CINCINNATI:

SATURDAY, AUGUST 27

Foreign News.

We have interesting advices, a few hours later, by the *Etna*, but no news from the *Canada*. From the fact that no regular files were brought, it would seem that the *Canada* had sailed from Liverpool on her appointed day. Our fears are awakened by the unexplained delay. No allusions are made in the dispatches as to whether the *America* had sailed in her place, nor is any explanation given for her irregularity or non-arrival.

"Take That."

Money is some men's meat, other men's poison. To some men money getting and keeping is worship—it is the God of their idolatry. Nature seems divinely the slave to the mere gold, to the "mammon of unrighteousness," and, as Carlyle says, "blazes often enough like the blinding lightning against his slavehood, and flings him a bag of money, saying, 'That, away; thy doom is that!'" What a doom to a man of heart and emotion of love and improvement, to have the heart stifled with autocratizing, cankering cares, for mere money!

Penny Press in Dayton.

Our brethren in Dayton have the interests of the *Penny Press*, in that city, so much at heart, that they make the topic of its circulation one of sport, and even of anger. The *Empire* itself endeavors to convey the impression that our patrons are not reliably served in that city, but we assure our disinterested friend that we have good patrons in Dayton, a good carrier, and we give our readers a good paper, served at their doors for six cents a week.

The *Penny Press* has been extremely fortunate in securing the services of a faithful carrier. He pays promptly, and oftentimes in advance. As Dayton papers get a liberal advertising patronage from Cincinnati, we trust that they will not complain of their own citizens for suiting themselves with the Cincinnati daily paper they prefer. We can't help it if the *Penny Press* "coaxes" itself on the people, on account of its cheapness. *One cent a day* is within the means of all.

Our Schools "Pay."

From the dollar standpoint, the heaviest tax-payers agree that our schools pay; but every one engaged in the conduct of them, from the janitor of the school-house, to the Board of Directors, should manage the fund as one sacredly set apart for the noblest purposes—the education of American youth—every one of whom has an influence on the world and wealth, and who was and will be the State and Republic. Let all waste and misuse of the School Fund, be treated as offensive as *Simony*. Every man to his post, then, and every man should be posted. Stop all leaks, apply, properly, every dollar, pay liberally for good teachers, and expect and require no dodging or dozing. American pupils need men and women, native and foreign-born, for teachers, who are penetrated with the true American idea—that it is a conscientious duty to find what is the best germ in the pupil's heart and head, and develop it in the best way. Morally, socially and commercially, our Public Schools pay good dividends.

PISANA.—The *New York Herald*, of Thursday, states that the "fancy" of Gotham are terribly excited at the prospect of a meeting between John C. Heenan and Tom Sayers, the Champion of England. It appears that the backer of Aaron Jones has suffered the first deposit to be forfeited, with a view, it is thought, of opening the field to the "Benedict Boy," who may now be considered fairly in for it.

A gentleman in Lockport, New York, has ordered a model steamboat to be built for him at Buffalo. He intends to make a trip with it to Texas, where his friends reside. The boat is about forty feet long, seven feet beam, and eleven feet over all. The engine is to be of eight-horse-power. The boat, when finished, will cost about eight hundred dollars.

General Tom Thumb has set up his yacht, named, after himself, the *Charles S. Stratton*. The little gentleman made his first cruise on Friday, from Bridgeport to the Black Rock Light-house. The *Stratton* seems to have proved herself a crack sailer.

Mr. Tom Brock some time since added to his English racing-stud a young horse named "Chiel." A California contemporary presumes it is a progenitor of his that Burns referred to in the line:
"A chiel's a manny yakin' oats."

The *Erie* and *Caloric* Engines is now in use at the water-stations on the New York Central Railroad. At one station it formerly cost them fifty to sixty dollars per month to pump water; one of these engines now does the same work at a cost of three dollars per month. A considerable saving.

In Luck—*Porter's Spirit* says that Robert Harlan, of Cincinnati, bagged ten thousand dollars on the victory of the American horse "Stark," at the Goodwood Races.

The Democrats of the Soloto Senatorial district, nominated, on the 17th, William Newman, of Soloto, for Senator.

Rev. Stuart Robinson, of Louisville, Ky., has a \$10,000 call to go to New York city. Rather loud, that!

Editorial and Selected Melange.

Mildness, which is the glory of a lady in society, is never perfect but when universal and unalterable—a persevering virtue, which is never troublesome upon any account, is the most efficacious of all lectures—let your preaching be after this style, fair lady readers of the PENNY PRESS.

