Death of Mr. Daniel McLaren.

Special to the Star.

GLENDALE, O., Sept. 9, 1876. Mr. Daniel McLaren died this morning at ten minutes past four o'clock.

OBITUARY.

Mr. McLaren was born in Dundee, Scotland, about the year 1820. At quite an early age he left school and went to Glasgow to learn the machinist's trade. Serving his time there, he came to this country and worked for a time in the machine shops of the Boston and Worcester Railroad, and afterward served as a locomotive engineer on the same road. About the year 1851, he came to Cincinnati, and was employed by the C., H. & D. R. R. as Master Mechanic.

Four years afterward he was promoted to the superintendency of that road, and in May, 1870, was elected Vice President. By the resignation of Mr. L'Hommedieu in July of the same year, he became President of the road, which position he held until April, 1874, when he resigned, and ceased active life.

Personally, Mr. McLaren was a large, heavy-set man, with a powerful frame, light hair and eyes. Socially, he was a most agreeable man, but was almost totally absorbed in his business, never seeking it for pleasure, which no doubt was the secret of his success, financially, as he was reputed to be very wealthy. He was emphatically a self-made man.

He was a member of the Congregational Church in Glendale, in which beautiful little town he has lived for the

last five years. His health up to last spring had been good, at which time he suffered severely with inflammatory rheumatism. Getting over that he went to Put-in-Bay some weeks ago where he contracted a severe cold, which resulted in pneumonia, and was the immediate cause of his death. His useful and busy life ended without a struggle. He leaves a devoted wife and two sons to whom their and his many friends will extend heartfelt sympathy in this, the hour of their bereavement.

The East and West End R. R.

Last Saturday the injunction against the East and West End Railroad, Route No. 5, was dissolved by the Courts, as has already been mentioned, and the work of laying the track as originally proposed has commenced. The new route which is to be established begins on Sixth and Elm streets, and by a double track proceeds west to Baymiller, thence north on Baymiller to Liberty, thence by way of Western and Harrison avenues to Ernst Station on the C., H. & D. R. R., returning the same way. On Sixth street, beginning on Central, the streets have been torn up, and the work is rapidly progressing, owing to the intelligence and energy of the Superintendent of that portion of the work. It is proposed to have cars running from the C., H. & D. R. R. Depot, on Sixth and Baymiller, to the Exposition by next Sunday.

Amusements.

WOOD'S THEATER.—The audience assembled at this house last evening was, considering the extreme heat, immense, and Mr. Byron as "Donald McKay" was never in a happier strain, seemingly inspired by his large audience. He played with an earnestness that, in his special school of acting, is a great requisite, earning for himself well-deserved honors. The support was very good, Mr. Russell making all that could be made of such a part as "Ledro, the Mexican," and the "Daniel Webster Hartshorn" of happy John Marble was all that could be desired. The ladies were acceptable in their small parts. "Ben McCullough" to-night, with Mr. Byron in the title role.

THE GRAND OPERA.—"Bulls and Bears" drew a fine audience last evening, filling the Grand very comfortably. Of all the modern society plays that have been produced in our city for quite a considerable time, "Bulls and Bears" localized, as it is, has become most popular, but in such efficient hands as it is it could not well do otherwise. Mr. Byers, upon last evening, was much the same as usual, extremely funny, though it is not the fun of a buffoon, but of broad farce, as some might be led to suppose, but an eccentric Solon Single style of naturalness, which, as remarked before, is extremely funny, owing to its very naturalness. "Bulls and Bears" again this evening.

THE NATIONAL.—This house was crowded last evening by a very enthusiastic audience, who, judging by the applause, were highly satisfied. The same programme, which includes Burt Clark, the Clair Sisters and Emma and Nettie Waite, will be repeated this evening.

GULICK'S GRAND CENTRAL.—The Grand Central had no cause for complaint last night, the house being crowded to its utmost. The Grinnell Children and Joe Murphy, as usual, carried off the honors. The same programme for to-night.

Base-Ball.

Quite a large crowd assembled yesterday afternoon on the Covington grounds to witness the game between the Chicago White Stockings and the Stars. A lively ball was used, and as a consequence the game was replete with niffs. The Stars were like straw in the hands of the Chicago, being crushed easily as the following score will testify:

Runs..... 1 2 3 4 5 6 7 8 9  
Hits..... 3 1 2 0 2 3 7 5-23  
Stars..... 4 3 0 0 2 0 1 0-10

The new Cincinnati ball grounds will be formally opened this afternoon by a game between the Reds and the Chicago White Stockings. The grounds can be reached by the Marietta and Cincinnati railway at an expense of fifteen cents for the round trip, or by a pleasant drive out the avenue. Game will be called at 8 o'clock, in order to allow all to return before darkness comes on.

