Distrust.

The authorities of Pennsylvania have disarmed a colored military company of Philadelphia.

The Weather.

For a few nights frost has been very severe. On Friday morning we observed the ponds frozen over. Yesterday was mild and pleasant as Indian summer.

Tremendous!

The intelligent telegraph reporter in form us of the explosion of a locomotive boiler at Scranton, Penn., and says that it was caused by the pressure of steam! How a college education does set some folks up!

Old Kentuck to Give Thanks.

BELIATH MAGOFFIN, Governor of the Commonwealth of Kentucky, has recommended the citizens thereof appropriately to observe Thursday, the 24th day of November, as a day of thanksgiving and praise. Agreed.

Mechanics' Institute School of Design.

We have a large share of vigorous native talent in our shops and in the ranks of our Cincinnati youth, which would be developed into a very compensatory fitness, profitable to the possessor and the people, if cultivated in the Arts of Design. On to-morrow week drawing and designing classes will open in Greenwood Hall, and applicants should at once be enrolled. The expense is small, and instruction good. The opportunity should be at once availed of.

Chess Match Proposed Between Cincinnati and Philadelphia.

The West, represented in the chess players of Cincinnati, desire a contest of skill with the chess players of the City of Brotherly Love, beyond the mountains. The Athenaeum Club, of Philadelphia, have under consideration a challenge from the Cincinnati Chess Club to play a match by telegraph. A few days will decide as to the acceptance of the banter.

Keep Trying.

It is related of an old lady that she spoke quite favorably of the Dictionary, as an interesting reading book, only that it changed its subject so often. Our railroad friends have two subjects to dwell on, and to determine which they hold Conventions nearly every lunar month. One is to agree on the price of freight and the other the ticket rates. The Railway Freight Agents concluded a Convention at Dayton on Saturday, agreeing on a new tariff, to take effect on the first of November. To-morrow the General Ticket Agents meet in this city to adjust the passenger rates.

The Rumored New Appointment—Cincinnati Postmaster.

We learn that the magnanimity of the President of the United States is designed to be manifested in an especial manner to the good people in and about this Commercial Metropolis, by sending a commission of Postmaster of Cincinnati to Col. WILLIAM HENRY HARRISON TAYLOR, who received a similar appointment years "lang syne" from President TYLER. Mr. T. was a Whig, and latterly an appointee of the present Democratic Clerk of the Court of this county. The business of the Postoffice is being well attended to by Mr. FARNS, but if Mr. BUCHANAN wants a change we suppose we newspaper men have nothing to say. The appointments in this city and in Columbus, are, it rumor be true—restorations. We don't know what the President's religion is, but he must be a Restorationist.

Imposter.

The Lodges and members of the I. O. O. F. are hereby cautioned against the machinations of a person calling himself SAMUEL BROWN, who says he is a member of Fort Clark Lodge No. 100, at Peoria, Illinois. He has been obtaining money upon false representations, from Lodges and members of the Order in Kentucky, Indiana, Ohio, Illinois and Michigan. From a memorandum found upon his person, he has obtained, since August last, from various Lodges, in the above-named States, about \$300.

Said Brown is about fifty years of age, five feet ten inches high—no whiskers—red spots on face and nose; a small wart on the underlid of the left eye; light hair, somewhat gray; sandy complexion; rather stout built, and weighs about one hundred and seventy pounds; speaks slow and deliberately; voice hoarse; has a dignified and respectable appearance. Dress—black coat and pants, black satin vest, brownish-gray overcoat, and black silk hat.

We are requested by the Grand Secretary of the Order in this State to publish the foregoing, and ask the people of this and the States named above, to copy the same, and thereby prevent the imposture of this arrant rogue.

The McMicken Bequest.

