

The Worthington Advance.

VOLUME VI.

WORTHINGTON, NOBLES COUNTY, MINNESOTA, THURSDAY, JANUARY 24, 1878.

NUMBER 21.

SUMMARY OF THE GENERAL NEWS

Mark Lane Express Grains Report.

The Mark Lane Express of the 15th, reviewing the British corn trade the past week says: "The wheat plant is progressing favorably, and has, as far as can be ascertained, sustained no injury from the recent heavy rains. At the same time a dry atmosphere and some bright, cold weather together, it is acceptable to strengthen the seedling plants. But little progress has been made with threshing of late, as may be seen from the quantity of wheat marketed during the past week, farmers' deliveries showing a decrease of 45,000 quarters on those of the corresponding time last year. The supply of home grown grain has also been in poor condition, and this causes prices to be somewhat irregular. In Mark Lane there has been very little business done in English wheat, but in the provincial markets the tone has been rather better, and a moderate amount of activity has prevailed. The upward tendency in values for foreign wheat has received a temporary check, owing to unusually heavy importations which reached our shores last Monday, returns showing the arrival of over 111,000 quarters, besides large imports of American and Indian grain. The calculations of sellers have been somewhat thrown out of arrival of Russian wheat by way of Revel. Should the season continue mild and Revel remain open, our winter supplies may show an outlook for increase. Having regard to the fact that Russia is turning all her available power into gold, it is probable that she will carry on the war, apart from the political considerations, the present range of values for wheat appears to be a safe one. As far as can be seen, any material change either way would be the result of the political influences. But even if peace is proclaimed and the Black Sea ports set free, we could not calculate upon receiving supplies much before April. So taking all things into consideration, it would appear that a pacific turn in Eastern affairs would materially affect prices. It must, however, be confessed that this opinion scarcely obtains with millers. Prices are slightly in buyers' favor, although not quotably lower and the few sales which have taken place have been to supply immediate requirements. The coast trade is sold more freely on the spot. Mixed American wheat is slightly, but a revival in demand may occur at any moment, as the stock of sound corn in London is very short. Firmness characterizes the trade for barley and oats with small arrivals at ports of call. The floating cargo trade has ruled dull for wheat, and rates have declined.

Going to Vindicate Himself.

Dr. A. Nicholson, ex-superintendent of the late Central Indian superintendency in Lawrence, Kan., has made some statements in regard to the laying down of his office, and charges made against him by the board of inquiry acting under the directions of Secretary Schurz. The New Indian commission has abolished the Central superintendency because he desires to have the agents report directly to Washington. Dr. Nicholson was not discharged or dismissed, and has never been censured or complained of in the least by his inferiors. The charges made against him by the board of inquiry were trumped up on account of his friends, and were made up of a slender Smith and Chief Galpin. The doctor is about to issue an exhaustive reply to the so-called evidence submitted by the board of inquiry, in connection with which he will take occasion to denounce the official publication of that evidence before opportunity had been given for examination and rebuttal.

Death of King Victor Emanuel.

The King of Italy died at 2:30 p. m. on the 9th. The same afternoon the sacraments were administered. The King then summoned Prince Humbert, the heir apparent, and his wife Princess Margherita, to his bedside and conversed with them a few minutes. Afterwards the military trumpet increased. The King then summoned all who were in the habit of approaching him. He addressed to those present a few words, and a few moments after, died. The news of his death spread through the city, and caused great emotion among the people. All shops were closed. Prince Humbert was proclaimed King of Italy. He confirmed the present ministers in their posts.

Frenchmen Indians Arrested.

In November a man named Rhoden was killed by the Bannock Indians at Ross Fork, Idaho. The murderer was captured on Jan. 9th, by Capt. Cambridge, commanding at Fort Hall, since which the Indians were more hostile than before. Col. Jno. E. Smith, 14th Infantry, was sent to Fort Hall some time ago to induce the surrender of the murderer, but was unsuccessful. Major Hart with three companies of the 5th Cavalry arrived at Ross Fork Jan. 16, and together with three companies of the 14th Infantry, surrounded the encampment of the Bannocks on Snake River, and demanded its surrender which they did quietly. Fifty-five bucks, some arms, and two hundred and fifty horses were taken.

Labor Troubles.

A demonstration of unemployed workmen on Boston Common on the 19th was participated in by some 4,000 men, who were afterwards marched to the city hall and presented a list of resolutions to Mayor Pierce, who replied that he had no authority to offer employment, but the city council would do what it could for them. At Lynn, Mass., on the 19th, Mayor Babier, who furnished steam power to forty or fifty factories, stopped his engines, and the factories had to suspend operations. Babier claims that the engines required repairs. On the other hand most of those factories did not gain in the crusade against Babier, and Babier's action in stopping their motive power is regarded as a strategic movement to compel them to suspend. He was hoisted by a crowd in the streets to-day, and latest accounts state that he has started the engines again.

At The Jetties.

The honorable Chief Justice of Minnesota, accompanied by T. T. Mann Esq. of St. Paul happened just now to be spending a few days in New Orleans and his presence there has not only called forth very cordial greetings from the press and the people, but has made the occasion by the Press and leading citizens of that wealthy and growing metropolis for a formal interchange of commercial as well as social overtures assurances and pledges, and awakened the liveliest hopes between the Great States from the Lakes to the Jetties pointing their commerce down the channel of the Mississippi and thus cementing the bond of interest and common brotherhood with the South in bands of gold.

Revolt of Spotted-Tail Indians.

