

CHEERING TO FARMERS.—Capt. Phelps of Leicester, in this county for a single load of wheat drawn by one pair of horses, which was marketed in Mount Morris last week, received one hundred and twenty-nine dollars and forty-two cents. Our farmers must feel the pressure.—*Genesee Register.*

We have neglected to mention the discovery of a lead mine near the village of Martinsburgh. The ore is very rich, equal to the Rossie mines, and bids fair to be a source of wealth to the proprietor.—*Eagle & Standard.*

A black girl living in the family of Mr. Gilbert Hitchcock, of Schodack, poisoned the family consisting of 11 persons, by mixing arsenic in the butter used at the table. One of the persons—an old lady, is not expected to recover, and "serious apprehensions are entertained for several others."—*Lb.*

CURE FOR THE DIARRHOEA.—The following is said to be a certain cure for Diarrhoea. [It should be cut out and preserved] "Parch half a pint of rice until it is perfectly brown, boil it down as rice is usually done, eat it slowly, and it will stop the most alarming Diarrhoea in a few days."

EDUCATION.—Of all the blessings which it has pleased God to allow us to cultivate, there is not one which breathes a purer fragrance or bears a more heavenly aspect than education. It is a companion which no misfortune can depress, no enemy alienate, no despotism enslave, at home a friend, abroad an introduction, in solitude a solace, in society an ornament; it chastens vice, it guides virtue, it gives at once a grace and ornament to genius. Without it, what is man?

A GOOD EXERCISE.—A woman came to our office a few days since to beg a paper, "because," said she, "we like to read the newspapers very much, but our neighbors don't take none."

A fashionable city lady, while in the country a short time since, enquired "what those animals were, with powder horns growing out of their ears," as though it were gentical for a woman not to know what a cow was.

WESTERN STORY.—Last winter, it is said, a cow floated down the Muskingum, on a piece of ice, and became so cold that she has milked nothing but Ice Cream.

SASH AND BLIND FACTORY. The subscriber has just established in Maumee City, a manufactory of Sash, Blinds and Doors, and is now able to supply any quantity or size of the same at short notice, and on the most favorable terms. He has no hesitation in saying, that the articles manufactured by him, shall be equal to any made in this country, and he promises that in lowness of price, he will not be outdone. Shop at the corner of Johnson and Summit streets, Maumee City, where all orders will be thankfully received, and punctually met. J. F. SHEPHERD. 20th Aug. 19.

NOTICE I hereby given, that arrangements are now nearly completed for the removal of the Ottawa Indians of the Maumee Valley, to their intended residence, west of the Mississippi. It is now confidently anticipated that they will depart on their journey in the course of a few days. These Indians are unfortunately considerably indebted to individuals in this section of the country, and it is their anxious wish, as it is that of all who are in any way connected with the business of their removal, that all who may have any just outstanding claims or demands against any of the Nation now about to emigrate, will take the earliest measures for their adjustment. They will please present their accounts, properly proven, to the undersigned, who will, at the request of the Indians, enter into an arrangement for the payment of the same by instalments of one, two and three years, if paid out of their annuity, and if paid out of certain funds due the Indians by treaty, the payments may perhaps be paid in bulk, and at a much earlier date.

It is most fondly hoped that all those who may feel interested in the future welfare and happiness of this miserable race of beings; all who regard their own well being, and have an eye to the success and prosperity of the poor unfortunate Indian, reduced to extreme degradation and want, as are the fallen Ottawas of the Maumee, will lend their counsel, aid and influence, in favor of their speedy removal to a better home, and a more promising land.

It is with deep mortification and regret, that the undersigned has to state from recent information received, that some of the emigrating Indians have been threatened with detention by some of their creditors. Can it be true that such intimations have been made! What Philanthropic feeling heart, can indulge such feelings towards so poor, degenerate a race of Savage wanderers, as the suffering Ottawas. They have now no country or home here; may the removing agent ask, in the name of humanity, in the name of justice, in the sacred name of mercy, that if any are secretly working to discourage the emigration of these unfortunate creatures, they would pause and consider the impropriety of their course.

The undersigned seriously feels the high responsibility resting upon him as an agent of the government. He wishes to cast no imputations, to make no inferences of unlawful interference, and will continue as he has done, to practice moderation and forbearance in the fulfilment of his official duties. With this view, he hopes all the good citizens of Maumee will accord, in giving complete success to his present arduous undertaking.

In conclusion, it is requested that those who have been in the habit of selling liquor to the Indians, do so no more, as it will be impossible to remove the dispensed if it is continued, and they must to their own ruin, and to the annoyance of the good citizens, remain.

ATTACHMENT NOTICE.

NOTICE is hereby given to all whom it may concern, that at our instance, a writ of attachment was this day issued by Samuel Barret, a Justice of the Peace for Swan Creek Township, Lucas county, Ohio, against the goods, chattels, rights, credits, moneys and effects of Samuel Fox, an absconding debtor.

JESSE BROWNING. Swan Creek Township, Aug. 10. 20w6*

BRUNERSBURG.—There is perhaps no place on the Maumee river between the foot of the rapids and Fort Wayne, which has grown up with such astonishing rapidity, possesses greater local advantages, or promises more favorably for the future, than this new and delightful village. It is situated on the east bank of Tiffin river, within a mile of its junction with the Maumee, on a commanding elevation, which overlooks a beautiful portion of the Maumee Valley. Directly opposite the mouth of the Tiffin river, the Wabash and Erie canal locks into the Maumee, and the dam which is thrown across the Maumee below, sets back the water, so as to make it navigable for canal boats to Brunersburg. A state road is to be built from this place to St. Josephs, Michigan, and a charter for a rail road from Hicksville to terminate here has been obtained, the stock of which is taken, and the construction of the road is to commence early in the fall.

A bill authorizing a survey of the navigable waters of Tiffin river from its mouth to the State line, a distance of sixty miles, passed the Senate two years in succession, but in consequence of some neglect, never passed the House. The town was laid out two years since, contains 600 inhabitants, 6 stores, 3 hotels, 2 mills, and extensive water privileges which may be improved to an indefinite extent. Our fellow citizens, the Messrs. Sargent, have erected at this place a large grist mill, now in successful operation. For some time past we understand there has been some contention between this place and Defiance, as to the removal of the county seat of Williams county, from the latter to the former place, but as yet nothing has occurred promising such a result. The advantages which this town possesses, are equal in importance to those afforded by any place between it and Fort Wayne on one side, and the foot of the rapids on the other, on account of its central situation, extensive water privileges, contiguity to the Wabash and Erie canal, fertile country around, and the number of improvements in contemplation which will intersect each other at this point, from all of which considerations, it may be reasonably inferred that the day is not far distant when here shall spring up a second Rochester.

We predict for it such a destiny, and most cordially recommend it to the favorable notice of travellers and emigrants, in search of a western location.
