

There are Others

Who will want our special proposition on our—

VITOMULSION

the vitalized food, for convalescents who are run down in flesh—in vitality—in strength.

Our proposition will save you money. Don't come in to ask for it out of curiosity. Don't ask for it unless you mean business.

We have a lot of testimonials from people who have used it and will give you the benefit of their experience.

We make it right here in our clean drug store.

Doctors agree that our prescription department is very near perfection.

RAY HUMISTON, Pharmacist.

GO EAST THIS FALL.

Low Rates. Special Accommodations.

October is the ideal month for traveling, and parties who desire to visit friends in the east should avail themselves of the extremely low rates of fare for the Triennial Conclave of Knights Templar to be held at Pittsburgh Oct. 10th. and 14th., 1898.

Aug. Falk has left all collections in the hands of E. L. Schwartz, at the old stand, up to Nov. 1st '98, after that date they will be turned over to the sheriff for collection.

TEST OF DRAFT.

Triumph Sulky Plow vs. Walking Plow.

Test made made at Worthington, Minn., on June 23, 1898, between Triumph Sulky Plow, 16-inch, and St. Paul Plow Works Steel Beam Walking Plow, 16-inch.

The Self Registering Dynamometer and Measurements showed the following results:

Table with 3 columns: MEMORANDA, TRIUMPH SULKY, WALKING PLOW. Rows include Width of furrow cut, Depth of furrow cut, Square inches of earth turned, Draft to do the work, Draft to turn 1 sq. in. of earth.

To bring out a little more clearly the actual difference in the draft of these two plows we will make the following comparisons:

Based on the above, if the Triumph had turned a furrow 16 1/2 inches, which equals 96 square inches, it would have required 422 lbs. of draft.

Based on the above, if the walking plow had turned a furrow the same size as the one actually turned by the Triumph, which equals 112 square inches, it would have required 571 lbs. of draft.

Judges present, Julius Will, Worthington; Daniel Jones, Worthington, Minnesota. Nature of ground, black loam. Condition, good to plow.

J. I. Case Pow Works, Racine, Wis., Triumph Sulky. For Sale by John Ramage.

Last From Fort Snelling.

CAMP SNELLING, Sept. 11, '98.

The Fifteenth regiment has at last received orders to move, and everybody is getting ready to make the change. We are now booked to leave Tuesday, but it may be the last of the week before we get started.

The run of typhoid fever has been checked, the new cases now being few and far between. Our boys in the hospitals are getting along finely, with the exception of Andrew Bigelow, who is still very sick.

Since my last letter there have been two deaths in our company. Joseph Moffitt, of Lakefield, and George L. Michael, of Bigelow, died within 24 hours of each other. The remains of Moffitt were sent to his parent's home in Burchard, Neb. The remains of Michael were laid to rest in the Fort Snelling military cemetery with military honors performed by Company H. Corporal Cook, a minister of Co. A, conducted the services. Rev. Bull of the Methodist church of Worthington, was present, and spoke a few words in memory of the departed soldier.

Yesterday the regiment took part in a parade and sham battle on the state fair grounds. The battle was conducted in the same as would be done in real warfare except that blank cartridges were used. It was the Fifteenth's first smell of powder, and the boys went through it in first-class style, without shooting an ear off of anybody.

Our company now has about 45 men for duty. The remainder are sick in the hospitals or absent on sick furloughs. Those who are left behind when we leave will follow as soon as their health permits.

Camp Meade, Pa., where we move to, from all accounts is one of the best camps in the country. We will probably not be kept there long, but will be sent to Cuba to do garrison duty.

We do very little drilling now, but we manage to keep at something about all the time. Our company has purchased a base ball outfit, a foot ball a pair of boxing gloves, the last of which is the cause of several sore faces.

My next letter will probably be from Pennsylvania, and in that I will endeavor to describe our trip and our new home.

ARTHUR P. ROSE.

Beats the Klondike.

Mr. A. C. Thomas, of Marvaville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages, and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it even if it cost a hundred dollars a bottle.

As Thomas, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles free at Ray Humiston's Drug store. Regular size 50 cents and \$1.00. Every bottle guaranteed, or price refunded.

The Beneficial Ditch.

Work on the ditch is progressing finely and a large amount of the work is already done. A friend hands us some points of advantages for enlargement, but as they cover the whole field so well, we print them as originally written:

The great good and advantages expected to be derived from the proposed ditch or water way which is thought will keep the stage of water in Lake Okakana up to depth of at least seven feet, are:

1st, It will solve the uncertainty of a water supply of a much better quality for Worthington and vicinity for all time to come.

