

NEWS OF THE WEEK.

CRIMES AND CRIMINALS.

N. D. Sadler late Representative in the Legislature from Franklin county, Arkansas, was assassinated at his home Dec. 29, by parties unknown.

Four negroes charged with murder were taken from the jail at Monticello, on the night of Dec. 29, by a mob of fifty men, and shot to death.

At 10 o'clock on the morning of Dec. 29th, 100 masked men took two prisoners, one a half-breed, Indian, charged with murder, from the jail at Golden, Colorado, and lynched them.

James F. Edmonds, heretofore a highly respected citizen of Newton, Mass., on the 28th day of December, pleaded guilty to an indictment charging him with forging names of Lord & Arnold, former partners in business to notes representing an \$50,000 loan. The winter term will open as advertised, accommodations being secured in the city.

During divine services in the House of Hope, at St. Paul, Minn., on Sunday evening, Dec. 28, a thief stole his way into the pastor's study in the rear of the church, and carried off a quantity of clothing, including a fine overcoat belonging to Henry J. Horn, Esq., and a pair of gloves, and a costly seal skin cap valued at \$15, belonging to Prof. Lein, who conducts the House of Hope choir.

A man at Niagara Falls, who had given his name at the postoffice as Dr. D. A. Sikes, on the 24th of December committed suicide by throwing himself off the new suspension bridge. The distance of the bridge to the water below is 100 feet. He appeared to be about 60 years of age. He was a fine appearing old gentleman and displayed no eccentricity of conduct. He was an entire stranger and may not have given his true name.

Eight negroes boarded the Baltimore & Annapolis train at Camden station, N. J., at 11:18 Wednesday night, Dec. 29, and on the next morning started. They drove a colored man from the cars and soon afterwards made an attack upon another colored passenger. He fled to the ladies' car for safety, but was pursued there by the ringleader, who made several attempts to assault with pistols and sticks upon the passengers. A colored woman was shot in the neck, and a man was badly cut, and other passengers were badly wounded. It was with difficulty many passengers were prevented from leaping from the car while it was in rapid motion.

Urday and the chiefs selected to go to Washington to see the Los Pinos Agency Colorado, Dec. 29, bringing with them only a few dollars. General Hatch refused to go unless all the prisoners demanded by the commissioners were surrendered. Urday asked for further time, and a few days were granted to deliver them, as a Chinese ranch in thirty miles from the agency on the road to Alamogosa, at which place General Hatch will wait their coming. Urday is either playing a double game or is unable to accomplish what he attempted. The snow is from 3 to 10 feet deep on the mountain peaks, and the compelled to build sleds in order to make the trip. The success of the commissioners is somewhat doubtful and the army may be called upon to settle the Utah question.

A special from the Denver Tribune of Dec. 29, dated the 28th, represents that the situation is very serious there. Hatch was to have started from Los Pinos yesterday and spend the night at Cline's ranch on the Chisnaron. On the 30th he started from there to Alamogosa, which is the last railroad point in the territory. He was accompanied by the Indians, and as his departure is tantamount to a declaration of war, much anxiety is felt as to his fate. There are several hundred brasses over Los Pinos, and the whites all told will not number less than 1,000. The roads are blocked with snow and only passable for light buck-boards, and the Indians have the whites completely trapped. If Hatch has left without the Indians it is considered certain that the war will open at once. The latest news is that the army is preparing everything their own way at present owing to the removal of the troops to distant points.

A telegram was received in St. Paul on the morning of Dec. 29, by Detective Brissette from Sheriff Turner, of Worthington, Nobles Co., Minn., announcing that the other gentleman got off the train at Mankato, when nothing more was heard of the parties. Detective Brissette has forwarded all information obtained to authorities in these neighboring towns, and it is hoped it will be of some benefit to the authorities who will be brought before the justice seat.

