Will Probably Resume Business.

SAN FRANCISCO, August 31.—A careful examination of the accounts of the Bank of California warrants the belief that the bank will resume business. The nominal assets are \$20,000,000, and liabilities only \$12,000,000, leaving a surplus of seven millions sure, and possibly eight. The stockholders are the wealthiest men in the community, representing over \$150,000,000, and the easiest way out of the difficulty will be to come forward with present relief and set everything running again. EMIL HOFFMAN, Esq., the General Deputy County Clerk, has returned from his trip to Solon, Va., having the greatest demand upon the attention of our teachers. The most interesting of these were the lectures of Prof. E. S. Morse of Salem, Massachusetts, and Prof. Lewis of our own city.

The lecture of Prof. Morse was of unusual interest, probably from the fact that the Professor not only was particularly familiar with his subject, but, moreover, being a skillful draughtsman, beautifully illustrated his lecture by some very fine blackboard drawings. The lecture did not speak to the student alone, but was brought within the immediate comprehension of every one present.

Prof. T. C. Mendonhall delivered a very interesting lecture on Physics. He gave to numerous minor lectures were delivered in various rooms of the building, which were only of interest to those particularly identified with our Public Schools.
