REPUBLICAN REPRESENTATIVE CONVENTION.

The Republicans of the counties of Cottonwood, Jackson, Nobles, Murray, Rock and Pipestone, will hold a Convention for the purpose of nominating a candidate for Representative in the Legislature, at HERON LAKE, MINN., on TUESDAY, OCTOBER 10TH, 1876.

At one o'clock p. m. The best of representation will be one delegate for each county, and one for each one hundred votes or major fraction of each one hundred votes cast for J. S. Pillsbury for governor, in 1872, and counties, under this basis, will be entitled to delegates as follows:

Cottonwood, 1; Nobles, 1; Jackson, 1; Rock, 1; Murray, 1; Pipestone, 1. By order of the Republican Representative District Committee. R. THOMAS, Chairman. Dated Sept. 11th, 1876.

Grant thinks that the success of the Democracy would bankrupt the country, as they would undertake to pay the Southern war claims.

Governor Dix says that he "should regard the success of Tilden and Hendricks as one of the greatest calamities that could befall us."

Farmers over in Rock county don't seem to be a bit discouraged. According to the Herald they are plowing up their land preparatory to cropping as usual.

The Commissioners of Martin county are putting fire-breaks around every township in that county. The Sentinel thinks the cost will not be above \$400 and that the investment will be the best the county has ever made.

St. Paul seems to be given to newspaper sensations. The marriage of the Press and Pioneer took everybody by surprise; then the consolidation of the Pioneer Press and the Minneapolis Tribune was like a bombshell thrown into the Minneapolis camp. And now comes what to the Democracy is most expediting of all. The Dispatch has made a complete stop and landed plump in the Republican net. If P. Hall has sold the Dispatch to a company who will run it hereafter as a regular out-and-out Republican organ, for the present Capt. H. A. Gessie is editor-in-chief, and he is making it a live Republican paper. We don't believe much in "organs," but we hope the Dispatch will do good service for Hayes and Wheeler.

The robbers have escaped from Minnesota and got safely into Dakota. It seems that after their surprise in the woods they separated, two or three of the gang striking southwest by Madelia, Lake Shetek, LuVerne, Sioux Falls and on toward Yankton. The other half of the gang, it seems, kept south of the railroad and were first seen on Sunday afternoon, on Lake Okobesa, within three miles of Worthington. There were but two in the first gang after leaving Madelia, and the probability is that the man wounded at Northfield either died or is now harbored and nursed by some confederate in Minnesota. The other five have made good their escape.

It seems strange that with so much excitement and so many pursuers, that the robbers should get away. But the lack of anything like organization will account for it. An undisciplined mob of men and boys have been in pursuit, with here and there a Sheriff or a Policeman with a band of two or three disciplined men.

If Governor Pillsbury had at once called on the Sheriff of every county to organize a posse of picked men, and then placed them all under one head, the robbers might have been taken. Or if a company or two of cavalry could have been had, the bandits could have been ridden down. The State should have footed the bills of all the organized forces, and rendered every possible assistance. As it is, the men have given their time gratis and paid their own bills, while the Governor went to the Centennial. The Governor should have done as the Governor of Ohio did when John Morgan rode into the State: Call out a sufficient force to take him, and see that their bills were footed, or that they were well rationed and supplied.

But the Governor of the State will probably know by the next robber raid how difficult it is to capture even a small gang and will act accordingly. We hope the chase given the gang will teach them that Minnesota is not Missouri, and that all they can get by riding into this State is not worth the pains.

Just now when robbers are liable to run in upon us, wouldn't it be well to break around the town and burn off a strip?

"STUCK UP."

One of our farmer friends came to town the other day barefooted. We met him at one of our hotels and introduced him to some friends. The next morning he said to us, in a jocular way, "I'm glad to see you are not ashamed to introduce a barefooted man to your friends." This reminds us of the foolish charge sometimes made against us of being "stuck up." Recently in a conversation with a man who has long been unfriendly to us and to the ADVANCE, it came out that he had the notion that we were "stuck up," because we had passed him on the street on one or two occasions without recognizing him. We have heard the like from other sources. Of course, this is all very silly, but it no doubt accounts for a good deal of the insane opposition to the ADVANCE. We would not notice the foolish charge at all, only that some of our farmer friends may think there is some truth in it.

