CINCINNATI:

FRIDAY, SEPTEMBER 9

We return thanks to the Adams Express for late Western papers. Favors thus rendered are appreciated.

New President of Antioch College. Rev. THOMAS HILL, of Waltham, Massachusetts, having been unanimously chosen President of Antioch College, Yellow Springs, delivered his Inaugural Address last night, and the College, to-day, is in regular session.

Douglas Will Speak To-night. People of all parties partake of political excitement, and are enthralled by the hero of the hour. The non-arrival of Mr. Douglas, yesterday, disappointed several persons who came to the city by railroad, but to-night, he will, in very dead, speak at Court-street Market-space.

The Young Giant in Town. Those up to the fever point, in favor of the Young Giant of Illinois, can have an opportunity, to-night, after the open air speaking of Senator DOUGLAS, to see the operation of the open-air in driving the Caloric engine of the Penny Press. Call at our office No. 14 West Fourth-street.

The City Council To-night. The City Council will hold an extra meeting to-night, and should determine where the street railroad track should be laid along Fifth-street Market-space. As now designed, there is not room enough between the pavement on the upper side and the proposed track, to allow a market wagon to stand. As the horses were ranged along by the wagon last night a passing car would knock the hind quarters off them.

Union Discussions. It is to be hoped that political canvassers, in this State, will soon be elevated to the distinction of high-minded discussions by contestants for public office, at the forum of the people. An inauguration has been made of a reform policy. On Tuesday, the candidates for Governor presented themselves on the same stand, at Tiffin, Seneca county, and both were seen and heard by the people. They had a discussion, yesterday, at the Fair, in Dayton. On Wednesday, Governor GRANT and Senator POON discussed the Slavery question, pro and con, at Tiffin.

Ohio Mechanics' Institute Exhibition. These beautiful nights are harmonious with promenades and visits to the Fair. The people have responded nobly to the call of the Committee, and last night were present in numbers, perhaps two thousand. The esthetic culture of the Exhibition is a feature which should weigh with force, in encouraging a visit from every class of our citizens. The relations of use and beauty are practically exhibited in these rooms. Hours can be profitably spent on this collection. Days are insufficient to gratify a true observer. We wonder what the texture of that mind is, when the eye passes over the specialties as generalities, and the generalities as common places, that which patient, successful thinkers have embodied in models, the mechanics have wrought into shapes. These workings are, in most cases, complimentary conveniences for you. Reader, go and judge for yourself how well the workers are sitting you in the excellencies and the adequacies.

Dayton. This promising day, at the mouth of Mad River, was so full, yesterday, with Methodist preachers, blooded horses and politicians, that, in spite of the promising crop of tobacco in Logan's reserved district, it was seriously designed to tear down the palling and let the young "progressive" expand. So great will be the crowd in the city limits to-morrow that, in spite of the prudent fears of the Empire, the fenced-up portion will have to be reclaimed. Dayton was laid out by the same enterprising pioneer surveyor, ISRAEL LEDLOW, who laid off the streets of Cincinnati; our regard for Dayton is as for a relative. The whole two ranges—seventh and eighth—between Mad River and the Little Miami, had, for its proprietors, in 1793—immediately after the treaty of peace between General WAYNE and the Indians—Governor ARTHUR ST. CLAIR, General JAMES WILKINSON, JONATHAN DAYTON and ISRAEL LEDLOW. Dayton was laid off as a town on the 4th of November, 1793, and named after one of its proprietors, from New Jersey, who had been in the Continental Congress from that State. This bustling city is now a railroad center, and a point of social influence. Some of the oldest and most honorable families, of the "good old days," still reside in this city. A portion of the descendants of the founders of Cincinnati have grown with Dayton's growth, which has matured it from a rural suburb of Cincinnati to a polished, independent city. Success to Dayton, in all her relations, to her press and her people.

LATEST BY TELEGRAPH.

REPORTED FOR THE PENNY PRESS.

Three Days Later from Europe.

