

The Case of Col. Weller.—The Washington correspondent of the New York Sun, after listening to the debate in the Senate upon the shameful case pursued by Secretary Ewing to Col. Weller, while Commissioner on the Boundary Survey says:

Dr. Ewing proved that every item in his account had been admitted to be correct, immediately on examination by the proper officer of the department, and that finding no peg on which to justify the action of the Department of the Interior, in branding him as a swindler and defaulter, by refusing to accept his statements, the government had already paid damages to the holders of the bonds and every dollar of the money which the correctness of the facts elucidated and brought forward by the Senator from California were not gained. Even Mr. Ewing admitted that the removal of Colonel Weller had been predicated on representations, which subsequent investigations had proved to be wholly incorrect. A general knowledge of that day's proceedings of the Senate is due to the gallant and patriotic Weller—so I do my share by giving them this notice. His case has gone far towards increasing here the growing sentiment against removals from office for opinion's sake, which neither party is sufficiently honest and independent to place on its true ground. There never yet was a political removal of a popular man, which the party in power failed to attempt to justify, by circulating some slander against the removed.

### Constitutional Convention.

THURSDAY, Dec. 26, 1850.

The Convention met at 9 o'clock, notwithstanding the unusual excitement attending the holidays, and without delay proceeded to business.

The Legislative report was taken up, and the 29th section read, which provides that "private property shall not be taken for public use, unless the public good imperatively demands it, but in all cases, full and adequate compensation in money shall be made to the owner."

Mr. Cutler, of Washington, moved to amend by inserting at the close of the section the words "to be assessed by a jury."

Mr. Kirkwood submitted an amendment to the amendment, to read "and subject to no deduction for any general benefits derived to any other property of the owner."

Pending a discussion on the amendments the Committee took a recess.

### Afternoon Session.

The amendments were all agreed to, save that the word "other" between the words "and" and "property" in the last amendment, which was stricken out. The 30th section as given above, was then agreed to by a vote of 54 yeas to 24 nays.

The 31st section was agreed to. This section makes it the duty of the presiding officer of each house to sign all bills and joint resolutions passed by the General Assembly.

Mr. Woodbury offered a substitute for the 20th section, which was amended and agreed to. It read—that when any claim or demand shall be presented to the General Assembly, and one third of the members elected to either branch shall be opposed to allowance of such claim, the General Assembly shall then and thereafter be prohibited from allowing the same; but provision shall be made by law to determine in the courts of law and equity, all such claims and demands against the State.

Mr. Gregg offered a substitute for section 25, which was stricken out in committee; pending which, the Convention adjourned.

### The York and Cumberland Railroad.

Large arrivals of Coffee ect.

BALTIMORE, Dec. 23.

The opening of the York and Cumberland Railroad which was to have taken place to-day has been postponed on account of difficulties between the contractors and the company.

Since Friday evening last, there have arrived at this port, 18,000 bags Rio Coffee. The Produce markets are firm under the news by steamship Africa.

### California Items by the Cherokee.

D. Turner, of Spencer Co. Ky., and Jas. J. Fryer, an Englishman, were murdered near Humboldt by the Indians. A number of the inhabitants started in pursuit of the savages and had killed eighteen of them.

The Indians are divided into small parties, headed by white men, and scattered over the whole country between the South Fork of the American and the forks of the Macossums. They are very troublesome. Lieut. Col. McKinney was killed in a late skirmish with them.

### The Sacramento Transcript judges from the returns received of the last election,

that the vote did not fall short of twenty three thousand.

Lieut. Governor McDougal came near dying from an attack of the cholera, but was recovering.

The cholera did not spread among the miners, as it was feared it would. Its ravages in the mines have been very limited.

It is supposed that near one thousand persons have died of cholera in Sacramento City; while the deaths from the same cause in San Francisco have been comparatively but few.

### A much larger number of miners will remain in the mountains this winter than ever,

before for the purpose of working.

A great deal of attention is being paid to quartz mining.

The duties received at the port of San Francisco, from the 1st to the 21st of Oct., amounted to \$170,950.30.