There are some things, however, which we are "above." We are above the petty office-seeking and trickery of the politicians; above the coarseness of those semi-decent people who think that the thing to do is to insult and annoy those with whom they cannot agree; above the semi-imbecility of those people who are governed in their likes and dislikes by the prejudices of the "set" with which they associate or loaf; above the disgraceful rowdiness of the Worthington rowdies, and especially above the more disgraceful meanness of the men who encourage it.

Miller copied the Sibley Gazette slander last week, and in his zeal to "out Herod Herod!" proceeds to call the Worthington people who witnessed the recent game of ball at Sibley rowdies.—Journal.

This is a good deal thinner than Grindle "hissed." Just to think of it! Here we pitched into the Sibley Gazette for daring to insinuate that any living, breathing mortal from Worthington could be anything but a gentleman of the deepest dye, and now we are charged with calling everybody in Worthington rowdies. This is too, too much! As we said last week we would submit to being thus misrepresented by the Sibley Gazette. We shall move the Journal down there at once and "run it out." This is injuring "immigration," and it must be stopped. What has that wicked, wicked Gazette to say in defense of its Four Line Pica business? Don't the Gazette know that no matter how vile a rowdy a man may be if he only takes sides against the ADVANCE the Journal will beslime him all over with its praise and then swallow him down as a sweet morsel. Don't the Gazette know that the rowdies have an organ in the Journal and that no newspaper will dare to insinuate anything against their conduct without incurring the wrath of that sheet? Oh! Mr. Gazette, you've put your foot in it. Your circulation will now begin to run up in right down ADVANCE style.

A WAR THAT WILL INVOLVE THE GREAT POWERS OF EUROPE—WILL IT BE A WAR OF BLOOD? Should England, Russia, Prussia, Austria, France and Turkey become involved in a general war, as appears at present strongly indicate, it will call from the field and workshops the unemployed reserves of each of the countries. What will be the consequence? The war will be long and bloody, and the drafts made upon the laboring classes for soldiers will stop the busy hum of the workshops and paralyze the agricultural interests of Europe. Then will the rich granaries of our North-west be opened and our cereals command fabulous prices. Manufacturing industries awakened, and our half million of skilled American artisans find employment in the industrial establishments of our country—our gold from our European neighbors will be rapidly poured into the laps of our deserving and patriotic citizens. Many of them will then forever regret that they permitted the splendid opportunity to pass without visiting that grandest of triumphs, our Centennial.

Never have we seen the Great Fort Wayne and Pennsylvania Railway offered such inducements to the traveling public. The superb sights, the glittering line of double steel rail tracks, the magnificent palatial cars which the Centennial visitor can view the scenes of our country's early struggle, running through the field of Braddock's defeat, and winding over the ranges of the Alleghanies, enjoying a sunrise on the famous horse-shoe curve, and for hundreds of miles passing in the midst of scenery so startlingly grand, charmingly beautiful and picturesque sublime, as to baffle the descriptive powers of the most graphic pen-painter correspondent, or the most enthusiastic landscape painter in oil and colors, showing the well defined evidence in the creation of a masterpiece of the Supreme Architect of the Universe, which so plentifully abounds upon the line of the railway of America, the Great Fort Wayne and Pennsylvania. Descriptive and elegantly illustrated guides of over fifty pages, may be had free, by writing to the General Office, No. 65 Clark Street, Chicago.

ANOTHER LITTLE STORY FOR THE JOURNAL. We have not told any little stories for the benefit of the Journal for some time. As we haven't time just now to "make one up out of our own head," we copy one from the Pottsville (Iowa) Review.

GOKE UP THE SPORT.—The Ossian Enterprise, after a precarious existence of less than a year has gone and left no sign. We shall look for a half column article in this week's Decoral Republican setting forth the cause of the "decline and fall" to be that "the field was already occupied by the Republican," and warning the good people of Ossian never again to so far lose sight of their interests as to give "aid and comfort" to any enterprise of that kind, as the Balleys have a patent on the newspaper business within a radius of 20 miles of Decoral, and of course the Ossian people will fall on brother Bailey's neck and promise not to do so any more!

For our part we look upon the failure as attributable to a lack of capital, a lack of ability, honor and business qualification, and not to the fact that "Bailey was 14 miles away."

PROCEEDINGS OF THE GRASSHOPPER CONVENTION.

