

All communications for the paper, or upon business relating to the office, should be addressed to "Belmont Chronicle, St. Clairsville, Ohio."

There is very little chance of making anything by discussing propositions with a paper as reckless and unfair as the St. Clairsville Gazette seems to be. We have been not only willing but anxious, since that paper manly misrepresented the actions and motives of Messrs. Cowen, West, and Poorman in presenting the votes of Lewis and George Ransom, at the late election, to fairly and fully discuss with it the legality of the votes offered as well as the actions of the gentlemen whom the Gazette so cowardly denounces. We have re-printed heretofore everything published in that paper touching the matter, so that our readers might see whether we fairly meet the points raised by it, but it has carefully excluded from its columns everything we have written and then misrepresented us. It first declared we attempted to force votes into the ballot-box "in the face of the Constitution of Ohio"; and then, when we showed, by frequent decisions of the Supreme Court of the State, that his declaration was not true, he attempts to weaken the force of our argument by admitting that the Court had decided as we claimed, but that this matter had been changed by the convention that framed the new Constitution, by using the term "white male citizen," instead of "white male inhabitant," as in the old Constitution. It was hardly necessary to offer any argument or evidence to convince any man who had any sense at all that the insertion of the word citizen instead of inhabitant could not or would not affect in any way the meaning of the word "white," used in the same sentence—and it was upon this word white, and not upon the word inhabitant, that the Supreme Court had placed its construction—but we showed conclusively not only by extracts from the debates in the convention, but by a decision of the Supreme Court, that no change in the meaning of the word white was contemplated or made.

As a dodge to this clearly established conclusion, the Gazette then affirms that we held that the words inhabitant and citizen meant the same thing. Now we will give the editor of the Gazette, if he will insert our articles written upon this controversy in his paper, the full price charged by him for inserting the same amount of matter as advertisements, if he can find in any line, sentence, or paragraph in any of those articles any such declaration. We aver that the insertion of the word citizen did not change the meaning of the word "white," and that the word white in the sentence "white male inhabitant," means the same as it does in the sentence "white male citizen." We further aver that the term "citizen of the United States" includes every free man, woman, and child, born within the limits of the United States or naturalized under its laws!

We aver that the Supreme Court of the United States never decided that a negro born free within the limits of the United States was not a citizen. And we further aver that, under the Constitution of the State of Ohio, as expounded by the Supreme Court of the State, every free man of sane mind, native or naturalized, living within the State, who has acquired a legal residence, and has more white blood than black blood in his veins, has a right to vote, unless otherwise disqualified.

To a fair discussion of these propositions we challenge the editor of the Gazette, on the condition that neither party shall write more than one column each week, and that the articles written pro and con shall be published in both papers at the same time. And we will furnish the editor of the Gazette with a copy of our article on Saturday preceding its publication, he to furnish us a copy of his article on Tuesday morning preceding its publication.

We have commenced the publication of the Business Directory, of which we gave notice two weeks ago. Bellaire, at present, occupies the principal part of it. This is owing to the fact that we visited that place last week and called on a number of her business men, who readily appreciated the advantage to be derived from it, and gave their cards for insertion in it. There are others there who intend occupying space in it, on whom we were unable to call a second time, as they desired. These, with any others upon whom we failed for want of time, to call, may send us their cards by mail for insertion.

We shall visit the principal towns of the County at as early a day as possible, to solicit the patronage of merchants, manufacturers, &c., and trust we shall meet with the same success elsewhere that we met with in our hasty visit to Bellaire. In the meantime, any party desiring the insertion of his card need not wait on our personal visit, but can send it by mail, and it will appear without delay.

SUBSCRIBERS. During the past week we have added the names of twenty-five new subscribers to our list from the town of Bellaire. Twice that number more could still be obtained there with a little effort. The same thing could be done in every town in the County, if the proper effort was made. Will not some friend of the Republican cause in each town or township make the effort? If we desire to succeed we must use the means necessary to secure success. There is nothing so efficient for the formation of such political sentiment as will manifest itself in works, as the regular visits of your local paper, filled each week with choice selections from the utterances of the best men in the party.

Here is one of its latest utterances: "Rebellion a crime. Liar in your throat, Phil Sheridan! Every hour justifies the acts of those who, from Bull Run to Richmond, through four years of battle and blood, sacrifices and struggles, labored, suffered, fought, died for the cause of civil freedom. Every passing day proves the soundness of their judgment, the wisdom of those who strove for independence. Every revolting year makes the 'lost cause' more sacred to the lovers of liberty, dearer to the hearts of those who were faithful to it from its inception to its temporary fall."

The Old Guard a monthly magazine, which is to the upper class Democracy a sort of political Bible, has in its last issue an article entitled "Lincoln and Davis," of which the following is a specimen brick: "Abraham Lincoln was, without doubt, the most fatal man that ever lived upon this earth, and the most beneficent more evil to mankind than the worst man that ever lived accomplished in a lifetime. The cause he led is the most unnatural, impious, and sinful, that has ever afflicted the world, and the means of its accomplishment the vilest, most dishonest, and devilish that ever degraded our race, or stained the earth since time began. On the contrary, the real [though not assumed] cause led by Jefferson Davis is the noblest, most beneficent, most glorious that man ever battled for on this earth, and the means employed were the grandest, most Christian, and Chivalrous ever witnessed in the world's history."

In the same article it declares that "Southern society, or so-called slavery, is right, and mongrelism, or so-called freedom is wrong."

THE ELECTIONS. OPINIONS OF THE PRESS. From the Washington Intelligencer (Presidential Organ). In whatever form the duties of a position, as the paramount power in the Republic, the wisdom of those who strove for independence. Every revolting year makes the 'lost cause' more sacred to the lovers of liberty, dearer to the hearts of those who were faithful to it from its inception to its temporary fall."

The lesson to be learned from these recent elections is easy and plain. It is that the people throughout the nation have the whole question in the hollow of its hand. From the New York Herald. From the Anti-Slavery Standard. Never was there a more clear case of popular sovereignty than the Republicans present this autumn. Their defeat is a deserved punishment for the insincere and shiftless policy they have chosen to pursue in their dealing with the treacherous Executive and the traitorous Congress.

From the Lancaster (Pa.) Express says it has learned from two trustworthy and well-informed sources, that Gen. Grant will make such a declaration of his views on national policy as ought to, and no doubt will, satisfy the most exacting Republican, and fully vindicate those who have expressed their willingness to trust him, as they trusted him in the dark days of our national peril.

From the New York Tribune. "The king is dead: live the king!" The Republican ascendancy has been designedly and purposely broken down by professed Republicans, they are now busy telling us how it may be restored. All we have to do, in their view, is to say no more of Republican principles, but to go in for the Grant and not for the President.
