following resolutions were passed by the Fraternity Lodge, A. F. and A. M., at a meeting held Jan. 21,

Whereas, it has pleased our Heavenly Father in His Divine providence to remove from our midst our beloved brother. Samuel M. Espey. Be it hereby decreed that while we bow in humble submission to the chastening of Him who is the Lord and Ruler of all, we feel deeply the void caused by our brother's departure from among us. Be it Resolved, that in our departed brother we lose one upon whose honor there dwelt no stain, a useful citizen a gentle and loving husband and father, one upon whom his friends could rely for support and sympathy in time of distress and need. Be it furthermore Resolved, that our hearts go forth in loving sympathy to his bereaved wife and children in their great affliction. May the God of the widow and orphan spread over them the sheltering arms of His infinite love, and shield them from the trials and difficulties of life. Be it also

It also
Resolved that these resolutions be spread

One of the largest millers in the United States, C. A. Pillsbury, is credited with asserting that millers do not dampen their wheat before grinding it. This is correct of some millers but not of all, and the reason is not attributable to differences in millers, but differences in wheat. Most of the California wheat ground in this State is moistened because it is necessary to do so. On the other hand, Oregon STATE OF MINNESOTA. 88 wheat will not stand dampening' as it contains enough water without this

treatment. On this account local millers prefer California wheat, as they can add the necessary water for nothing, which they have to pay for in the Oregon article. When shipped abroad or stored for months at tidewater, there is less difference, as wheat which is not moist will become so in a damp atmosphere. California wheat when affoat gains 2 to per cent, from absorption of moisture. A certain precentage of water in wheat s essential to render it fit for grinding, and the moisture has to be either found in the grain or applied artifici-
