

# All Run Down

THIS is a common expression we hear on every side. Unless there is some organic trouble, the condition can doubtless be remedied. Your doctor is the best adviser. Do not dose yourself with all kinds of advertised remedies—get his opinion. More than likely you need a concentrated fat food to enrich your blood and tone up the system.

## Scott's Emulsion of Cod Liver Oil

is just such a food in its best form. It will build up the weakened and wasted body when all other foods fail to nourish. If you are run down or emaciated, give it a trial: it cannot hurt you. It is essentially the best possible nourishment for delicate children and pale, anaemic girls. We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

### The Platform.

The men who aspire to represent Nobles County in the state legislature in the future will have to be men who command public confidence, and should stand on a platform including the following planks:

Anti-graft  
Anti-pass  
Anti-boss control  
Anti-rebate  
For reciprocal demurrage  
For taxation of sleeping car and express companies.

The people are waking up to an extent that bodes ill for the corporation tools that heretofore have misrepresented them.

### The Subtle Pass.

Ex-Governor Larrabee manifested the Lincoln faculty of illustration in his Des Moines interview the other day. In support of the anti-pass recommendation of Governor Cummins, he said:

"The pass tip is the source of much corruption. It operates insidiously, for it appeals to one of the finer elements in human nature, gratitude. This talk about the pass being a mere courtesy is the most outrageous perversion of the fact. I read the Kansas judicial incident which probably every one has read, illustrating the point. A few days ago a plaintiff suing a railroad for damages, sent to the presiding judge a \$100 bill. The judge grew frightfully indignant and called the plaintiff before the bench. He wished to know the wherefore of the insult and the reason for the attempt to bribe, as he denominated it. The plaintiff protested that he meant the gift merely as a courtesy, merely a token of respect and without any ulterior motive whatever. The judge still raged. The plaintiff then inquired of the court if he did not have in his pocket at that time a pass issued by the railroad which was the defendant in the case. The plaintiff replied that he only wanted to be on an equality with the opposing litigant. The trial was resumed and no one again heard of the contempt proceedings which had been threatened.

"I hope the legislature of Iowa will enact an adequate anti-pass law."

The story is a pointed one. It brings into clear view the real position occupied by one who opposes a railroad in some matter brought before an office holder who has a pass.

The Kansas man, however, had the advantage of most of those who are handicapped by the giving of passes. Can every man in the state of Iowa send the value of a pass to the legislature to prevent the railroad from gaining an advantage over him? Can the citizen in every city make up a fund to bribe the members of the city council who hold passes, not to take action harmful to them because of the passes? Can all the constituents of a congressman send \$100 bills to their representative who rides on a pass, so that he will think more of them than the giver of the passes?—Sioux City Tribune.

# ANNA HELD

CIGAR  
5¢

The difference between "Anna Held" and ordinary cigars is the result of the American Cigar Company's exclusive process of scientific *fermenting and blending*. The blending in the "Anna Held" is *real*, unlike the usual factory-made "tobacco sandwich" of several grades. The characteristic qualities of the various tobaccos required to produce the "Anna Held" flavor are thoroughly intermingled in the factory. This blending process is not even attempted by any other manufacturer. You'll appreciate the difference with the first puff of an "Anna Held."