2nd, The water being of a good quality and free from weeds will make Lake Okakana headquarters for ice supplies for a good portion of Nobles Co., and eventually as the ice business increases, for a much greater extent of territory.

3rd, Often of late years though a low stage of water and cold winters, the fish in our beautiful lake have well nigh been exterminated, but a permanent depth of seven feet of water their safety would be assured.

4th, Another assured fact is, with that depth to run in, steamboats, already here, would undoubtedly be put on the lake.

5th, With the above added attractions to the already noted Okakana Lake, the increase of tourists would soon be so great that the opening out of the boulevard near the shore entirely around the lake could not long be deferred.

The Army and Navy.

Have covered themselves with glory during the present war. The army and navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of army and navy terms, translation of Spanish words, etc. Send ten cents to Chas. S. Rice, general passenger agent, N. P. Ry. St. Paul, Minn., for a copy.

Now that the War is Over.

Get a copy of the principal events of the war while you have a chance. This 20-page publication is beautifully illustrated with large half-tone pictures of battle ships, etc. No one should be without a copy. Sent free on receipt of five cents for postage. Address, W. R. CALLAWAY, G. P. A., Soo line, Minneapolis, Minn.

Capes and Jackets

We have this year succeeded in getting together the largest assortment of LADIES MISSES and CHILDREN'S CLOAKS of the highest qualities for the least money ever shown in the city. An inspection of our line is enough to convince anyone of this fact. The Cloaks are stylish garments, they are honestly made and the prices are in reach of all. All we ask is for you to see the garments, the elegance of fit, the excellent quality of the goods for the price we ask, the style—and we are sure of your purchase.

H. E. Torrance & Bro.

Hymenal.

MARRIED.—At the German Lutheran church, Sept. 18th, 1898, at Pflugst. Nobles county, Minn., by the Rev. B. Krumstroh, Mr. Carl Popkens to Miss Alvine Boltman. The Misses Lena Boltman and Clara Balgerman acted as bridesmaids and Wm. Popkens and John Boltman as best men. The ceremony occurred immediately after the usual morning service and in accordance with the beautiful church ritual.

After the ceremony at the church the guests were conducted to the home of the groom's mother where a bountiful repast was served to the host of friends that assembled there. The afternoon was spent in social intercourse—looking over the many useful and ornamental wedding presents. Provision was made for the enjoyment of all.

May the beautiful day on which the ceremony occurred be a fit emblem of their future lives in the wish of their many friends. Numerous friends were present from adjoining states to enjoy the occasion.

Wedding Bells.

MARRIED.—On Tuesday, September 13th, 1898, at 3 o'clock in the afternoon, at the residence of the groom in Elk township, Geo. J. Eguel to Johanna A. Brown, Rev. Krumstroh, of Pflugst. officiating. A large number of friends and relatives were in attendance. May be as well as usual presents were presented to the happy couple. A bountiful supper was served to the guests and a good time was enjoyed by all until the small hours of Wednesday morning when all all departed for their homes after wishing the happy pair all that they would have wished themselves.

Charley Brown acted as best man, and Paulena Brown as bridesmaid. The A d v a n c e joins their hosts of friends in extending hearty congratulations.

ANNOUNCEMENT.

I hereby announce myself as a candidate, for the office of Register of Deeds, for Nobles Co., for consideration by the Republican county convention.

A. G. LINDREN.

Advice to Consumptives

There are three great remedies that every person with weak lungs, or with consumption itself, should understand.

These remedies will cure about every case in its first stages; and many of those more advanced. It is only the most advanced that are hopeless. Even these are wonderfully relieved and life itself greatly prolonged.

What are these remedies? Fresh air, proper food and

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites. Be afraid of draughts but not of fresh air. Eat nutritious food and drink plenty of milk. Do not forget that Scott's Emulsion is the oldest, the most thoroughly tested and the highest endorsed of all remedies for weak throats, weak lungs and consumption in all its stages.

An Interesting letter From Michigan.

BATTLE CREEK, MICH., Sept. 9, 1898.

To the Editor:

I send the following article, hoping you may find it worthy a place in your paper. I have been here receiving instruction the last couple of years and wish to do all I can to disseminate these principles, and if you can use articles I will be glad to furnish them occasionally for the sake of sharing with others what I have learned.

To the readers of the A d v a n c e: As my mind reverts to early childhood, spent on the prairies of Nobles county, memory pictures to my mind that expanse of rolling prairie covered with waving grass, broken only here and there by the evidences of human enterprise, in the scattered homesteads and fields of grain. That picture presents quite a contrast to the sickly settled, rugged sandy hills of Southern Michigan, where I am at present.

