

BIG DAY FOR THE PARSON

[Continued from first page.]

As to Mr. Massey's general reputation, Gov. McKinney said it was good; that he had never aspersed it, and he had never heard any thoughtful man do so; that no man has been discussed more than Mr. Massey, and after measuring him all the way round and all the way up, witnesses doesn't hesitate to say that he will trust him (Massey); that he believes he is honest and truthful.

To Mr. Wise—He said he had never heard John W. Daniel in discussion with Mr. Massey. He had seen a letter in the Richmond Dispatch which was answered by Mr. Massey.

To Mr. Walker—Said he would certainly believe Mr. Massey on oath.

Gov. O'Ferrall and Attorney-General Scott will be on the stand to day.

Last June Dick Crawford brought his twelve-months old child, suffering from infantile diarrhea, to me. It had been weaned at four months old and had always been sickly. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic, Cholera and Diarrhea Remedy. Before one bottle of the 25 cent size had been used a marked improvement was seen and we continued use cured the child. Its weakness and puny constitution disappeared and its father and myself believe the child's life was saved by this remedy. J. E. MARLOW, M. D., Tananara, Ill. For sale by all druggists.

A VERY PAINFUL ACCIDENT.

Several Men Severely Scalded on the Torpedo Boat Ericsson.

By Southern Associated Press.

NEW LONDON, Conn., July 17.—Misfortune seems to have been the lot of the torpedo boat Ericsson since it came to New London from the Iowa Iron Works, Dubuque, a year ago, but none of the accidents have been as serious as that which occurred to day when the boat was in Long Island sound and when the star board low pressure cylinder was wrecked, breaking the steam pipe connecting with it and scalding five of the ten men on the engineers force.

Scalded men are: John Stransky, engineer, Dubuque, Ia.; William M. Erwin, Dubuque, Ia., machinist; David Cody, Jersey City, N. J.; Jos. Hamilton, New York; Austin Williams, New York. The last three are junior engineers.

The lighthouse tender Cactus was within hail and she took the victims to New London Hospital.

EDENTON, N. C.

The Windsor ball team come over on the steamer Bertie Tuesday afternoon and played a game of ball with our boys, and it is our pleasant duty to say that Edenton won the game easily. H. Dunston did the twirling for the visitors and for the first two innings he kept our boys guessing to some extent, but after that they got onto his curves and pounded him out of the box. He was relieved by Gregg, who was given the same unpalatable medicine. Makeley tossed the pig skin for Edenton, and there is no use of our commenting on his work.

Features—Windsor, catching of Gregg behind the bat, and the playing of first baseman; Edenton's good battery; work of Makeley and Dawson
