

FIFTY CENTS

IN some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

For State Senator.

To the Voters of Murray and Nobles Co.

As a candidate for the office of State Senator, I make the following announcement.

I stand for, and will uphold by my vote if elected, the following principles, believing them to be not only right but good business. I stand "four square" for the principles as set forth by our President, Theodore Roosevelt.

I stand squarely on the Republican platform as adopted by the party convention at Duluth.

I believe in a square deal for everybody; that it is not right for the rich to oppress the poor nor for the great to crowd the small to the wall.

I believe in the equal obedience to law by every one, be he rich or poor, by the great corporations and the small merchant, by the high official and the private citizen, by the saloon and the church, by the man in an automobile and the man in the cart.

I believe that no public official should ride on a pass or have free service by any corporation.

I believe that the small dealer and farmer should have an equal chance with the large and great.

I believe in Civic righteousness as opposed to all greed and graft.

If elected, I pledge myself to vote for the best interest of the district and state.

S. B. Bedford,

E. F. Clower, Bigelow.

The publication of that record must have touched a very tender spot from the way the senator from Nobles shouts dirty politics. It isn't a very creditable record and we don't blame him for trying to disown it.

Bulldozing tactics and attempts at boycotts may prove dangerous to the parties who are using them. Shell has been looking for a boomerang and we have no doubt he will find it. This is a country of a free press and free speech.

H. J. Westrip has a card in this issue announcing his candidacy for the nomination as county commissioner from the second district. There are four candidates for the position, all good men, and one of the liveliest fights of the campaign is in progress out there.

Maine held its election on Monday, with the usual results, the election of the entire ticket, all the members of congress and a large majority of the legislature by the republicans. Owing to the fact that the party declared for a continuance and rigid enforcement of the prohibition law the majorities were largely reduced.

Wonder who is furnishing the funds for Senator Shell's campaign. More than the \$250 allowed by law to be expended by a candidate has been spent, and of course the senator would not exceed the limitation. This being the case, who is sufficiently interested in securing his reelection to furnish money to pay the numerous workers who are daily scourging this and Murray counties! Can you guess who would be likely to profit by Shell's reelection? We hope this inquiry will not be regarded as dirty politics by the very sensitive gentlemen who wear the title of senator.

A number of years ago, in 1899 to be exact, railroad employees particularly those working on freight trains, asked the legislature of this state to compel railroad companies and corporations to put toilet rooms in all freight cabooses. As a result H. F. 283 to require companies to do so and providing a penalty for neglect was introduced. It passed the house by a unanimous vote and also passed the senate with only one dissenting vote (Senate Journal 1187) and that was cast by Senator Shell. He alone of all the members of the legislature was opposed to compelling the railroads to furnish this necessity and yet his supporters claim that every one of the 184 railroad men in Worthington

Dan Shell says he is an Agriculturist. We did not imagine he could get off such a funny joke. He must have had a strenuous laugh when he thought of that.—Fulda Republican.

Thirty two men who you are paying to do government work at Washington are in this district, neglecting their duties, in an effort to renominate Congressman McCleary.

You pay these men for certain work and they are neglecting their duties, at the bidding of Congressman McCleary, in an endeavor to get you to vote against your own interests. This is a sample of how McCleary takes care of you. Will you vote to give him another term.

Congressman McCleary represents the highest tariff and trust element of the republican party, which is entirely against the interests and sentiment of the people of the state and district. If renominated and re-elected he will continue to work against the welfare of the farmers of the second congressional district. This is his record in the past. Remember this when you go to the polls next Tuesday and vote for Gilbert Guttersen, the man who will truly represent your interests.

The official record of Senator Shell was extracted from the senate journal and printed for the information of voters. Every item is strictly true if the record of the senate is accurate, and so far as we have seen there is no denial that the votes were as recorded. To offset the corporation record here shown the Senator sets up a cry of "dirty politics" and his little circle of claquers hold up their hands in holy horror. It may be distressing to the senator to have his official record in favor of the corporations spread before the voter, but it is not an underhanded game. It does not descend to the level of uttering innuendoes against a man's private character, such as has been indulged in by some of the Shell workers.

Among the bills that have resulted in benefits to the taxpayers of the state that have become laws during the legislative career of Mr. Shell is the measure known as the Railway Gross Earnings Tax. This only became a law after a long struggle and repeated demands on the part of the people. During this struggle Mr. Shell was a member of the legislature and his record on this important question is of interest at this time. Here it is: H. F. 444 (Railway Gross Earnings Tax Bill), introduced by Mr. Jacobson. Put on its final passage April 15, 1897; 60 yeas, 24 nays; Shell voted no. H. J. p. 1045. The bill was defeated in the senate.

The same measure was again introduced in the session of 1899, and again met its Waterloo in the Senate, of which body Mr. Shell was then a member. It came before the senate March 28th on report from Committee on Judiciary that the bill be indefinitely postponed. The vote resulted in 31 for indefinite postponement and 30 who favored consideration of the bill on its merits. Shell voted for indefinite postponement. Senate Journal, p. 710. His vote would have put the bill on the calendar but he voted with the railroads.

This vote is estimated to have cost the state more than a million dollars in taxes. On a motion to reconsider the roll showed 30 yeas 39 nays; Shell voting no. Senate Journal, page 735. Again on April 11 another attempt was made to get the bill from the table, resulting in 27 yeas; 34 nays; Shell voted no. Somewhat amended the bill was reintroduced in the 1901 session H. F. 291 and came up for final passage in the senate on April 4. The roll call showed 53 in favor of the bill and 8 opposed. It is unnecessary to state that when a proposition came up to raise the taxes of the railways 33 1/2 per cent how Mr. Shell voted but it is due to him to say that he preserved his record and voted no.

This is the record of the senator upon one of the most important measures to the state and the taxpayers that has become a law during his 14 years service as a representative and senator, and it shows how he represented your interests.