The Zurich Conference has resolved to prolong the armistice until the ratification of the treaty of peace. While we are looking at European belligerents with apparent indifference, is there not an armistice needed, and peace to be ratified between peoples in different States of this prospectively great, if an united, people? Remember, politicians, the admonitions of Washington against estrangements through party animosities.

The rigor of the Napoleonic rule is giving place to a generous policy to men who think for themselves, and speak and write what they think. The Emperor is announced to have published a political amnesty in France, including Changarnier, Louis Blanc, and Ledru Rollin.

This world is a state of action, not of rest; work here and rest hereafter.

The Cincinnati Conference of the Methodist Episcopal Church meets at Dayton, Ohio, on the 8th of September. The Laymen's Association will meet there on the same day. They are seeking to obtain lay representation in the annual and general conferences.

The Ohio Conference of the Methodist Episcopal Church, meets at Columbus, August 31.

SATURDAY.
A day of sin, of check—a clutter day.
For all, however, they miss the matter, say
This day they dread.
A day with hippis, ever with a penny fee.
Is that grand day of sin and bustle—Saturday.

A social Sunday morning meeting will be held at nine o'clock, to-morrow, at New Church Temple, on Longworth-street, to consider 1 chapter of St. John's Gospel.

Reasonable diversions make a part of our wants.

Thomas Corwin and Rev. John P. Durbin are both natives of "Old Bourbon," Ky.

It is a will-of-the-wisp delusion which leads off a laboring man from a true use of his earnings, to invest in the hazards of lottery tickets.

Henry Ward Beecher's new Plymouth Church, in Brooklyn, N. Y., is to be built. An award will be made for the best design early in September.

Milo G. Williams, one of the choice "old stock" teachers known in these parts, is in the city. He is now connected with the Urbana University, which opens next Wednesday.

The watch runs as well in a comely case as it would in a deal-box.

The draught is just as savory out of a chased tankard, and every good of household life is impaired by nesting among green foliage, climbing honeysuckles and parterres of flowers.

Wheat Crops.

The wheat crop of the United States this year is estimated at 200,000,000 bushels, mainly of very good quality. The consumption of the United States is set down at 125,000,000 bushels. It may be rather more than this; we are inclined to think that this season it will be near 135,000,000. If the latter figure be correct, the country will have a surplus of 65,000,000 bushels, of which over half will be available for export, the balance remaining on hand, as usual, to provide against emergencies, for seed, &c.

On the other hand, there are several countries which produce less wheat than is required for the consumption of their people, and who depend upon the United States to make up the deficiency. Such are:

1. The British Possessions in America, including the British West Indies, which may be relied upon to take about 7,500,000 bushels, either in the shape of grain or flour.

2. Brazil and the rest of South America, which will take 3,000,000 or 4,000,000 of bushels.

3. Spain and other Mediterranean countries, Australia, China, French West Indies, Cuba, &c., which always take more or less grain, and which may be put down as consumers of 2,000,000 bushels.

4. In Great Britain.—The average product of wheat in Great Britain in good seasons falls short of the average consumption about 4,000,000 bushels, which are supplied by the United States, France, Russia, Egypt and the Baltic countries. The proportion in which this amount is supplied by these various countries depends on the quality of the crops in each. Some years the United States supplies half the whole quantity; in other years, again, the proportion sent by this country is less than a third. For the past two years France has been the largest exporter of wheat and flour to England. The French harvests have been unusually bountiful, the surplus large, and the quality of the French flour exceedingly fine, while the proximity of the two countries has given the French a marked advantage over their more distant rivals. The smallest export of wheat and flour from this country to England since 1843 was in 1857-8, when we only shipped about \$11,500,000 worth; we have shipped over \$20,000,000 in the amount of wheat grown in England this year, and of the amount which can be furnished by France and Russia. It is yet too soon to speak.—*New York Herald*, 23th.

ENTRIES FOR THE CINCINNATI AND CAMBRIDGESHIRE.—The entries for these two great fall events of the English racing year have closed, and are in print. There are two hundred and one horses entered for the first, and two hundred and five for the second. Among the entries for the *Cincinnati*, we find the American horses "Starke," "Priocress," "Des Chiles," "Cincinnati," and "Woodburn," "Lincoln," "Priocress," and "Des Chiles."—*Porter's Spirit*.