From the same port there cleared, from Nov. 1st to Nov. 13th inclusive, \$2,048,000 of bullion.

As fine crops as can be raised in the Mississippi valley have been raised this season in the mountains among the placers.

The 30th of Nov. was recommended by Gov. Butnet to be observed as a day of Thanksgiving.

### The Steamship Ohio.

The steamship Ohio, from Havana, put into Norfolk yesterday, in distress. She is much disabled, and her passengers made a miraculous escape. The passengers and mail arrived here by a Norfolk boat this morning. She left Havana with but one engine working, and on the 22nd, experienced a severe leak when the other engine gave out, and was thus at the mercy of the waves until Wednesday, and while in this condition, she sprung a leak, and was only saved from sinking by the exertions of the passengers and crew at the pumps. When she reached Norfolk, she had ten feet water in the hold.

### The Forrest Case.

The trial for a divorce of Mr. Edwin Forrest from his wife is now progressing before the Supreme Court in New York. The evidence discloses faults on both sides, but by far the greatest on the part of the wife.

### A written language has been discovered in Africa.

There are about one hundred characters each repeating a syllable. It was invented by a native who is yet living.

### Agricultural Notice.

The Citizens of Scioto County are requested to meet at the Court House, on Saturday afternoon, January 4th, at one o'clock, for the purpose of organizing a new, or reviving the old, Agricultural Society. A full attendance is earnestly requested. (Dec. 30.)

## COMMERCIAL.

### Review of the Portsmouth Market, for the week ending, Dec. 30, 1850.

GENERAL REMARKS.—Another year is drawing to a close, and in our province as Commercial reporters, we must be allowed to look back at the many fluctuations that have occurred in the various departments of trade, and to call the readers attention to the fact that throughout the last business year, there have been no deaths among those, who then and now stand prominent as the business men of Portsmouth. And now while balance sheets and profit and loss statements are occupying their attention let kindly wishes, and more kindly greetings abound, so that the coming year prove indeed a Happy "New Year."

The trade of the past week has not been heavy, as many of the business houses were closed on Christmas day.

### MONEY MATTERS.—Currency is getting more plenty in last few days, and the Bank and Exchange Offices have been enabled to discount pretty freely for their outside customers on first-class bills of exchange.

### RIVERS.—Having been nearly full, banks are now receding, and there are but few boats running. Freights are low.

### We submit the following quotations:

### FLOUR AND GRAIN.—Our quotations for flour are firm at \$3.75 in lots. The main transactions of Friday and Saturday were at \$3.70, but from present indications the highest price now named will be realized.—There is but little wheat arriving and a choice article would command 75 cents on arrival. Oats are selling from store at 40c. Buckwheat flour is dull at \$2.50 per 100 lbs.

### COFFEE.—With quiet demand, sales are making at 12 1/2 cents. Our readers may have noticed large arrivals in Baltimore and other markets, but they must bear in mind, that large quantities are needed throughout our extensive country.

### SUGAR AND MOLASSES. We quote fair sugar at 64 and prime at 64c. Molasses at 30 cents. Our recent advices from N. O. go to show that much of the new crop of sugar and molasses will prove inferior.

### POAK.—Packers are still paying \$400 for pork. The quantity cut during the week has not been large. New bacon will soon make its appearance. Sales of new lard at 7 cents.

### WHEAT.—Another advance ignored, and sales were made on Saturday at 24 cents.—Market is firm this morning at quotations.

### SOAP AND CANDLES.—We quote \$9.94 for candles and 4 1/4 for soap as in quality.

### COAL.—At wharf 7c and 1 1/2 additional for delivery. Wood \$3 per cord.

### CHEESE.—Sales of cheese at 6 1/2 c, with light stocks, and firm market.

### COTTON YARNS, are without change, and firm at 21c.

### GUNNY BAGS.—Sales of Gunny Bags at \$12.00 per 100.

It is the only Sarsaparilla that acts on the Liver, Kidneys and blood at the same time, which renders it altogether more valuable to every one, particularly Females.