CASUALTIES.
A \$45,000 fire occurred at Reading, Pa., Dec. 28.
There was a \$50,000 fire in New York City, Dec. 27.
James Sims of Erie, Pa. Dec. 29 was taken by a shaft pulley in a mill and was fatally injured.
Mrs. Clara Carvis of New Orleans, aged 106 years, was burned to death Dec. 27, by the explosion of a lamp.
St. Davids Catholic church at Mansfield, Pa., was destroyed by fire Dec. 24. Loss \$20,000 covered by insurance. The pastor, conductor of the men answering the call, and that the one with the smooth-face had changed cars at Kew-Forest, taking the "Winnona" instead of the "Winnona." The other gentleman got off the train at Mankato, when nothing more was heard of the parties. Detective Brissette has forwarded all information obtained to authorities in these neighboring towns, and it is hoped it will be of some benefit to the authorities who will be brought before the justice seat.

MORRILL'S MEMORANDA.

HOW HE PROPOSES TO RESTORE PEACE IN MAINE.

Answer to the Letter of Gov. Garcelon—Fourteen Conundrums Submitted for the Arbitration of the Supreme Court—All the Points at Issue Apparently Covered—The Republicans Denying the Governor's Right to Revoke the License of a Notary Public—The Governor's Power Being Held in the Cities for the Preservation of Peace.

Garcelon's intention to have a meeting at one opinion respecting the hidden meaning of Gov. Garcelon's letter to ex-Gov. Morrill regarding the submission of the question in issue to the State supreme court. Garcelon expresses a willingness to refer points that have not already been adjusted upon, but it is understood that he believes that these points are extremely few, and that he is really proceeding to settle the book nearly every case. This leaves the hope for a peaceful settlement through Morrill's plan, a decidedly fair one, though the Adams' mediation policy looks more like a ploy to prevent trouble on the assembling of the legislature but a square backing of the legislature but a square backing on the part of the executive, and how long it will last, one man can judge as well as another.

Development in the stock yards' strike at Chicago, Dec. 28, were that two of the principal houses would resume, on a promise from their employees that they will not be working on either side, although the strike seems to be serious discontent among some of the needy workmen at the continued loss of wages during their most remunerative season. Gov. Callum has instructed Gen. Torrey to hold the Federal troops in readiness to assist the sheriff in maintaining peace if necessary, and the members of that regiment are ordered to report at 6 A. M. tomorrow for duty. No trouble is anticipated, although the strikers are as stout as the intentions of the strikers.

The Mark Lane Express says: Frost, which, however, seems to be breaking up a bit, (Monday) has necessitated an indefinite postponement of the completion of wheat parties. Distress is increasing in agricultural districts, and cattle are suffering severely. Threshing is proceeding steadily. Deliveries at the principal markets are larger and the condition somewhat improved. The provincial trade, however, has been inactive owing to the postponement of the completion of wheat parties. There is a prospect of an increase of stock previous to the holidays. Nearly 400,000 quarters of foreign wheat into London last week were from American Atlantic ports. Supplies from thence are still in excess of immediate requirements. Still confidence in the future is a prominent feature of the present speculative state of trade which maintains the high price in America cannot last long here, as prices here, which are already sufficiently high to attract supplies from all the producing countries of the world, are not likely to withhold shipment until America has succeeded in establishing a fictitious value in European markets. Business in Mark Lane has been small, owing to fog and the approaching holidays. Prices were, however, maintained for all articles, except wheat, which is difficult to sell except at a slight reduction. For English wheat an advance of a shilling per quarter was occasionally obtained at the commencement of the week's trade, but the market closed firm but quiet. It remains to be seen how far the lead of America will be followed by Europe. Arrivals at ports of call have been large, being buoyed up at the commencement of the week, but were reduced by buyers to 16 1/2 per cent, but holders were firm, and business, consequently, for a few days at a standstill. At the close of the week, however, some cargoes had a decline of only about 6d per quarter. There was moderate activity in the market at 4 1/2 per cent per quarter decline. The high price in America still check business in red winters and springs for forward shipment, but there has been some request for Ghirka wheat at 1 1/2 per cent per quarter advance. The price of English wheat last week 4 1/2 per cent, at 4 1/2 per cent per quarter advance, at 4 1/2 per cent for the corresponding week of last year. Imports into the United Kingdom for the week ending Dec. 13, 1,387,417 cwt. of wheat and 159,229 cwt. of flour.