BY LAST NIGHT'S MAIL.

Excitement in St. Clair County, Illinois.
An attempt was made a few days ago to arrest a negro in Belleville, which nearly resulted in a tragedy. The particulars, as given in a communication to the *Belleville Advocate*, we here subjoin:

On Friday evening last, about four o'clock, P. M., two men in a buggy came to the farm of Albert Wilderman, a settler by George Shoelken, near Belleville, and inquired of the man engaged in threshing wheat for the price, saying they wished to purchase some for sowing. With these men at work was a negro man named Burton Ellis, who has lived in this county three years, and is about thirty years of age.

The men, on seeing Ellis, who was at work near the threshing-machine, got out of their buggy and approached him, and presenting a pistol at his head and breast, commenced trying to kidnap him. He resisted, and one of the men knocked him down with a pitchfork. He arose immediately, and being a large and powerful man, throw off his assailants and ran, pursued by two men, who shot at him five times. One shot took effect, the ball striking him in the back passed through his body and came out at the breast. He fell to the ground, when he was immediately seized, bound hand and foot, and with a wounded condition thrown into the buggy and carried off. He has not been heard of since. All this occurred in the presence of several white men, neighbors of Ellis, and for whom he was working at the time, without any interference whatever by any of them in his defense.

LATEST BY TELEGRAPH.

REPORTED FOR THE PENNY PRESS.

Additional Foreign News.

ARRIVAL OF THE ETNA.

BOSTON, August 23.—The steamship *Etna* arrived here last night, with Liverpool sailed to the night of the 13th inst., having sailed twelve hours after the *America*.

The Zurich Conference has resolved to prolong the armistice until the ratification of the treaty of peace.

It is reported that the foreign Embassies in France would refuse to attend the Paris Peace Conference, unless the Emperor were allowed to be carried in the procession.

The Bank of France has gained 67,000 francs during the month of July. Three per cent. Renten on the Paris Bourse had declined to 697.25c.

A vague rumor prevails that Prince Napoleon was to be made Sovereign of Tuscany.

The King of Prussia was not expected to live a great while longer.

The collision between the Austrian and Prussian soldiers at Frankfurt was serious, but it is believed that no lives were lost.

Spain has resolved to increase the fortifications of Cuba.

The British Parliament was prorogued on the 13th inst., the day the *Etna* sailed.

C. Lennox Wyke has been appointed Her Majesty's Envoy Extraordinary to Central America.

The Atlantic Telegraph shares are quoted at 230.

The Paris correspondent of the *London Press* says that the Emperor is about to publish a political amnesty, including Changarnier, Louis Blanc and Ledru Rollin.

Advices from Italy indicate serious trouble in the Dukedom. Secret emissaries of the fugitive Princes were fomenting discord.

The people generally were bitterly opposed to the return of the Dukes, and Farina, the Dictator of Modena, threatens to level the city to the ground, sooner than see the Duke restored to power.

GREAT BRITAIN.—Parliament was prorogued on the 13th instant. The Lord Chancellor read the Queen's Speech. She regrets that the interruptions during the session have prevented many important measures from being carried, and hopes for their early consideration at the next session.

The war in Italy having been concluded, England had been invited to take part in the Conference of the Great Powers, should one be held, but no sufficient information on this subject was given to admit of a definite reply.

She would rejoice to be able to contribute to arrangements to serve a lasting peace. She hopes that a direct communication with Pekin will prove beneficial. She hopes for a continuance of the existing amicable relations with all powers, and rejoices at the complete suppression of the Indian rebellion.

She promises her serious attention to the intensions of the Emperor of India. She shall consent to the bills proposed for the naval and military reserves, and regarded permanent national defenses of paramount importance.

The remainder of the speech is congratulatory on the prosperity of the nation.

The *Daily News* says that the strike among the men belonging to the Building Association was likely to last long.

The *Herald* has reason to believe that the Grand Duke Constantine, on leaving Lyde, will pay a visit to the Emperor Napoleon, at Biarritz.

The doings in Parliament, on the 12th, were not of great importance.

LONDON, Friday Evening.—The *Times'* city article says:

"Securities have gradually become weaker during the last forty-eight hours. The knowledge that the Indian and Russian loans would be forthwith introduced, contributed to the heaviness, though not to so large an extent as was expected."

A similar influence is at work on the other side of the Channel, and while the position of politics may have something to do with the current of business, capitalists at the same time cannot be unmindful of the result of a steady absorption, such as is indicated by these operations.

