### LAST EDITION.

#### BUSINESS AND FINANCIAL CIRCLES.

#### FACTS AND FIGURES ABOUT THE RECENT FAILURES.

#### ALL QUIET UP TO 2 O'CLOCK.

NEW YORK, July 29.—J. B. Ford & Co., in a card published this afternoon, deny that their failure is in any way attributed to a falling off in the sales of Mr. Beecher's books since the trial. They say their business has been depressed since the panic of 1873, and that this, with the derangement of their spring trade by the recent fire in the bindery, is what caused their present embarrassment.

It is stated that Duncanson, Sherman & Co. had \$700,000 tied up in the Mobile & Ohio railroad, besides a very considerable sum in the Selma & Gulf road.

The stock market opened and continued steady to-day, and at 1:30 gold was quoted 122 1/2.

NEW YORK, July 29.—There is nothing new in financial circles at the opening of business this morning. The suspension of the Warehouse Company did not produce any marked effect, and was really so far from accounting as to barely elicit inquiries as to its causes.

The failure of Martin G. Bunn & Co., telegraphed last night by the Associated Press, occurred Monday, and with its causes, was noticed in these dispatches.

The embarrassment of the publishing house of J. B. Ford & Co. cause various comments. They are Mr. Beecher's publishers, and a large part of their revenue comes from the publication of his writings.

It is asserted that since the commencement of the great trial the sales of all these books have completely stopped.

The Delano muddle is still as uncertain as ever. It is asserted by some that he has been requested to resign, and by others that he has not.

#### After the Deluge What?

LAFAYETTE, IND., July 29.—The heavy rains of the last few weeks have materially injured the crops of all kinds, and the storms of last night and night before put everything completely under water. In presenting the measure he said that the bill was not acceptable to the Government because it was based on wrong principles. The present bill was intended to strengthen the Executive, facilitate more rapid and direct action, and provide a sufficient number of officers to effectually detain unseaworthy ships. It also allows a fourth part of the crew to demand a survey. Finally, it was merely an earnest of fuller legislation to be had next session.

Mr. Sullivan thought the lead-line provision for stowing grain should be ingrafted in the bill.

Mr. Roebuck denied that the bill would satisfy the country. He advocated continuing the consideration of Plimsoll's bill.
