

## Explosion at the Big Store!

An explosion of prices--and the result can be seen below. The wonderful effect is noticed in many departments. Such showing of low prices on high grade goods can be seen only at the Big Store. The Big Store is the only store in the city which can handle merchandise in such large quantities, enabling us, by these large purchases, for spot cash, to sell cheaper than others. The prices quoted below are in many instances lower than some merchants can buy the same articles for, and in other cases lower than WE can buy the same goods for.
