

THE JUDICIAL CONVENTIONS.

THE REPORTS IN DETAIL.

THE REPUBLICAN CONVENTION.

HERON LAKE, Minn., July 23, 1886. The convention was called to order by Geo. W. Wilson, chairman of the judicial committee.

The following committee on credentials was appointed by the chairman: J. H. Nichols, Pipestone; Wm. Jacobson, Rock; L. S. Nelson, Nobles; B. W. Ashley, Jackson; B. W. Woolstenhulst, Murray; The committee reported the following named persons entitled to seats in the convention: Nobles—L. M. Lange, L. S. Nelson, C. H. Smith, Murray—C. W. Sargent, B. W. Woolstenhulst, R. H. Whitney, Cottonwood—Geo. M. Laine, E. H. Canfield, D. C. Davis, Rock—E. H. Canfield, Wm. Jacobson, J. O. Taylor, Martin Weber, Jackson—B. W. Ashley, Alex. Filides, B. Brown, Pipestone—J. H. Nichols, F. L. James, John Pemberton. Report adopted.

The roll of counties was then called and the following named persons were placed in nomination: A. D. Perkins of Cottonwood, P. E. Brown of Rock, C. W. Gilmore, Pipestone, T. J. Knox, Jackson.

The convention proceeded to an informal ballot for judge and J. T. Jones and C. H. Smith were appointed tellers. Result of informal ballot: J. T. Jones 5, C. H. Smith 4.

On the 1st, 2d, 3d, 4th, 5th, and 6th formal ballots named persons were chosen from the informal ballot. Result of the 6th formal ballot: Perkins 12, Brown 4, Knox 3.

On motion the nomination of Mr. J. H. Nichols was carried. On motion the chairman was instructed to appoint a judicial district central committee consisting of one member from each county.

ALEX. FIDDES, Secretary. THE DEMOCRATIC CONVENTION. The democratic judicial convention met at Heron Lake on Tuesday pursuant to call and organized by electing Col. T. O'Leary, of Murray, chairman and John Stewart, of Pipestone, secretary.

The chairman on motion appointed as a committee on credentials J. H. Nichols, of Pipestone; B. H. Bennett, of Nobles; and W. T. Buchanan, of Rock, who reported the following delegates present and entitled to seats in the convention: Nobles, B. H. Bennett, Gilbert Anderson, F. Esser and John Rock; Rock, W. T. Buchanan; Pipestone, John Stewart, A. D. Perkins, J. G. Anderson, H. H. Canfield, J. O. Taylor, C. W. Sargent, W. H. Crowell, Wilson, Burst, Herbert Cox, Cottonwood, C. A. Green, M. Grimes, O. N. Nelson, and the report of the committee was on motion adopted.

The chairman then appointed W. T. Buchanan, W. H. Crowell and G. Anderson a committee on resolutions. The committee reported the following: "We, the democrats of the 13th judicial district in annual assembly, believing that men should be selected to fill the judicial office for their ability and fitness rather than for their party views, do hereby nominate H. H. Canfield, the present incumbent and the nominee of the republican party for the office of judge of the Thirteenth judicial district.

The report of the committee was on motion adopted. On motion a judicial committee was appointed consisting of one member from each county, the district, as follows: Rock, H. H. Canfield; Nobles, Gilbert Anderson; Pipestone, John Stewart; Murray, Col. T. O'Leary; Jackson, D. E. Briggs; Cottonwood, G. M. Laine. The committee elected Col. O'Leary chairman and D. E. Briggs secretary. The following resolution was on motion then adopted:

"The attention of the democrats of the 13th judicial district is called to the fact that a democratic paper, the Laverne Times, is now being published at Laverne in this district, and we, the delegates of the judicial convention, ask for it a generous support."

The convention then adjourned. "RELATING TO SENATOR CROSBY." Under the above heading the Rock County Herald of last week contained a singular article concerning the late senator from this district. Without directly charging Mr. Crosby with selling his votes in the legislature, it intimates that he did so, and dwells upon the enormity of the offense. It also intimates that in future issues it will present facts which the people "ought to know and consider."