The decline in Consols was nearly 3/4 per cent., and although during the day a slight rally occurred, it was not maintained, and finally taken place in the French Renten.

The positive range in quotations was from 95 1/2 to 95, but the final price was 95 1/2, with fresh symptoms of dullness in the more advanced hours.

The positive range in question was from 95 1/2 to 95, but the final price was 95 1/2, with fresh symptoms of dullness in the more advanced hours.

LONDON, August 13.—Last evening after the close of the Stock Exchange, the prospectus of the Russian loan of £19,000,000 sterling, at the rate of 5 per cent., was issued. The applications for this loan from the Continent are anticipated to be very numerous. The Indian loan of £5,000,000 is to be raised to five per cent. stock.

The War Department has decided upon giving to the East India troops, now in England, the option of claiming their discharge or transferring their service to Her Majesty's service.

ITALY.—The advices are contradictory. The *Liverpool Post* says: "The rumor published yesterday that the Red Republicans had obtained an advantage over the friends of order in Parma, and that the Piedmontese had been driven from that city, is confirmed, partially, by the news received from Austrian official sources."

On the other hand, we learn that Count Reiset, the French Emperor's Special Envoy to Central Italy, had, at Parma, handsell thrown into his carriage, expressing the wish for annexation to Sardinia. The Provisional Government of Tuscany issued a proclamation to the people, before the elections took place, calling upon them to enable, by their conduct, the Emperor Napoleon to do for Italy what he intended for their good, and it is stated besides that they have sent a special envoy to Berlin to obtain the consent of the Prussian Government to the removal of the present dynasty. With regard to the question as to who is to take the place of that dynasty, the Paris correspondent of the *London Star* returns to the project already mentioned, viz: a marriage between the Grand Duchess of Parma and nephew of Victor Emmanuel, the Prince of Carignan, to be followed by other marriages, destined to cement the union between the houses of Savoy and the Bourbons of Parma, and, at the same time to promote the cause of Italian unity, under the Sardinian supremacy.

In the Duchy of Modena everything seems in favor of a union with Piedmont. The people ran in crowds to vote the dethronement of Francis V. The Duke, it is added, is in the disguise of an astrologer, who wanders about in disguise, and is in secret to ward the zeal of his partisans. It is further stated that the Modena and Parmesina have been invited to a moster banquet, which is to take place at Piacenza, for the purpose of coming to an understanding upon three points, viz: First—the dethronement of the former dynasties; second—the annexation to Piedmont; and third—a confederation with Tuscany and Romagna, to secure a common political and military action. The military riots at Mayenza have been followed by others of a more serious nature in the neighborhood. In the city of Frankfurt, the seat of the German Federal Diet, fighting in the streets with side-arms, takes place daily. The combatants are Prussian soldiers on the one side, and the Austrian, Bavarian, and Frankfort troops on the other. This news is not very reassuring for the continuance of peace on the continent.

There is discontent in Italy, and dissension in Germany, and the opinion is gaining strength that there are serious obstacles to the establishment of the proposed Italian Confederation.

The *St. Petersburg Gazette*, on this last night, asks: "How can absolutist Austria, theocratic Rome, constitutional Piedmont, and the two

Siellas, Parma, Tuscany and Modena, be amalgamated? What measures can be adopted for the uniform development of the moral and productive forces of the nation? How can unity be established and discord prevented? Must Piedmont make a sacrifice of her liberal innovation to Vienna, or must the contrary take place?" "These grave questions," it adds, "can only be decided by a Congress."

FRANCE.—The news from Paris is Pacific in its tone. The Emperor has resolved to inaugurate a real and solid peace policy, and with this, now proposes to reduce the import duty on certain raw materials, including coal and iron, and to promote railroad works, and otherwise to give stimulus to trade and commerce.

TURKEY.—The Constantinople papers announce that the last earthquake completely demolished the town Ezzeroun, and even demolished the ramparts.

The *Etna* brought no regular files of English journals, but a few miscellaneous papers were found on board and forwarded to the agent of the New York Associated Press.

From Washington.
WASHINGTON, August 23.—The State Department has been officially advised that an order has been received at the Custom-house at Para, Brazil, authorizing the reduction of the Brazilian export duty to five per centum in favor of the exporter. The order took effect July 23.

Sixteen candidates have recently passed a satisfactory examination, and will be warranted as Third Assistant Engineers. The unusually large number of steamers added to the Navy during the past year, renders the increase of such officers necessary.

