terminated his life began to manifest itself more plainly, and since that time it may be said he did not see a well day. Hoping a change of climate might help him, he last fall went to Arizona, but finding no improvement in his condition he returned to his home under the paternal roof to leave it no more. For the last two months of his life he suffered much, and death to him was doubtless a welcome messenger, but during this period of suffering all was done for him that loving hands could have been a prince of the blood he could not have been tenderly cared for.

The funeral service conducted by the pastor, Rev. W. A. Putnam, was held in the M. E. church on Saturday, after which the remains were laid to rest in the neat little cemetery a short distance from the church. The pall-bearers were six young men, intimate friends of the one they laid in his last resting place.

The funeral was a very large one, showing the esteem and sympathy of neighbors and friends.

As to the character of our friend and neighbor who has left us, it is needless to speak; his life spoke for him more eloquently than can any words of ours. A tree is known by its fruit, he was a young man of rather quiet and retiring disposition; kind and affable in manner and very conscientious; indeed we rarely meet a more conscientious man than was Willie Milton. In 1892 he was united with the M. E. church of Ransom, of which he has been an esteemed member ever since.

These seasons of affliction bring clearly to view some of the best traits of human nature. It is a pleasure to see the readiness with which all needed help is tendered. There are some especially who at such times seem like ministering angels. How much this world of ours would be brightened, were there among us more of the spirit of Him who came not to be ministered unto but to minister.

There is much that is really good in human nature after all. The bereaved family have the warm sympathy of the whole neighborhood.

A Card. We desire to return our warmest thanks to those neighbors and friends who were so ready to give all needed help in our late son's affliction.

THE DREADED CONSUMPTION CAN BE CURED.

T. A. Slocum, M. C., the Great Chemist and Scientist, will send Free, to the Afflicted, Three Bottles of His Newly Discovered Remedies to Cure Consumption and all Lung Troubles.

Confident that he has discovered a reliable cure for consumption and all bronchial, throat and lung diseases, general decline and weakness, loss of flesh and all conditions of wasting, and to make its great merits known, he will send free, three bottles to any reader of the ADVANCE who may be suffering.

Already this "new scientific cure of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure. He has proved the dreaded consumption to be a curable disease beyond any doubt, and has on file in his American and European laboratories testimonial of experience from those benefited and cured, in all parts of the world.

Don't delay until it is too late. Consumption, uninterupted, means speedy and certain death. Address T. A. Slocum, M. C., 93 Pine street, New York, and when writing the Doctor, please give express and postoffice address, and also mention reading this article in the ADVANCE.

A SIMPLE TIRE REPAIR.

Punctures in the well known Morgan & Wright tire are mended about as easily as a man would close a hole in his finger with a bit of court plaster. Inside of the inner tube of the tire lies a long strip of patching rubber, like this:

By injecting M. & W. quick-repair cement through the puncture into this inner tube, and then pressing down on the tire with the thumb, like this,

The repair strip inside is picked up by the cement, thus closing the puncture, like this:

Very simple, but—now every rider should remember these two "bits," or he will fail!

Before injecting cement, pump up the tire. If you don't, the inner tube will be flabby, like this,

and the cement will not get inside of it, where the repair strip lies.

When you have a puncture, get right off. Riding a tire flat, when it has a tack or nail in it, may damage it considerably.
