THE SALOON QUESTION. For the coming year the village of Worthington has, by a majority of her voters who chose to appear at the polls on Tuesday, decided to allow the saleen a place in her borders, under a

high license for the privilege. Is is too late to argue the question se far as the coming year's work is concerned. The majority against license last year was very small, and the friends of license have been busy talking up their side of the case for a long time, while anti-license men have said but little. The result of this election is deeply regretted by all the opponents of the saloon. For a town which has been without the legalized saloon to is a last ward direction, morally speak

We are aware that the potent argument for license made by those who do not wish the saloon for their own accommodation, is that as an illicit sale will goon, which is untaxed, it is better to make the traffic pay money into the village treasury. But for this specious and mistaken appeal, the vote of Tuesday could not have been had. We will not argue the point, as no present result for good can now appear from so doing.

We shall hold the friends of this movement to their assurance that li ceuse shall be so given, and the licen. sees shall be compelled so to conduct their business that less harm shall be done under it that while the "bootleg"sale has been carried on. If their argument that regulation under license produces fewer evil results than occurs under the prohibition system, they now have the chance to make it

Although our farmers miss Mr. Pynch form the Worthington Mill, as he was a pleasant gentleman to meet, they warmly welcome Mr. F. Humiston to his place, as they know him to be a courteous and competent business

Congratulations to our young friends John Newton and D. Southerland, who start in on their first term of office this year.

In a recent article in the Youths Companion, on "How to cure a cold," the writer advises a hot lemonage to be taken at bed time. It is a danger ous treatment, especially during the se vere cold weather of the winter months as it opens the pores of the skin and leaves the system in such condition that another and much more severe cold is almost certain to be contracted. Many years constant use and the ex perience of thousands of people of all ages has fully demonstrated that there is nothing better for a severe cold than Chamberlaine's Cough Remedy. It acts in perfect harmony with nature, re lieves the lungs, liquefies the tough tenacious mucus, making it easier to expectorate, and restores the system, to a strong and healthy condition. I had lost two dear children from croup and consumption, and had the greatest fear of losing my only remaining daughter and son, as they were delicate. Handly, I find that by giving thom Ayer's Cherry Pectoral, on the first symptoma of throat or him trouble, they are relieved from danger, and king or robust, healthy children." "In the winter of 1885 I took a bad cold which, in spite of every known remedy, grew worse, so that the family physician considered me incurable, supposing me to be in consumption. As a last resort I tried Ayer's Cherry Pectoral, and, in a short time, the cure was complete. Since then I have never been without this medicine. I am fifty years of age, weigh over 180 pounds, and stribute my good health to the use of Ayer's Cherry Pectoral."—G.W.Youker, Salem, N. J.

"Last winter I contracted a severe cold, which by repeated exposure; became quite obstinate. I was much troubled with hoarseness and bronchial irritation. After trying various medicines, without relief, I at last purchased a bottle of Ayor's Cherry Pectoral.