WORTHINGTON, Sept. 20, 1876. The Grasshopper Convention met at the Worthington Hotel, pursuant to call, on Monday, Sept. 19th, 1876.

The Chairman stated the object of the meeting to be a general consideration of the grasshopper question, both as regards protection and relief.

The following resolutions were then adopted, to-wit: Resolved, 1st, That if we intend to stay in this country it is absolutely necessary that we prepare to fight the locusts the coming season with every means we have at our command.

2d, That of all the means yet discovered for destroying young locusts, fire is eminently the most successful and economical, both when applied to the prairie grass after the locusts hatch in the spring, and to the straw, etc., drawn out upon the fields.

3d, That in order to save the prairie grass the County Commissioners of each county in which the locusts have deposited eggs ought to see that thorough and good fire guards are made so that if a fire is by any means started it can soon be subdued.

4th, That we believe that such fire guards ought to be made at the expense of the different counties in the first place, and that it is the duty of the State to refund the money thus expended.

5th, That all persons ought to be very careful not to set any fire where it may by any means get to the prairie, nor allow any such fire to be set.

6th, That any person known to set fire to the prairie or where there is danger of getting to the prairie, be prosecuted to the extent of the law.

7th, That the County Commissioners be requested to cause handbills to be posted warning all persons not to set fire to the prairie grass, either intentionally or carelessly, and also to offer a liberal reward for information leading to the conviction of any person setting a prairie fire.

8th, That plowing ought to be done in strips leaving a strip about ten feet wide every ten rods on which to haul out and burn old hay, straw and other combustible material.

9th, That in plowing every other means in our power be used in favor of catching what is left, and in order to encourage this the State and General Governments ought to offer a liberal bounty for catching them.

10th, That our Legislature be petitioned to request the different counties for all expenses incurred in saving prairie grass and destroying the young locusts.

11th, That we petition our Legislature to pass a law making it the duty of the County Commissioners to make and preserve fire guards in their respective counties.

12th, That we adopt the resolutions of the Missouri Horticultural Society in the year 1865 in regard to creating a Commission on Entomology.

13th, That we request Hon. M. H. DUNNELL, M. C., the President of the United States to issue rations of flour for immediate relief of the sufferers of the devastated States, and to continue the same until Congress provides adequate relief.

On motion, the Convention adjourned.

The Toledo Blade makes the following good point on Hayes. Is such a man fit to be President?

Gov. Hayes bought a piano in May. The tax returns are made in Ohio in April. Now isn't it likely that Gov. Hayes knew when he made his return to the Assessor that he was going to buy a piano, and at a higher price than he put out for the purchase for one month in order that he might have the use of the piano a year without paying taxes on it? Here is a clear case of fraud on the government!

Pure Teas, in Sealed Packages. DELIVERED AT YOUR OWN DOOR, fresh from the GARDENS of their GROWTH. Imported direct by The Wells Tea Company, 201 Abolition Street, N. Y.

The difficulty of getting pure teas of really fine quality in the United States, has induced The Wells Tea Company to send their teas direct from the gardens in which they are grown, and at a higher guarantee of their being delivered in their pure state, than any other tea in the market. The teas are packed in the foot of this advertisement—so that the Teas pass through none but responsible hands, and will be delivered to your own door as fresh as when they left the gardens of China and Japan; the price also printed on each package, so that you can see at once.

Everybody buys Tea. Everybody wishes to buy it at first hands—the best qualities at the lowest prices. Everybody desires when they find a Tea suitable to their tastes, to be certain of getting the same article always.

You can have all these advantages by buying of The Wells Tea Company. Because they import their own Teas, and sell them at wholesale prices—without the six or eight intermediate profits usually charged. Because the quality is better at the price than is sold by any other house.

Because their teas are grown in China and Japan enables them to make better selections than ordinary Dealers—and to import them with great advantages. Because they absolutely guarantee the quality of all their goods—and keep them to one inevitable standard, so that you can always rely on them.

Because they do business for cash only—and therefore make no extra profit from goods customers to cover losses by bad debts. Because their teas are delivered to you precisely as received from the Company.

Because having once tried these Teas, you will not need to go elsewhere hereafter. WANTED—A Druggist, or other first-class merchant in every town and city in the United States, to whom will be given the SOLE AGENT-ship for that locality. Address, for terms and full particulars, THE WELLS TEA COMPANY, P. O. Box 4263, 201 Fulton St., N. Y.
