DAILY EMPIRE. ATME

But what about is naught to thee. And thus beside the toneful stream, I sit and sleep, and sleeping, dream; And still within that dream I one A face I love—'tis nampht to thee!

Morn calleth fondly to a fair boy straying Mid golden meadows rich with golden dow; She calls—but he still thinks of naught but And so she smiles and waves him an adieu Whitat he, will merry with his flowery store Doesns not that more, sweet murn, return

Noon cometh-but the boy to manhood grow Heeds no the time—he sees but one sweet form, One young, fair face, from bower of jasamin glowing,
And all his loving heart with bless is warm, fo nonn, nanoticed, seeks the weatern share, And man furgets that noon returns so more Night tapped gently at a casement gleaming, With the thin fire-light flicketing selt and low; By which a gray haired man is sadly dream-Of pleasures gone, as all life pleasures go.

Night calls him to ber, and he leaves his door
Stient and dark—and he returns no more.

for the whole Class of Disease nating in biliary decangement by the Malaria of miasmatic c

by the Malaria of minematic countries.

No one remedy is loader called for by the noconstitue of the American people than a sure and
side care for fever and Ague. Such a remedy
we are now enabled to offer, with a perfect certainty that it will crudients the disease, and with
assurance, founded on proof, that no harm can
arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevuils. Preceeded in this baleful
distorage. This "Cruz" expels the minemaile poison of Faver and Ague from the
system, and prevents the development of the
discase. If taken on the first approach of its mamanite poison of Faver and Ague from the
system, and prevents the development of the
discase. If taken on the first approach of its mamonitory symptoms. It is not only the less
remedy over ret discovered for this class of complaints, but also the chaspes. The large quantity we supply for a doilar brings it within the
reach of every body; and in billions district,
where Faver and Ague prevails, every body
should have it, and use is freely, both for cure
and probaction. It is hoped this price will place
it within the reach of all—the poor as well as the
rich. A great superiority of this remedy over
any other ever discovered for the speedy and
certain cure of Intermittents is, that it contains
no Quinine or mineral, consequently is produces
no quinine or other injurices effects whatever no Quinine or mineral, consequently is produces no quinim or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the dis-

left as healthy as if they had nover had the disease.

Fever and Agus is not alone the consequence of the minematic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheamatian, Gent, Hoadache, Blindness, Toothache, Estrache, Catarri, Asshma, Palpitation, Palmiti Affection of the Spicen, Hysteries, Pain in the Bowest, Coise, Parnlysis, and Derangement of the Stomusch, all of which, when originating in this cause, put on the intermitant type, or become periodical. This "Cure" expels the poison from the blood, and consequently sures them all silke. It is an invaluable protection to immigrants, and persons travelling or temporarily residing in the malarious districts. If taken occasionally, or daily, while exposed to the infection, that will be excented from the system, and cannot accumulate in sufficient quantity to rippe into disease. Hence it is even more valuable for protection than care, and few will ever suffer from Intermitumes, if they avail themselves of the protection this remicely affords.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC

FOR ALL THE PURPOSES OF A FAMILY PHYSIC are so composed that disease within the range of thair section can rarely withstand or evade them. Their preservating properties search, and cismase, and invigorate every portion of the human or ganism, correcting its diseased action, and restoring its healthy vitalities. As a connectment of these proporties, the invalid who is bowed down with pain or physical debility is astonichost to find his health or energy rentored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to fornish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Continuous, Heartburn, Hesidoch orising from disordered Shomach, Names, Indigentic, Poin in and Morbid Inaction of the Bowels, Florinecy, Loss of Appoitte, Jassetice, and other kindred, complaints, arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipied Dealers with some other plil they make more profit on. Ask for Aren's Pills, and take nothing else.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the

Almanaes are given away by all our agents. W. W. Stewart, and J. W. Dietreich, july6-lydaw59 Daytor. So wide is the field of its usefulness, and so numerous are the cases of its carea, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its uso. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer healtate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

FREPARED AT So wide is the field of its usefulness, and so