It is an adroitly written article, without a direct charge in it, and yet is so full of innuendo and severe comment upon what is hinted at, as to amount to libel.

Senator Crosby is yet to be heard from and we expect him to dispose of this matter in a way that will be satisfactory to his constituents. There is a bitter political fight up in Rock county and the Herald element is arrayed against Mr. C. and this is why the article is published. We hope for the good of all concerned that the Herald will have to acknowledge that it is "mistaken."

M. Webster, chairman of the recent judicial convention, writes to Judge Wilson that he has appointed the following district committee:

Chairman, Geo. M. Laine, Cottonwood; Geo. W. Wilson, Nobles; T. J. Knox, Jackson; E. H. Canfield, Rock; B. H. Whitney, Murray; F. L. James, Pipestone.

All good fellows and a good committee, but every mother's son of them is a lawyer. Does the judiciary belong to the lawyers altogether, and wouldn't it look better to put in a few who don't belong to the "craft?"

The Worthington Advance.

FREE THOUGHT, FREE SPEECH AND A FREE PRESS. VOL. XIV. WORTHINGTON, NOBLES COUNTY, MINNESOTA, THURSDAY, AUGUST 5, 1886. NO. 50.

OKABENA HOME FOR SALE.

THE MOST DELICIOUS PLACE IN NOBLES COUNTY.

The fact that Mr. Skyles is advertising his fine farm, "Okabena Home," for sale, affords us a good opportunity to again speak of a place which we have spoken of hundreds of times, and which we have always claimed was and is the eighth place in the county. In fact, we have had our eye on it for nearly fifteen years and have always entertained the hope that by some stroke of good fortune it would come into our possession for a suburban home. We have no doubt that our dwelling upon the fine points of the place, "beautiful for situation" and "country seats," had something to do with inducing Mr. Skyles to buy it.

A few days ago we strolled over it again, as we have done scores of times, following this time the line of the timber on the west and north sides, and then coming toward over some of the beautiful elevations which overlook town, lakes and country for miles. As early as 1872 we had selected from ten to twenty fine elevations on the place made on purpose for people seats and had anticipated the day when it would be cut up into five, ten, or twenty acre homes, each knoll adorned with the residence of some rich or well-to-do business man. Even this will be realized in due time.

Meanwhile it can be occupied and farmed as the finest farm for situation in Nobles county, and the occupant can have his choice of routes to town and of building sites. If he wishes, he can build on the high lands to the north and have a road to town past the Mitchell and Forbes places. If he prefers the lake side he has the lake shore road, or "bully-vard" into town.

Among the many good points about the place are the following: 1. Proximity to town. To persons who wish to be within easy reach of the society, schools, etc. of the town the place is just what is desired. The east line touches the lake at the creamery and is virtually in the village suburbs.

2. Lake front. The lake front begins at the creamery and winds along to the timber belt on the west side, a distance of half a mile or more. After reaching the bend of the lake and turning from the Laverne road, the finest plateau on the farm, or in the county, is reached. It slopes lakeward and in all other directions, and affords an elevated building site overlooking town and lake, which could scarcely be improved upon by any art of landscape gardening. This includes the famous stony point jutting into the lake and forming on either side a harbor for boats. This half mile of lake front could be cut up into a number of lake-front lots for suburban homes.

3. Water supply and springs. In clearing up the lake shore this season, Mr. Skyles discovered a number of springs on the place, coming out of the bank above the level of the lake. The farm therefore has lake water in abundance along half a mile of the front, springs extending from the timber on the west to some distance this side of the point, and of course well water wherever parties choose to dig.

4. Unequalled building sites. This we have often alluded to before. There are from ten to twenty building sites on the place made on purpose to build on. The slope of the farm is gradually toward the east and south, but the elevations are such that they all provide a splendid view of the town, the lakes, the railroads, etc., is had from any part of the uplands.

5. Meadow land. About 35 acres of the farm are in the belt between the upland and creamery. It is a natural meadow where the grass crop never fails.