ARRIVAL OF THE EUROPA. "SACKVILLE, September 8.—The Europa arrived at Halifax last night at eleven o'clock. The Nova Scotia line being closed, the horse express left at midnight. Awaiting the opening of the office at Londonderry, and upon mail-vessels awaiting to be signalled, I forwarded one hundred and twenty-five messages of the morning which went through to Sackville before five minutes past nine o'clock, but the dispatch was withheld by the Nova Scotia Company's Sackville operator till the arrival of the express at four o'clock this afternoon." (Signed) JOHN HUNTER, Agent N. Y. Associated Press. SACKVILLE, N. B., September 8.—The Canada mail steamship Europa, which left Liverpool at nine o'clock on the morning of Saturday, the 27th ultimo, arrived at Halifax last night at eleven o'clock. Her arrival is three days later than those recorded previously. The steamship Ocean Queen, from New York, arrived at Southampton on the 25th ultimo, and the Paris reached Liverpool on the 27th. The United States schooner-war Plymouth put into Cadix on the 12th ultimo, in eight days from Cherbourg, and left the following morning.

The news from the Peace Conference consists mainly of rumors, which state that some progress has been made, and it is probable that a successful conclusion would be arrived at early in September. Sardinia refuses to accept, even provisionally, the annexation of the Duchies, without consulting the powers, particularly France. The Italians still maintain a firm attitude in relation to the National Independence. A telegraphic despatch dated Bern, August 24, says that the French and Austrian Plenipotentiaries have regulated the settlement of the affairs of Lombardy, with the consent of the Sardinian Plenipotentiaries, and the arrangement, it is expected will be confirmed by the overland.

The affairs of the Duchies are to be treated directly between the courts of Paris and Vienna. Austria, it is said, has modified her original instructions to her Plenipotentiaries. The French and Sardinian representatives were in consultation on the 24th ult. On the same day Count Colerado had a slight attack of apoplexy. There are constant arrivals and departures of couriers at Zurich.

FRANCE.—The Paris Patrie having uttered strong anti-Austrian sentiments, has, in pursuance of official orders, informed its readers that it does not receive its inspiration from the Government, but has expressed its own views only.

The Paris correspondent of the London Advertiser says that engineers have been sent to survey the whole line of the coast between Cologne and Calais, to fix upon a spot for a seaport, sufficient to contain a fleet of fifty transports, and the Minister of Marine has notified his subalterns that fifty transports, each being able of containing 2,000 men, must be ready off Dover, by the commencement of this ensuing year. The writer also says that a confirmation of this new order has been telegraphed to the English Government. He conjectures that the alteration will supply the pretext for a rupture with England. This whole story is regarded as a canard. The French camp at St. Maur has been broken up. The question of free trade will receive due consideration at the approaching council of the departments.

The liberals of France are disappointed at the number of eminent men declining to accept the amnesty. Their presence in France, it is contended, would be advantageous to the cause of liberty. The Paris Bourse has been firm, but closed dull and drooping at 69 1/2. ITALY.—M. Fanni, the Dictator of Tuscany, has issued a decree, suppressing the custom-line between Parma and Modena from the 1st of September.

The King of Sardinia, in returning thanks for a medal presented to him by a private society, said that his efforts were always concentrated for the great national cause, that he lived for it and was ready to die for it, and that though difficulties and misfortunes arise, they must be surmounted.

The London Times strongly urges the Tuscans to be prepared for the result of Austrian aggression, even if they have to fight. At the Council of Ministers at Turin, at which the King presided, it was decided that before accepting, even provisionally, the provinces which desire to be annexed to Piedmont, it was proper to consult the allied powers, and particularly France.

GREAT BRITAIN.—Nothing of political importance has transpired. The Queen was about to visit Scotland. She had determined on making the journey during the night at a uniform rate of speed of forty miles per hour.

Nothing has been done regarding the Australian mail contract via Panama. The Board of Trade returns show an increase of exports amounting to £291,000 for the month of August, and £9,829,000 for the seven months over last year.

The Naval Editor of the London Times gives, on the whole, a favorable report of the inspection of the Russian war frigate the General Admiral.

The potato blight is said to be making considerable ravages in certain parts of Ireland.

The protracted strike of the shipwrights on the Tyne had terminated by their receiving the increased wages demanded. Energetic efforts were being made to obtain a commutation of the sentence of Dr. Smithurst.

