cloth alike, which cannot be unraveled or pulled out.

They are all made with the highest mechanical skill and all warranted to work well on all kinds of goods, from the lightest fabric to heavy leather. In particular, we would sail attention of all to our new family flewing machine. It has been manufactured expressly for family use, and has met with favor from all. It is so simplified as to render it impossible to get out of order, or derange its operations indeed it is so simple as to astonish one, that so small a piece of mechanism will sew.

Below we give a description of the differentiatyies of the Weed Patent.

NO.1. Is avery convenient style which can be appeared by the control of the differentiaty of the Weed Patent.

Below we give a description of the differentityles of the Weed Patent.

No. 1. Is avery convenient style which can be worked by hand or foot, on or off its own table. For convenience of shipping and also for large manufactories where it is necessary to piace a number of machines into long bench making one table enswer for them all. Price \$90.

No. 2. With Walnut or Mahogany Table, either with or without Box Top, which locat down. Price \$100 and \$110.

No. 2. Same size as No 2, but runs with a bett and ata higher rate of speed. This kind is well adapted to manufacture ciothing or leather work. This is really the cheapest Machine in the market it will not do. It is confidently asserted that this Machine runs earler than any machine now in use Price \$100.

Price \$100.

No. 2. Same size as No 2, but runs with a bett and ata higher rate of speed. This kind is well adapted to manufacture ciothing or leather work. This is really the cheapest Machine that it will not do. It is confidently asserted that this Machine runs earler than any machine now in use Price \$100.

one side of the standard and decision of the standard and the standard

NO. 6. This is a machine got up we saw principle, different from anything ever before offered to the public, and we condently assert that for family use it has not an equal. It is very light and tasty, runs very rapidly, its almost noiseless in reatconnection with Lafayette a indianapolis R. R. is a contrastion, and uses a stranger stender on both sides, and carries at titches. It has a tension on both sides, and carries a large supply of thread on the under speed. The motions are gained by two small cranks that run without perceptible noise. The two threads are worked in such a manneras never to pull both at the same time, and consequently, little liable to break.

Second Train, leaves Bayton at 1138 A. M., arriving at Indianapolis at 280 F. M., making direct connections and consequently.

WHEELER'& WILSON,

Sewing Machines.

WE offer the Wheeler & Wilson Sewing Machines, with important improvements, at a reduction of \$25 on former prices, said to meet the demand for a GOOD, low-priced Family Machine, have introduced a NEW-STILE, working when the same principle, and making the same stitch, though not so highly finished, at PIFTY-PIVE DOLLARS!

The degame, speed, noiselessness and simplicity of the Machine, the beauty and strength of slitch, being ALIKE ON BOTH SIDES, impossible to ravel, and leaving no chain or ridge on the under side, the economy of thread, and adaptability to the thicarest or thinnest fabrics, has rendered this the most successful and popular fewing Machine sow made.

At our various offices, we sell at New Kork prices, and give instructions free of charge, to snable purchasers to sew orcinary seams, hem, fell; quilt, gather, bind and turk, all on the same Machine, and warrant it for three years.
