Cash Grocery Prices

The amount of Groceries we sold during the month of October was a surprise to us, and we thank our many customers for the appreciation they have shown us during the first month of our Low Price Cash Business.

The markets are steady with the exception of flour, and an advance may be looked for at any time. We urge our customers to buy their winter supply now. We, however, will keep our prices on the now low cash basis, and you may depend upon getting the lowest prices here.
