigorously tonic, without being excessive, and in the most obstinate cases, it is effective without ever being a gastric purgative, or inflicting a disagreeable sensation.

In this latter property, and in others, which makes it so remarkably effective and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action by lessening the local tendency which forms them.

In Dyspepsia, indigestion are its causes, a single box of these Pills has often sufficed for the most habitual cases, including the attendant Colicities.

In unobscured Diarrhoea, even when advanced to Dysentery, continued, and apparently malignant, the effects have been equally decisive and astonishing.

In the treatment of females, it most necessarily debilitates cough, and other affections, which generally indicate IMPEDIMENT CONCEPTION, this remedy has allayed the alarm of friends and patients, in several very gratifying and interesting instances.

In SCROPHULOUS TUBERCULOSIS, this medicinal iron has had more than the good effect of a most salutary balance, and preparation of iodine, without any of their well known liabilities.