6. Grove or timber belt. This is several rods wide and extends from the lake shore to the north side of the place, or to the Laverne road proper, and for some distance along the north side also. The trees are now large and afford an excellent wind break to the whole farm. Parties say they can feel the effects of this grove half a mile away, in coming to and going from town.

In a recent interview with Mr. Skyles he said substantially: "After a good look over the country my choice for a location settled on either what is now called Okabena Home or on the quarter across the lake where the fair grounds now are. As the latter could not be bought at the time, I at once secured the Home, 40 acres of parties in St. Paul, and 151 acres of parties in St. Paul. That was in the spring of '76. Had it surveyed at once and about 70 acres broken. In 1877 the present forest was set out, being the size of wheat straw and in number 27,000. The balance of the broke land was cropped by S. McLean. Everything grew and matured to perfection, there being over 1200 bushels gathered that fall, 640 bushels being the best hard spring wheat. The balance of the crops were oats, potatoes, corn, buckwheat, beans, etc. Have not resided here since and am not posted as to crops in detail, but have noticed the best of crops growing on the place during occasional visits. Mr. S. says he thinks fully as much of this country as he ever did and appreciates the home as in years past, and his only reasons for offering to sell are age, physical condition, and situation in life elsewhere. He thinks he has put the price at a very reasonable figure.

Mr. S. offers the whole 194 at \$27 an acre. Or he will sell the net and lot 1, making 1704 acres, at \$22 an acre, one-third cash and balance at 7 per cent. on reasonable time.

Dr. Barber sells only best Deane's Deodorized Gasoline. 431f

COUNTY NEWS.

BIGELOW.

Herman Yecko, of Bigelow, met with a serious accident last Thursday while on his way home from Worthington. When nearing Okabena bridge one of his coils commenced kicking and struck Mr. Y. on the forehead, and the team then ran away and tipped the wagon over on him. Mrs. Segerstrom, who was at the bridge when the accident occurred, helped him to get out from under the wagon. The team was caught at Lars Erickson's. Mr. Y. is considerably bruised but able to get about.

Two horses belonging to Mr. Clemens, supposed to have the glanders, were taken to Sibley to be doctored. The late rain is quite a help to potatoes and late fax.

B. F. Congdon has received notice of his appeal being allowed but has not received it yet.

RANSOM. Harvesting nearly all done except fax. Stacks can be seen in every direction, proving that crops are not quite a failure. Some threshing has been done; oats yield 30 bushels per acre, wheat is very good, better than was expected before cutting. Ransom can't complain very much about crops this year. We cannot always have a large crop.

Mr. Thompson's house is about ready for the season. The Wagner brothers have rented H. H. Belknap's place for three years and are putting up hay for the stock.

School closed in district 18 last week. Miss Hattie Hollis was teacher. Her room was fair and impartial, and she was very successful in her duties. A teacher more faithful and kind they never will find.

We are in hopes to see a roll for the meeting of the executive committee of the agricultural society, to make arrangements for holding a fair. Keep the ball rolling. RANSOM.

THE SHAM AND THE REAL. Every good thing has its host of imitators; every genuine article its counterfeit. Such manners and wicked habits have been also imitated. The sham has never boasted of it, while they who ape the virtues of the good or simulate the genuine never hesitate to brag of their imitations. The public in their most alluring tones. When these people imitate they always choose a pronounced type or popular subject to imitate. The sham is always to be as good as "So and So," the public may depend upon it that Mr. "So and So" and his article are always the best of the kind. The sham is always proving the genuine merit of the thing it copies.

A firm of enterprising gentlemen propose erecting an article of household use, such as the Royal Baking Powder, whose convenience, usefulness and real merit make it a household and universal sale. A hundred imitations arise on every hand, and as they hold out their sham article to the public, yell out in chorus, "Buy this; it's just as good as the Royal and will cheapen the Royal." The Royal is the standard the world over and its imitators in their cry that there is "as good as the Royal" are all the more exposing their own inferiority. The Royal is the standard the world over and its imitators in their cry that there is "as good as the Royal" are all the more exposing their own inferiority.

The severity of the drouth was broken last Friday by a pleasant shower that insured us a good crop of corn. The threshers have started but we are unable to give any account of the yield of what is threshed at present.