Although the city of Cincinnati has not realized, and will not realize, the extravagant expectancy of a very large fund from the bequest of CHARLES McMICKEN, it would be an unworthy regard for the youth and orphans of our city to abandon the care and guardianship of the respectable amount which undoubtedly will be realized. It may be fortunate that there is not an undue accumulation, and we bespeak from the representatives of the city a thoughtful consideration of their duty in reference to this trust. Our excellent public schools provide amply for those who can and will attend day schools. We trust that the McMICKEN property will be placed in the hands of a Board, like that to which the HUGHES School Fund, and the WOODWARD High School Fund, were committed, and an ample supply of wholesome instruction and training may be given to a large body of young mechanics, apprentices, who are engaged during the day, but may and should be in attendance at classes and on lectures in the evening. We most earnestly invoke a high-toned spirit in all concerned, to procure practical results from the McMICKEN Fund. Most of it being the rent of city property, a reliable revenue may be depended upon, not subject to be squandered. Remember the cause of the apprentice lads and the orphans!

The Trustees are preparing to deliver to the city the custody of the real estate from and after the 30th of this month.

Editorial Brevities.

There is a new counterfeit reported on the Mechanics' Bank, New Haven, Conn.

W. C. DePauw, E. M. Donald and W. F. Mason, have been elected Trustees of the Indiana University, at Greencastle.

Look out for counterfeit quarters, halves and dollars.

Texas is receiving a heavy Northern emigration, and is being stocked with the best breeds of cattle and sheep. A number of coast-residents of this Lone Star State are delaying at this and other healthy points herabouts until the prevailing epidemic, the yellow-fever, has been arrested by the frost.

The freight-rates adopted by the Convention of Railroad Agents, last week, at Dayton, are advanced somewhat—say seven cents per one hundred pounds on fourth-class, and ten cents per barrel on flour.

A disposition is evinced to arrest further proceedings in the confirmation of the sale of the Central Kentucky, or Covington and Lexington Railroad, the City Council of Covington desiring to be one of the resistants. The city of Cincinnati is in the market to purchase, for extinguishment, \$200,000 of her bonds, due in 1855, issued for the city interest in the Cincinnati Whitewater Canal and the Little Miami Railroad.

Mrs. E. Kidder, the well-known proprietress of the "Dysentery Cordial," died of pneumonia, at her residence in Cliftondale, Mass., on Thursday.

Kircher speaks of stone bridges in China three and four miles long, and of an arch of the incredible span of six hundred feet.

Theodore Parker having been advised by his physician that he will, in all probability, never be able to address a large audience, has sent his resignation from his present place of sojourn in Switzerland, in his congregation in Boston, who declined receiving it, designating that nominally, if not really, he shall be their pastor as long as he lives. His health is not so far impaired but that he may write or speak to small audiences.

Rebecca Thomas, a young lady of twenty-three summers and winters, living in the vicinity of Dayton, last week obtained a verdict of \$2,000 in her favor, as a healing unction for having been wooed and won, and then discarded for another girl, by one Joseph S. White, a well-to-do farmer. Good for Rebecca. She'll have no difficulty in getting husbands, now that she is in funds.

LAND WARRANTS.—The price for these United States evidences of debt, rate low. On the 21st inst. their prices were quoted as follows:

QUICK TIME.—Sunday, October 23, we received the Lafayette (Indiana) Journal of the 18th, only five days out from the Wabash. Isn't there a screw loose somewhere?

The Louisville and Nashville Railroad is now open from Boargrass Creek to the Cumberland River, at Nashville.

Fanny Kemble and her daughter, have returned from their visit to England.

Snow fell at Kenton, Ohio, on Thursday last, and at Columbus on the 21st.

The enemy is threatening and will perhaps attack us before many days are over. In addressing my old companions of Lombardy, I know I am not speaking to deaf men, and that it is enough to tell them that we are going to fight the enemy of Italy. I shall look to see you then form in your ranks."

The Pope was to have an interview with the King of Naples at Castel Gandolfo, where he will prolong his stay, on account of the agitation reigning in Rome.

A demonstration took place in honor of the Sardinian Ambassador. A crowd of visitors, estimated at ten thousand, left their cards at the Ambassador's residence.

The stock market opened heavy, with a downward tendency in Western Railroad stocks. A good degree of firmness is still observable in State stocks and Railroad bonds.