No definite action has yet been taken in the case of Quartermaster Cross, as recently investigated by a Court Martial. The delay is owing to the absence from Washington of the Secretary of War.

Commissioner of Indian affairs, Greenwood, has received a dispatch from Leavenworth, announcing the arrival at that place of the children who were spared at the Mountain Meadow massacre. They will at once be taken to Carrollton, Arkansas, near the point from which they were started, and will there be restored to their friends.

The Assistant Secretary of State is absent in Maine.

From Baltimore.
BALTIMORE, August 23.—George Brown, the senior partner of the Baltimore Banking-house of George Brown & Co., died at his residence this morning at an advanced age. Mr. Brown possessed immense wealth.

James Swan, another wealthy citizen, also died this morning.

Both were Ex-Presidents of the Merchants' Bank.

The *American* publishes an call this morning for a town meeting for the friends of law and order, without distinction of party, to put in nomination, candidates in opposition to the nominees of the rowdy clubs.

Henry M. Pithugh, one of the proprietors of the *Daily Exchange*, was assaulted this afternoon in an omnibus by a notorious rowdy, named Paul Frazier. Mr. Pithugh drew a revolver and fired three balls, which took effect in the hand and arm of the assailant. The affair produced considerable excitement.

River News.
PITTSBURG, August 23.—River twenty inches at Glass-house and falling. Weather wet.

LOUISVILLE, August 23.—River falling, with four feet four inches in the Canal.

St. LOUIS, August 23.—River continues to recede slowly, with only about five and a half feet to Cairo. All the upper streams reported falling. Weather cloudy, with some indications of rain.

From Chicago.
CHICAGO, August 23.—Preparations for the fair of the United States Agricultural Society, to be held in this city, commencing September 12, are rapidly approaching completion.

All the railroads centering here have made arrangements to carry stock and articles for exhibition free, and visitors at half-fare.

Superintendent Doyle has received letters from all parts of the country containing applications for room. The prospects for a successful fair are flattering.

Democratic Convention.
BANGOR, August 23.—The Democratic Convention of the Third Congressional District was held a few days since. William H. Durrell and James G. McClintock, were elected delegates to the National Convention at Charleston.

Both gentlemen are friends of Judge Douglas. Strong popular sovereignty resolutions were passed.

Later from New Mexico.
St. LOUIS, August 23.—The Santa Fe mail reached Independence this afternoon. The Kiowa Indians stopped the mail party, and forced them to divide their provisions. The Indians had declared their intention to levy contributions on all passers-by hereafter. A company returned from Pike's Peak report deep snow in the mountains.

From Boston.
BOSTON, August 23.—A committee of gentlemen from Connecticut is in the city awaiting the arrival of Governor Seymour to escort him to his native place, where a grand public welcome will be tendered him.

Governor Seymour is a passenger on the *America*.

Balloon Ascension.
OSWEGO, August 23.—Professor Steiner ascended in the balloon "Europa" from Toronto yesterday afternoon, and landed last evening eight miles south of this city, having come over Lake Ontario.

Later from Havana.
NEW YORK, August 23.—The Spanish steamship, *Pojo de Oceano*, from Havana, has been signalled below.

MARRIED.
On the 21st inst., by the Rev. Mr. Tate, Dr. E. C. LYLES, of Chicago, to Mrs. HELEN CHAPPELL, of this city.

DIED.
On the 24th inst., MARGARET ISABELLE, infant child of Charles and Mary Margaret, aged seven days. (New Albany, Ind., and Newark, O., papers please copy.)

At Ville Platte, Louisiana, on the 18th inst., of Consumption, HELEN MARY, youngest daughter of the late Zachary and Mary L. Coffey, aged thirty years.

On Thursday afternoon, at 3 o'clock, JENNIE, eldest daughter of James S. and Matilda Coffey, aged 7 years and 9 months.

The funeral will take place this morning at 9 o'clock from her parents' residence, No. 426 West Seventy-seventh-st.

In Newport, Ky., on the 23d inst., CURTIS, infant son of Wm. and Eliza J. Johnston, aged 11 months and 23 days.

SPECIAL NOTICES.

BUSINESS MEN'S PRAYER MEETINGS are held every morning in the basement of the First Church. All are invited. JY

LEONARD SWARTZ WILL be a candidate for County Commissioner of Hamilton County at the ensuing October election. au11-17
