

FOR THE SEASON OF 1902 I have just received 3 carloads of Vehicles
 And a full Line of Farm Machinery.

... The Deere Corn Planter ...

has won for itself the reputation of being the lightest running, easiest handled and most accurate dropper of any planter manufactured.

The DEERE RIDING CULTIVATOR has no equal!

Remember!

I handle the McCormick Binders, Mowers, Rakes, Corn Harvesters. The Largest Stock of Extras in Southern Minnesota.

FOR SEVENTY-ONE YEARS McCormick has manufactured machines for harvesting the crops of the world. To-day more than two million of these machines are in the fields—they are the product of the world centre works.

THE WORLD'S DEMANDS ARE CENTERED ON McCORMICK.

Three hundred and sixty-two thousand machines bearing that name were built and sold during the last season. We shall exceed this number during 1902.

Our immense output is distributed by railway and waterway throughout both hemispheres. All rail ways leading to the harvest fields of the continents carry our machines, and our cargoes are transported from our docks, through river, lake, canal, gulf and ocean to all parts of the world.

We have pride in being the first and greatest manufacturers of harvesting machines in the world in the recognition of our leadership by the world's agriculturists and by the juries of all the international exhibitions—in being the centre of the harvesting machine world.

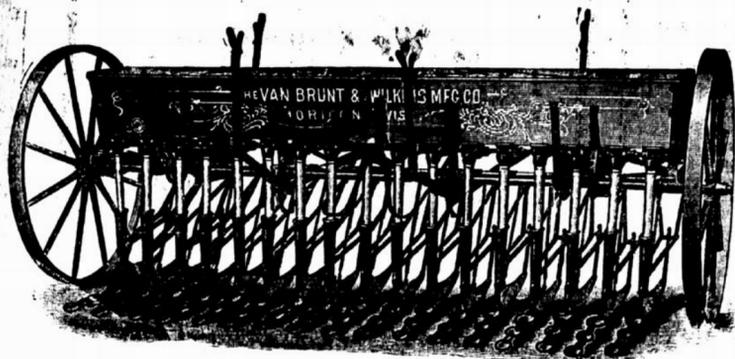

The basis of our success is the world-wide reputation McCormick machines have gained for their high merit in design and construction.

To excel is our inspiration—and, having surpassed our former records, we feel that the world's expectations of further advancement in harvesting machines are realized in the McCormick line for 1902.

Remember I carry a full line of FARM MACHINERY Advance Threshers, all kinds of Farm Tools at the most reasonable prices

I positively guarantee every article sold to give satisfaction or money or note received in settlement cheerfully refunded.

Asking for a liberal share of your patronage, I am at your service.

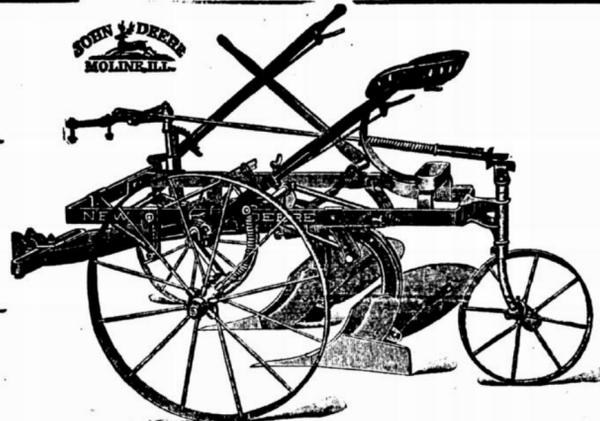

The Van Brunt Seeding Machines

have been manufactured continuously at Horicon, Wis., under the same management for over forty years. During this long period of uninterrupted business career hundreds of thousands of Van Brunt Seeders and Drills have been made and sold all over the world.

If you are thinking of buying a Double Disc Drill, look the MON 17 over before you buy.

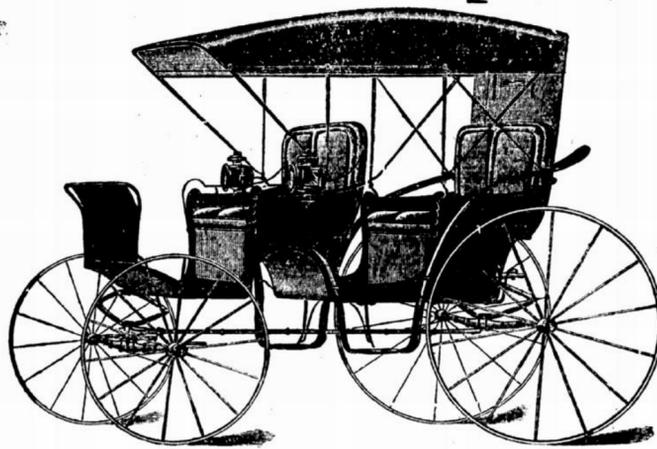

THE VAN BRUNT SHOE DRILL needs no introduction. We will put the Van Brunt Disk drill up in any kind of soil against any machine on wheels.

The Celebrated John Deere Plows

The most durable, the lightest and best any plow on the market. A child can handle them.

Deere Vehicles are all Right!

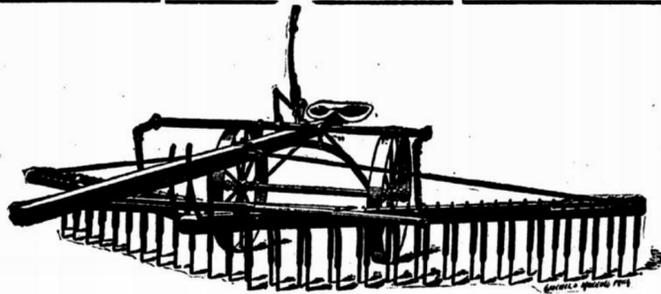

I call special attention to the following facts:

I make a specialty of vehicles and carry a full line of styles suitable for the trade in the northwest.

The Buggies all have large roomy seats, extra long bodies, are built of the best materials that can be obtained.

The latest designs.

Call in and look my line over and convince yourself that my vehicles and prices are right.

KEYSTONE WEEDER has the largest sale of any weeder on the market.

J. M. SHANAHAN, SUCCESSOR TO J. D. & W. I. HUMISTON.