I know Nobles county is no more a wild prairie county. From my memory of how good school houses were built all over the county and the fine school building in Worthington. I know the people were progressive in educational lines also. Therefore I take the liberty of writing something about the principles of the sanitarium in Battle Creek. The great undercurrent that gives force to what would otherwise be theory is the law of cause and effect. When a person is sick there is a cause, and one cannot be permanent, well until the cause is removed and nature, ever ready to make repairs is given a chance to work. We may assist nature by careful attention to exercise and good material to work with, such as plenty of fresh air and wholesome and nourishing diet, for as some one says, "We are made of what we eat."

If the children in our schools could be taught more about how to care for their bodies they could do much toward laying a foundation in youth for good health through life. What is more. What is more to be admired than a person with both mental and physical culture, and how much more such a person can accomplish. The ancient Greeks understood that when they left for us the terse expression, "A sound mind in a sound body."

Those who have given the subject much thought tell us that modern life is making invalids and dyspeptics of us. What is the reason? It is not because of the intellectual advancement we have made, because exercise of the mind is a normal function, the same as exercise of the body. The cause must be wrong habits of living, such as a lack of fresh air and exercise, incorrect positions in sitting and standing, improper dress and errors in diet.

U. F. Hansburger.

WORTHINGTON, MINN.

A Great Future.

As others see our prosperous county and progressive farmers who are proud of it and always ready to support their praises:

"The editor passed Friday and Saturday near Worthington, the county seat of Nobles county, Minn. This thriving town is situated in the midst of a productive farming community and is making great strides toward a bright and progressive future. The town has a population of 2,500 and is built upon the banks of a beautiful lake which extends four or five miles to the south. A \$65,000 court house, \$45,000 school house, numerous churches, water works, sewer and electric light systems and public improvements suggest a great future for the place when once the half developed farm lands reach a high state of cultivation. Near this place and Rushmore are located several O'Brien county people, all doing well and farming. Among them are John and Rudolph Rohrer, Charley Voss and Henry Drube. We had a short talk with the latter and found him very enthusiastic in his praises of Nobles county crops this year. Louie Anderson, who accompanied the scribe, invested in a choice quarter section 1 1/2 miles from Worthington, and the editor secured an option on an option on an eighty a short distance away.—Times, Paulina, Ia.

The First Local Gun.

The county campaign was formally opened Tuesday evening by the holding of primaries. In this village there was quite a spirited and interesting contest, resulting in a big vote being polled and an incident occurred that probably never has before and never will again.

First ward delegates elected favorable to D. Shell, Messrs. Beeson, Madison, H. E. Torrance, John Anderson. Vote 18 to 36.

Second ward delegates for election were: Gus Swanberg, J. J. Bingham, David Anderson, Jas. S. Rangeham, representing the Shell faction.

Geo. W. Wilson, Theo. Palmer, Thos. Crever, Merle Hurlburt, the Wilson forces, 102 votes being cast. One a first ward vote and another scratched, giving Anderson 51 votes and the other six 50 making them a tie. Lots were drawn resulting in one Shell man and two Wilson men being selected, leaving the delegates in this ward evenly divided, but giving Shell a majority in the village. In the town Messrs. Hansberger and Voss were elected delegates.

Cheap Excursions

Via B. C. R. & N. Ry., on July 5 and 19, Aug. 2 and 16, Sep. 6 and 20, Oct. 4 and 18. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold by RAY HUMISTON, druggist.

For Sale.

Three Shropshire Illinois Bred Bucks W. M. FINDLEY, Section 31, Elk.

The Nobles Co. fair enjoyed fine weather this year and opened under very favorable circumstances. The exhibits are not very numerous in any department. Prospects were good for some interesting races yesterday and to day. The attendance yesterday reached nearly 700 people and it is expected that the number will be exceeded today.

While Roadmaster Grahn and Superintendent Spencer, of the Omaha, were making a tour of inspection along the Pipestone branch, Thursday morning, they met with a serious accident. They were traveling with Superintendent Spencer's gasoline motor, and when about five miles out from this place, coming this way, their motor jumped the track throwing both to the ground. At the time of the accident they were running at a high rate of speed, which made the accident the more serious. Suppt. Spencer struck the end of a tie with his head, cutting a gash about three inches in length, and he was otherwise considerably bruised. He was at once brought to this place and taken to the office of Dr. Brown, local surgeon of the company who got him in shape to go to his home at Mankato on the afternoon train. Roadmaster Grahn escaped with only some slight injuries. It was fortunate that both were not killed outright.

—Heron Lake News.