A trotting race had come off near Liverpool, which was won by an English horse named "Daw." The American horse "Jack Bonanza," "Mountain Boy" and "Dreadnaught" had obtained second, third and fourth places in a field of seven horses. Mr. Ten Brock's two-year old "Empire" had won two more races at Stockton.

AUSTRIA.—The Austrian frigate Novara had arrived at Trieste with the squadron. Vienna letters express a premonition of difficulties arising out of the Italian question, not to be settled by the Zurich Conference.

PAPUA.—Papua is said to be in favor of a European Congress.

RUSSIA.—The Cabinet of St. Petersburg is said to be divided in opinion on the Italian question. The German party opposed the independence of Italy, while the Emperor and a small minority manifest a more liberal sentiment. It is denied that the visit of Constantine to England has a political object.

THE SULTAN is suffering from illness. Mussato Paeha is empowered to settle the question of the Principality. Prince Vagorides is dead.

CHINA.—The Hong-Kong mail had reached London. The news has been anticipated by telegraph. The tea market was tending downward. Dealers are anxious to sell their old stock before the arrival of the new. The shipment of new tea from Foo-chow was taking place very early.

Advices from Canton say that a fleet of one hundred and ninety vessels will precede the English, French and American Ambassadors up the Peiho, in case of necessity to force a passage to Peking.

A general massacre of Christians had occurred in two towns in Borneo. The object of the defensive league between Tuscany, Bologna and Modena is stated to prevent the restoration of the fallen government, and to lay down a basis of assimilation, and their institutions. The National Assembly of Modena was prorogued on the 22d inst., having previously unanimously voted a decree confirming the Dictatorship of Parini, and giving him full power to contract a loan of \$5,000,000, and providing for the erection of a monument to commemorate the vote. Deereing the forfeiture of Francis V., and the annexation of Piedmont, and charging the Dictator to negotiate with the foreign powers for the restitution of the political prisoners that Francis carried away with him.

The Baltimore Town Meeting. BALTIMORE, September 8.—The town meeting, called by two thousand merchants, business and professional men of Baltimore, assembled this afternoon at four o'clock, in Monument Square, to deliberate upon, and devise for rescuing the city from its present condition and restoring the supremacy of law and order. The vast square was densely packed and all the avenues leading thereto, thronged by masses of the most orderly, respectable and influential of our citizens. The meeting was organized on motion of Charles D. Hinkle, by calling to the Chair, Wm. Woodward, of the well-known house of Woodward & Co.

The preamble and resolutions submitted, set forth in clear and emphatic language, the social and political evils so long endured by the citizens of Baltimore; condemn the existence of a slave rule, and proposes vigorous and effective measures to insure a fair expression of the sentiments of the public at the ensuing election, by protecting the purity of the ballot-box, and placing in nomination honest, able and fearless men in opposition to the nominees of the political clubs.

The resolutions also provide for the appointment of a committee, to call on the Mayor, and demand the next election, and the annexation of the next election, and the appointment of reliable men as judges of the next election, and the appointment of a special police force to keep the polls clear, so as to allow the exercise of the elective franchise.

The resolutions emphatically disavow all party ties, and empower a special committee to nominate, irrespective of party, the most respectable and reliable men for the officers shortly to be elected. The resolutions were adopted unanimously. The meeting was addressed by William George Brown, a distinguished leader of the bar; James Hodge, merchant, of the firm of Lodge & Brothers, and George M. Gill. The speeches were received with abundant approval. During their progress several efforts to interrupt them were made by members of the party. But they were promptly suppressed. After the meeting adjourned, a body of rowdies calling themselves regulators, &c., rushed upon the platform, and one attempted to harangue the crowd still remaining. The police, however, interfered, and promptly arrested the ringleaders, and carried some fifteen of them to the lock-up, amid the loud plaudits of the people, and the waving of handkerchiefs by the ladies crowding the windows of the hotels and private residences in the vicinity.

The Firemen's State Parade. ZANESVILLE, Sept. 8.—Twenty-one companies were represented at the parade to-day. A number of firemen present was eight hundred. The display was very fine, and everything passed off admirably. The crowd in the city is estimated at 20,000.