MAINE ELECTION TROUBLES.
The attempt to take from the arsenal in Bangor, Me., the arms and ammunition there to carry the same to Augusta, Me., generally known in this city until today. On Christmas night a team was waiting at the railroad station to receive the contents of the State arsenal in order to convey them to the arsenal at Bangor. The excitement caused by the Bangor affair was intense. The witness more prevailed until a true account of it was received. It was rumored during the day that the Capital guards were ordered out, but there was no truth in the report. Then it was said the Montgomery guards of Portland would be here by the afternoon train, but they did not put in an appearance.

STATEMENT OF GOV. GARCELON.
Gov. Garcelon reached the city this afternoon. Only two of the councilors were here, so no business was transacted. Gov. Garcelon was seen to-night, and said he knew nothing further of the Bangor affair than what had appeared in the papers; that for judicious reasons he would not discuss the matter, but would move the arms and ammunition to the arsenal, and thought the whole matter was one of great discredit to the city.

INCREASING THE POLICE.
At a special meeting of the city government in the afternoon it was voted to increase the police force to 200 men so that the city marshal may have a body to call upon in any trouble should arise.

A lengthy petition, signed by 233 prominent citizens of Gardiner, of both political parties, was presented to the governor to-night, urging upon him the propriety, expediency and justice of asking the opinion of the supreme judicial court, in accordance with the request of Mr. Morrill.

A petition was also made to the governor to-night signed by the seventy-nine citizens of Richmond without distinction of party. Also a petition from Hallowell signed by Republicans, Democrats and Greenbackers.

Indignation meetings are being held at various points throughout the State to-night, and addresses made by prominent citizens and others of leading local influence.

UNSUPPASSED "CHECK."

Exhibitors of "check," if they could be materialized, would command considerable attention at fairs. MORRILL'S MEMORANDA.

VEGETATION ON THE EARTH.

The densely-luxuriant tropical plants, with their lofty palms and banana trees, creepers; the more open woods of oak, elm or pine, and the plains of grass or healthy of temperate climates; the mosses and lichens of the far north, and the millions of minute algae on fields of snow; the enormous masses of marine plants, and the multitudinous green threads of every pond or rivulet, are one and all continually engaged during the hours of daylight in tearing from the atmosphere the carbonaceous matter from the earth or sea its water (with the mineral substances dissolved in it), in order to build up new masses of organic substance from these purely inorganic materials. The quantity of living matter thus daily formed may be truly termed enormous. The dry land of the earth's surface is estimated at 22,392,400 square miles. Let us assume that of this 15,000,000 square miles (or a little over two-thirds) are clothed with vegetation—neglecting altogether the vegetation of the ocean—and let the 85th part of an inch of the growth of this surface daily formed a mass one inch thick and 15,000,000 square miles in extent, which would make a solid cube of vegetable matter about fifteen miles in extent in each direction. It is not to be wondered that we should have accumulations of vegetable debris in the form of coal in some parts of the world (as in Pennsylvania), which may be in alternating layers of seventy feet in thickness, and extending to some hundreds of miles in length. The wonder, at first sight, is rather that the size of the solid earth does not, in succeeding ages, notably increase at the expense of its fluid and gaseous parts. The quantity of organic matter thus accumulated by vegetation and incessantly acting a manufactory, its fabric is nevertheless much like the web of Penelope; for close upon it follows death, and with the death of all organisms (whether by decay or decomposition) returns again for the most part (as water, carbonic acid, ammonia and various gases, etc.) to that organic world whence it was originally derived.
