

## NEW CURE FOR EPILEPSY.

Remarkable Experience of Minneapolis Young Woman Who is Being Cured by a Strange New Medicine.

A recent letter from Mrs. Frank Olson, 1649 Marshall St., S. E., Minneapolis, Minn., tells of a most remarkable experience with a newly discovered medicine. According to her statement Mrs. Olson declared that her daughter has a violent case of epilepsy and had been suffering for some time.

The terrible disease was gradually tightening its deadly grip upon the victim and nothing was overlooked that could be done to check its course but in spite of all the young woman did not improve.

When Mr. L. T. Cooper, the well known philanthropist, visited Minneapolis with his New Discovery Medicines and was curing the very worst cases of nervousness, blood diseases, kidney and stomach trouble, catarrh, deafness and even paralysis, Mrs. Olson deter-

mined to have her daughter try them. Regarding the strange case she said: "My daughter had taken the medicine only one week when we noticed a marked improvement. She became more cheerful and more hopeful than she had been for a long time and I am confident that she will soon be entirely free from the awful affliction."

"We consider Cooper's New Discovery our best friend."

Cooper's New Discovery strengthens the nerves and quickly corrects all nervous disorders. The awful epilepsy, which in most cases is the result of over strained and wrecked nervous systems, can be prevented by the timely use of this new medical discovery.

Cooper's New Discovery sells for one dollar per bottle, Cooper's Quick Relief, the assistant remedy costs fifty cents. Both can be obtained in Worthington only of H. S. Myers.

Government control of railroads is a new departure, but a necessary one. Railroad control of the government was new when it started. Turn about is fair play.

Representative McCleary failed to land the chairmanship of the appropriation committee. Was Cannon afraid he would use the National treasury as a campaign barrel?

With eggs worth 25c per dozen the intelligent poultry raiser certainly has a gold mine in his hen coop this year, and for that matter there is never a time when biddy fails to give a good account of herself.

The Globe made its debut last Monday afternoon as a daily. Mr. Smalley has engaged in a laudable enterprise, and we wish him success. The appearance of the first numbers gave evidence that Mr. Smalley is a first class newspaper man.

President Corey of the steel trust is described in every respect a self made man,—even to the point where he made a fool of himself by deserting his wife and falling in love with an actress. His folly has cost him his \$100,000 a year job.

Reciprocity by means of maximum and minimum tariff, on the basis of the suggestion made in the president's message, is likely to be the most notable piece of legislation by the fifty ninth congress, not even excepting the railway rate law, which is expected to be on the statute books before the end of this session.

Last year the attendance at the International Live Stock show at Chicago Union Stock yards was 485,000. This year the show will be much larger and finer than ever, and it is likely that the attendance will greatly exceed that of any previous year. The show will be from December 16 to 23. It is a great thing for Chicago Christmas trade as well as for people interested in stock.

General J. H. Baker made the statement today that there is no reason why anyone should go to California to spend the winter. Minnesota's excellent climate is superb. Today, the seventh day of December, found a number of women seated on the front porch of the general's house. They were basking in the warm sunshine and enjoying the balmy air, while engaged in sewing and fancy work. —Mankato Free Press.

Gov. LaFollette is going to have the Stallworts, the railroad and the insurance companies of Wisconsin investigated by a legislative committee. If the governor's political methods were investigated rottenness would be uncovered compared to which the exposures in New York and elsewhere would seem like mere idle gossip. As a perverter of representative government LaFollette is without a parallel in American history.

### WAS NOT UNWILLING TO WORK.

Seedy Stranger Only Seeking Proper Implement of Toil.

"In the old days," says a well-known player, "when I was a member of a stock company in Chicago, we used nightly to gather in a bohemian resort near the theater. One night, just after the show, a number of us were seated at a table near the entrance, when there entered to us a lean and hungry looking chap, very thin and shabbily clad. Noticing his anxious gaze, one of the party immediately divined his purpose, and, anticipating the stranger, said:

"Sorry, old fellow, but as we ourselves are playing in rather hard luck we have no money to give you for a meal and a night's lodging. We're nearly broke ourselves."

"At this the stranger smiled pleasantly. 'Permit me, gentlemen, to correct a misapprehension,' said he. 'I was not going to ask you for money; I merely wanted to know whether one of you would not lend me a sandbag, so that I might go out and make a little.'"

Car Time in Cambridge Given. Several years ago a party of friends traveling through Cambridge, Mass., by trolley had occasion to ask the starter on a certain line how often the cars ran, to which natural question he made the following reply: "Quarter arter, ha' arter, quarter to, and at."

## Cheap Lands in Texas

ADJOINING OKLAHOMA  
Great Sale Now in Progress

The Houston & Texas Central Railway Company has decided to sell its land grant in Northwest Texas. To effect a quick sale and avoid the expense of maintaining sales agencies for a term of years, the lands have been listed at very low prices.

They are remote from the Houston & Texas Central road but adjoin the Rock Island main line running diagonally across Oklahoma and Texas. No such opportunity has been presented for years. A large part of the lands are located in

Hansford County, reached from Guyman, on the Rock Island.  
Sherman County, reached from Stratford, on the Rock Island.  
Dallam and Hartley Counties, reached from Dalhart, on the Rock Island.

Portions of the tract are well watered and nearly all of it is susceptible of cultivation. Transportation facilities are excellent and big markets within easy reach. Direct lines to Kansas City, Denver, Ft. Worth and Dallas.

Sale will be made in parcels of 160 acres up to four sections or 2,560 acres to each purchaser; prices from \$1.50 to \$4.00 per acre. Title was acquired direct from the State of Texas. It is therefore perfect. Taxes are low, terms are liberal and warranty deeds are given in all cases.

If you are interested, write quick for leaflet fully describing the location of lands, character of soil and climate and terms of purchase.