The Deluge Fire Company, of Dayton, first-class engine, took the first prize, throwing 207 feet.

The Phoenix Company, of Cleveland, second-class engine, took the third prize, throwing 212 feet 4 inches.

The Neptune Company, of Cedarville, third-class engine, took the third prize, throwing 240 feet.

The American Hook and Ladder Company, of Columbus, took a prize, by running a quarter of a mile with a man on the top of a thirty-foot ladder, in one minute and thirty-two seconds.

The Hope Hose Company, of Zanesville, took the hose prize, by running a quarter of a mile, having on three hundred feet of hose and throwing water through the pipe in one minute and fifty-five seconds.

The best feeling prevailed throughout. Dr. Gally, editor of the Zanesville Aurora, delivered an elegant address. Most of the companies left this evening.

From Washington. WASHINGTON, September 8.—The Postmaster General has received additional assurance from the States under the Johnson Pacific mail contract, that they will be prepared to execute the service. The United States vessels will render any protection which may be necessary, in connection with the Nicaragua route.

About 1,100 muskets and rifles have been sold at public auction by order of the Government. The former brought from one dollar to two dollars and a half, and the latter from one dollar to four dollars. The larger part of them were purchased by a citizen of New York, together with fifteen heavy cannon.

Leslie, the actor in the recent swindle upon the Philadelphia ladies, started for Philadelphia this afternoon, in custody of a police officer of this city.

From Pike's Peak. ST. LOUIS, September 8.—A special dispatch to the Bulletin says that the Denver City Express reached Leavenworth this morning. At a large meeting at Denver City a committee was appointed to prepare a memorial to Congress, embracing a detailed description of the gold diggings and the wants of the inhabitants, and praying for an Indian Agency, a military post and a wagon road from Denver City to Salt Lake City.

From Columbus. COLUMBUS, September 8.—The Annual Convention of the Delta-Kappa-Epsilon fraternity, is now in session here, and is largely attended, delegates being present from nearly all of the Chapters, representing most of the States in the Union. This evening an oration is to be delivered before the Convention by Dr. M. Bledsoe, of the University of Virginia, and a poem by George Pratt, of Yale College. To-morrow evening the festival will be held at Ambos Hall.

Vermont Election. MONTPELIER, Vt., September 8.—The vote for Governor in seventy-one towns stands, for Hall, 12,814; for Saxe, 5,123. The same towns last year gave Hall 11,465, and Keyes 5,148. Hall gains, therefore, over last year's vote in these towns 1,349. The returns from one hundred and sixty-five towns, give the Republicans 144 representatives, and the Democrats 17. In four districts there is no choice.

River News. LOUISVILLE, September 8.—P. M.—River falling rapidly, with two feet nine inches in the canal.

ST. LOUIS, September 8.—P. M.—The river has fallen two inches and a half in the last two or four hours, and continues to recede. Nothing new from any of the upper streams. Weather cloudy and warm.

New Jersey Politics. TRENTON, N. J., September 8.—The Republican and American Conventions at Trenton, N. J., yesterday united upon the nomination of Charles S. Olden, of Princeton, for Governor. Mr. Olden is an Old-line Whig, and a strong candidate.

About the Treaty with Mexico. NEW ORLEANS, September 8.—The Picayune borrows from authentic information that Minister McLeure made no treaty with Mexico, on account of the American citizen protection clauses.

Steamboat Sunk. ST. LOUIS, September 8.—The steamer St. Mary sank yesterday in the Missouri River, above St. Joseph. The boat and cargo a total loss. The boat was valued at \$20,000; insured for \$12,000.

The Turf. PHILADELPHIA, September 8.—At the race this afternoon, on the new Suffolk Park, between "Flora Temple" and "Priestess," "Flora" won three straight heats. Time—2:41 1/2, 2:51 and 2:53.

MARRIED. On the 8th inst., by Rev. W. S. Kennedy, Mr. DAVID BLANK to Miss ELIZABETH GREE, all of this city.

DIED. On Monday evening, August 29, of Pneumonia, on board the steamer Africa, three days before her arrival in New York, CHARLES, wife of Wm. Nixon, of this city.

Exemplary and beloved in all the relations of life, she has gone to her reward, for she died as she lived.
