Rundel's and Palmer's First Premium Horse Pitch Fork. IT UNDOES a ton of hay in from three to eight minutes; it pitches into a window from outside, carrying the hay inside; it pitches into a barn, over and under plow beams, and into any place where a hand fork will work; it stacks hay and straw, in the field, making high and low ricks. These are the simplest, and most complete working tools yet introduced to the farmers, as has been shown by the unanimous demand for them during last season, which has exceeded all former years. It is a perfect instrument, and is made by the universal preference they received, who operated in competition with various other forks. Every farmer in the country is invited to call at the Agricultural Warehouse, and examine those celebrated forks, and satisfy themselves that the truth has not been held forth. D. KRUPS, Sole Agent for Wood County, Perryburg, April 19, 1864. DR. TOBIAS' VENETIAN LINIMENT has given universal satisfaction during the fourteen years it has been introduced into the United States. After being tested by millions, it has been proclaimed the pain destroyer of the world. It can not be where the lines of it is applied. If used as directed it cannot and never has failed in a single instance. For a full, month and upwards, it can't be used. One 25 cent bottle will cure all the above mentioned ailments in every family for sudden accidents, such as burns, cuts, colds, insect stings, &c. It is a perfect instrument, and is made by the universal preference they received, who operated in competition with various other forks. Every farmer in the country is invited to call at the Agricultural Warehouse, and examine those celebrated forks, and satisfy themselves that the truth has not been held forth. D.
