The Board of Trade will to-morrow elect its share of Exposition Commissioners for 1876. The Chamber of Commerce and the Mechanics' Institute have re-elected the old Commissioners. The duties of the Commissioners of 1876 will be to sell the old buildings and straighten up the affairs of the Exposition, and do a sort of general getting-ready for 1877 business.

Chief Meador received a handsome testimonial yesterday from the Convention of Fire Engineers at New York, lauding their congratulations on the improved state of his health, and hoping that he would soon be enabled to resume his duties at the head of the department, which, under his administration "has reached its present state of efficiency. Mitchell Johnson, the colored body-snatcher, arrested last Saturday by Officers Burns and Weatherly, was arraigned in the Police Court this morning on two charges of petit larceny. Both cases, on application, were continued till to-morrow. His bail was fixed at \$9.00.

A party of four ladies from Walnut Hills were recently returning in a hack from a funeral at Spring Grove. On Washington avenue the horses became frightened, and breaking the lines, dashed along the avenue at a break-neck speed. The body of Catherine Remmerle was severely injured. He was taken to a neighboring drug-store and his wounds dressed. A laborer named Charles Theiss saw the imminent peril in which the ladies were, and heroically jumped in front of the wild horses. He grasped the reins, and manfully holding to them, was dragged along for over half of a square, at times being completely under the feet of the animals. He succeeded in arresting their course after some time by turning them toward the sidewalk. The ladies escaped without injury, and owe their lives, without doubt, to the brave conduct of Charles Theiss. The vehicle was injured to a considerable extent, one of the wheels and an axle being broken.

The following permits were issued since our last report:

John Kuntz, repair one-story frame on Castine; estimated cost \$200.

M. Marcus, addition to three-story brick on southeast corner of Seventh and College streets; estimated cost \$165.

THE EXPOSITION.

The Flower Display to-morrow.

The Exposition is on its last legs. Only three more days and this grand show will be numbered among the things that were. The vendors of popcorn and sweet cider are beginning to lose spirit, and the sound of the grinding is low.

The employees are growing more polite to their washerwomen, and turn their paper collars often to the laundry day may never return again for many months. The gallant florists alone have not lost courage. Messrs. Critchell, Knott, Sunderbruch and others, who have made horticultural a second Eden, lavishing their sweet blossoms and buds with an apparently recklessness, sparing neither pains nor expense to make the flower display a grand success, will come to the front again to-morrow for the last time probably for a couple of years at least, for unless our florists should get up an independent horticultural fair next season there is not much prospect of their being any display soon.

The flower show to-morrow, however, will be something extraordinary, and will compare very favorably with the grand premium day. The entries are numerous, the premiums large, the exhibitors in good spirits—everything looking towards a grand success. The special attractions for to-day will be the following excellent musical programmes, the first to be rendered by the Germania Band this afternoon. The second by the Barracks Band this evening.

A SAVING OF FIFTY PER CENT. Aside from its purity and healthfulness, the new Dr. Price's Cream Baking Powder will save fifty per cent, as it requires one-third less powder to same amount of flour than any other baking powder. One-third less powder of Dr. Price's powder to a quart of flour is needed to produce the finest biscuits, cakes, etc. Be certain that Dr. Price's name is on the box, as imitations are being introduced. It is important to note the language of the label—steal the name—do not imitate the powder.