It is reported that a few days ago twenty Indians at Spotted Tail Agency revolted against the local authorities, and threatened the lives of some of the officials of the agency. Spotted Tail interposed to quell the disturbance, but was informed by the turbulent parties that while they regarded him as their head chief, they would not obey him under the present circumstances. Spotted Tail then drew his revolver and killed two of the insurgents, when the balance retreated and have not since been heard of. The cause of the difficulty, or whether it extends beyond the dozen Indians involved, is not known at this time.

Deputy U. S. Marshal Goodwin and five assistants of Nashville have returned from Huntsville, Northern Alabama, from a revenue raid. Three of Baisden's well known desperadoes who have been running a distillery in open defiance of law for two years, were captured and their apparatus destroyed. In Franklin county adjoining the one destroyed a distillery owned by Green Hoffman and Wm. Stanfield and Hoffman, five other distillers were captured. The same party destroyed three large distilleries in Lawrence county. They passed through Decatur en route to Huntsville, carrying sixteen prisoners the 16th.

Ball Road Highwaymen.

A bold robbery was perpetrated at Burlington, Iowa, on Sunday night. A passenger named J. L. Davenport, was told to take a rear car in order to make his destination sure, when, upon passing between the cars of Vernon Parish, Counsel made a motion to question indications, on the ground that proceedings were irregular. This was overruled without argument. The members of the board then pleaded not guilty, and were admitted to bail on an old bond. The day of trial is not fixed.

Members of the returning board were arraigned in New Orleans, January 18th, in the superior criminal court and the indictment read, charging forgery and altering returns of Vernon Parish. Counsel made a motion to question indications, on the ground that proceedings were irregular. This was overruled without argument. The members of the board then pleaded not guilty, and were admitted to bail on an old bond. The day of trial is not fixed.

A Precious Fair.

Miss Thompson and her gold-rich mare are who she espoused by Miss Marilla Richer, who aspires to be a notary public in Washington. She is "devoted to her darling black stallion" and wears a miniature of him set with diamonds. In the event of her death she will inherit \$10,000, and the interest of it is to apply to his comfort while living, and burying him superbly when he dies. Has the woman no affectionate relations to challenge her sanity?

Big Land Sale.

The Northern Pacific railroad company has commenced suit against the St. Paul & Pacific company, to contest the rights of that company in the lands recently donated by Governor Pillsbury in consideration of the completion of its line, south from Glyndon to Crookston. The lands upon which the Northern Pacific claim a lien, are located in the counties of Wilkin, Otter Tail, Becker, Clay, Polk, Todd, Douglas, and probably others, and embrace about 500,000 acres.

Little Men's Inauguration.

About fifteen thousand persons from all parts of the State and Philadelphia and New York, assisted at the installation on the 14th of Gov. McClellan. The procession was quite imposing. Flags, banners and bunting were profuse, and the carrying of the people hearty and continuous. Gov. McClellan was received at his residence by a salute of one hundred guns. The house tops were filled with people, as were the streets.

American Vessel Wrecked.

The Department of State has been informed of the loss of the ship Granger, on Swallow reef, and the arrival at Labnan of the second mate and six men. The fate of the other boats containing, respectively, Capt. Doane, wife and six men, and the other, containing the first mate and seven men is not known to the department.

England's Dilemma.

A London dispatch says that unless the belligerent party in the Cabinet obtain an unexpected success, it is anticipated that all the ministers can agree to accept of Parliament for a vote of money to prepare men and ships as a precautionary measure, on the same principle as Gladstone asked for a vote during the Franco-German war.

The Chinese Question.

A portion of the report of the late Senator Morton on the Chinese question was found among his papers, and will soon be presented to Congress as an incomplete minority report. There is enough of it to indicate the deceased Senator's intention to frame a treaty recommending a humane and liberal policy in the treatment of the Chinese question.

The Conflict in the Old World.

A great battle was fought Monday between Tatar Bazarjick and Philippopolis. The fighting was resumed today. The Russians have reached Tcherpan, south of Yeni Bagh, and are marching on Yeni Wahgret. Serson Pasha and Nomyk Pasha, envoys to negotiate with the Russian Grand Duke Nicholas, are en route to Kozanik. The Turks have bombarded Theodor, southeast of the Crimea. Servia demands the independence of the principality, center of old Servia, and the indemnity for Turkish invasion in the last war.

A Special from Constantinople says the Grand Vicer assured the German Ambassador that the ports were determined to make peace with Russia, leaving any power which objected to conditions to settle the matter with Russia.

Russian scouts, on the 19th, were in sight of Adrianople, and were expected every minute to enter the town. The garrison with their arms and baggage are retiring towards Constantinople. The old Serbia is burning. The Mussulmen have order. The Greek party, tripartite and rabbi maintain order. The once formidable Sultan Pasha and his forces are reported lost, so precipitate has been their flight before the conquering Russians. It is now believed that the occupation of Adrianople will be the last act in the great drama of blood, for it will be necessary for the legions of the Cross to advance any further to secure the equivalent of an unconditional surrender.

LIST OF MEMBERS

OF THE

Twentieth Legislature of the State of Minnesota,

—WITH THE—
Occupation, Postoffice Address, Age, Nativity, Etc., of Each.

SENATORS.

Name.	County.	Postoffice.	Occupation.	Age.	Nativity.	Settled in Minnesota.	Condition.
Abraham, Henry	Beaver Falls	Beaver Falls	Miller	49	Germany	1860	Married
Adams, Thos. H.	Becker	Becker	Banker	48	Ohio	1850	Married
Allen, Wm.	Waseca	Waseca	Farmer	48	New York	1850	Married