A game of base-ball was played yesterday afternoon on the Union B. C. C. grounds between a picked nine of the Alerts and Franklins and the Ravens, which resulted by the score of 13 to 7 in favor of the former. Mr. Ober (topper) of the Alerts, put out at least 13 men behind the bat.

A match-game of base-ball was played Tuesday between the Aveyrs and Aldines, resulting in a score of 20 to 26 in favor of the former.

The Jewelers employed by Noterman & Jonas played the Diamond Setters from the same establishment yesterday, which resulted in a victory for the latter nine by a score of 25 to 22.

The Crawlers crawled over the Crawpers, who crept from under the Crawpers, with the following score: 53 crawls to 41 creeps.

The Vanguard and the You Knobs played an interesting game at the foot of Eighth street. The score stood 15 to 18, in favor of the Vandards.

The Vanguard Juniors defeated the Willows yesterday by a score of 24 to 32. Umpire, Thomas Manly, of the Never Sweats.

Church Chimes.

One of the most constant reminders to the American tourist in Europe that he is in "far countries," is the chiming of church bells. In Germany, France, Italy, and Belgium, there are few churches that have not at least an octave, and in England there is hardly a church of any pretension which has not its chiming of from eight to twelve bells. It was, no doubt, with the expectation that the popular English chiming would be as common in America that our patriot sires designated among the modes of celebrating the advent of our national anniversary the ringing of bells; for it can not be supposed that they intended the kind of ringing to which we are subjected on each recurring Fourth of July. Instead of being saluted by the joyous sound of a "Triple Bob Major," giving unmistakable token of a time for rejoicing, we are afflicted from our sleep by a clangor of bells more suited to arouse the inhabitants of a besieged city to make one last rally against the assaulting foe. Now, could not some of our splendid new churches be supplied with chimes, so that these may be used on joyous occasions, and the monotonous single bell's sounds of dismay be dispensed with on our natal day?

The Louisville Courier-Journal states that J. A. H. Brady, who returned a few days since from a trip through Kansas reports that it is estimated that the yield of wheat in the State will amount to 13,000,000 bushels surplus over the amount required to supply the wants of the people. Other crops are in the same proportion. This does not indicate that the grasshopper pestilence has been very serious there this season.

THE EXPOSITION.

The Opening Last Night—The Features To-day.

The ceremonial opening of the Sixth Annual Cincinnati Industrial Exposition took place at eight o'clock last evening in the west end of the Main Hall. The Board of Commissioners and several distinguished citizens occupied the platform. Promptly on time the President of the Board, J. J. Henderson, Esq., called the assembly to order, when prayer was offered by Rev. Henry D. Moore, followed by a brief address from Mayor Johnston. At the conclusion of the Mayor's remarks, President Henderson introduced the orator of the occasion, Rev. Dr. Noah Hunt Schenck, of Brooklyn, who delivered quite a lengthy address, which was received with hearty demonstrations of approbation.

President Henderson then came forward and returned the thanks of the Board for the hearty and generous support which they had received from merchants and manufacturers generally, who so promptly and cheerfully responded to their appeals to contribute toward and make this, the sixth annual display so attractive, and thus maintain the prestige gained by those of the past. He said: "It simply remains for me, as the chief executive officer of the Board of Commissioners, to formally announce the opening of the Sixth Industrial Exposition."

The Board at its meeting yesterday afternoon passed the following: "Resolved, That the thanks of the Commissioners of the Cincinnati Exposition of 1876 be tendered the committee of citizens in charge of the great industrial parade, on this opening day, and also to the city officials, the military and the business men who have spared neither time nor expense in making the parade worthy of the Exposition it inaugurated."

Whereas, There was in the Industrial Procession this day, a caricature of one of the great political parties of the country, therefore be it "Resolved, That the Board of Commissioners deprecate the introduction of politics into any features of the Exposition."

The caricature referred to above was the huge coffin given a position in the parade by the Cincinnati Coffin Company, and labeled "For the financial rag baby, to be buried October 12th."

Over three thousand tickets were distributed as an act of justice to the men and women, boys and girls, that helped to make the splendid exposition during the day. Very many of them came last night and swelled the number of visitors till they crowded all the halls.

TO DAY.

The Exposition to-day is beginning to look ship-shape, there being only a few of the exhibitors who have not as yet got their articles in position. Power Hall has made an almost incredible stride towards completion during the last twenty-four hours, a large portion of the machinery being now in active operation, and it is confidently expected that all will be arranged and the steam puffing and driving at full speed by to-morrow evening. Some of the displays this year will not be as fine as those of previous years, judging hastily and after a visit to the hall of very brief duration, but on the other hand, some are much larger and finer especially are unusually fine, and likewise the North Hall up stairs, which has been exclusively devoted to the ladies this year, is one of the most interesting features of the Exposition, far exceeding anything of the kind of former years. Judging hastily the Exposition of 1876 is destined to be a grand success. The attendance this morning was quite large, and a large number of visitors from abroad will be in attendance to-morrow.