RUSHMORE. Mrs. D. Shell, Mrs. Garlick, Miss Winnie Shell, Master Lee Shell, and Miss Jennie Anderson, made Rushmore an afternoon call Saturday last.

Miss Maggie McCarthy, of Laverne, was visiting Mrs. Schaefer for a couple of days this week.

We've had a good rain at last and everything is looking up.

John Schaefer expects to start for the west soon, "a little more out west."

Farmers are cutting fax, the earliest cutting in many years.

Mr. Theodor Scherzinger has been quite unwell for the last week.

The Omaha railroad will hang out the red and white light signals soon. Still we advance and will soon be a civilized and enlightened community.

SUMMIT LAKE. R. Klessig is cutting his fax with a mower.

Last Saturday a thief visited the house of I. L. Wass and took a Smith & Wesson revolver and some valuables, among them his A. O. U. W. beneficiary certificate. As they would do the party or parties no good he will much obliged for their return. Lock your doors when you go out.

G. T. Bulick started his threshers yesterday.

Oats, barley and wheat harvested. Oats will average about 30 bushels to the acre.

Had a fine shower but too late for fax.

I. L. Wass has been on the sick list for the last few days.

If parents who have children would take C. W. Smith's advice they would never be without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, then in case of need, night or day, they would be prepared to cure sudden attacks of bowel complaints. It is absolutely unsafe to be without a reliable medicine of this kind at hand and we know of none better than Chamberlain's.

The publisher of Literary Life is having trouble with Rose Cleveland and ready. She wants to edit the advertisement as well as the magazine, and he wants her name to make the magazine go. After all, what's in a name? A Rose by any other name would write as sweet.

The August number of Demorest's Magazine comes to us freighted with good reading. Mrs. Croly contributes an interesting article on one of the typical dramatists, Genevieve Ward-Bennet. M. Tyng furnishes a good paper on South Kensington and its Neighborhood; and W. Jennings Demorest has two prohibition articles, "What is Prohibition?" and "Liberty and Prohibition." Mrs. Hart's serial is continued; there are several good stories, and a poem of one of valuable series "From Pencil to Brush," and "The World's Progress." The frontispiece is a fine steel engraving called "Harmony."

THE BASE BALL GAME.

The Winthrop Reporter has this to say of the game of base ball played at that place in which the Worthington boys came out ahead by a score of 12 to 7.

Last Friday's game of base ball between the Owls, of Winthrop, and the Okabenas, of Worthington, was truly a pitched battle. Neither side seemed able to do anything with the stick. Bowser, of the Okabenas, and Gilliam, of the Owls, being the only ones who could possibly do anything making three safe hits out of five times at the bat, one of Bowser's being a three-bagger. Bowser made his hit the first of the game, but Gilliam came up in the last three. Of the other players, Crawford and C. W. Smith, of Worthington, each rapped the ball once, and Klock and Sloan, of the Owls, got in their wickets with the willow—the former twice, and the latter once. Smith pitched a good game, and played well throughout the contest, making ten assists, three times at the first base, and only three battery errors and one field error. Klock did excellent backstop work, and Annesel played a good game. But Gilliam came up in the last three. Of the other players, Crawford and C. W. Smith, of Worthington, each rapped the ball once, and Klock and Sloan, of the Owls, got in their wickets with the willow—the former twice, and the latter once. Smith pitched a good game, and played well throughout the contest, making ten assists, three times at the first base, and only three battery errors and one field error. Klock did excellent backstop work, and Annesel played a good game. But Gilliam came up in the last three. Of the other players, Crawford and C. W. Smith pitched a good game, and played well throughout the contest, making ten assists, three times at the first base, and only three battery errors and one field error. Klock did excellent backstop work, and Annesel played a good game. But Gilliam came up in the last three. Of the other players, Crawford and C. W. Smith, of Worthington, each rapped the ball once, and Klock and Sloan, of the Owls, got in their wickets with the willow—the former twice, and the latter once. Smith pitched a good game, and played well throughout the contest, making ten assists, three times at the first base, and only three battery errors and one field error.
