**A Martin's Ferry Shooting.**

There was a shooting affray in a saloon in Martin's Ferry on Sunday night, and the victim, Robert Corbett, is likely to die. The shooting was done by Maggie Gilmore. All the parties are colored. These two persons, with several others, were together when it is alleged that the Gilmore woman picked up the revolver from a table, and remarked that she was going to shoot Corbett. Suiting the action to the word, she fired. The ball, which was from a .38-caliber gun, entered Corbett's abdomen. About two weeks ago, it is said, Corbett gave the Gilmore woman a beating, and she on several occasions threatened to kill him. Corbett is about 30 years old, and came from Birmingham, Alabama. He had been acting as bar tender in the saloon, which was kept by a colored man, and Corbett was a frequent customer. The Gilmore woman claims now that the shooting was accidental, although she at first denied doing the shooting at all.

**Mrs. Sutton.**

Mrs. Nancy Sutton, wife of Peter Sutton, died at her home at Glencoe Friday morning, from paralysis, from which she had suffered for several years. A husband and a number of children are bereft by her death. The remains were buried Sunday, on which day, Mrs. Sutton, had she lived, would have completed 57 years of life. She was since early life a consistent, earnest member of the Methodist church.

The funeral services were held at the church, and a very large assemblage gathered to do the last honor to their dead kinswoman and friend. Mrs. Sutton's maiden name was Ault, and she was a sister of Mrs. Barrett, of this place.

**Weather and Crop Service.**

The State weather and crop service bulletin for the past week gives the following as the conditions prevailing in Belmont county:

Too wet all week to work crops. Potatoes came up very irregular and growing slow. Corn being injured by worms. Wheat very rank and beginning to head. Pastures growing well. Meadows not looking so well. Clover damaged by late frost and injured by an insect which bores into the roots. Oats look well. Pines dropping some, otherwise small fruit good.

**Wanted To Die.**

Lizzie Lowry, a 16-year-old Martin's Ferry girl thought she was tired of life, and on Sunday tied a cloth around her neck, fastened to a hook in the ceiling, and attempted to jump into the basement. A sister discovered her hanging, and she was cut down before life was extinct. A well seasoned paddie, properly and liberally applied would probably rid her of the notion of trying the act again.

Hicks, the weather prognosticator, is angry because the newspapers have published his predictions, and he threatens to get after them, because he says his predictions are copyrighted. The question is as to whether such stuff as these predictions can be copyrighted.

## SUNDAY SCHOOLS.

**The Convention a Success—Another Next Year.**

The last day of the Sunday School Convention, last week, was entirely successful. Nearly one hundred delegates were present from various parts of the county, and all were well taken care of by our hospitable people. The exercises were opened at 10 o'clock by J. M. Richards, of Bethesda, after which reports were received from several superintendents and representatives. Dr. Alexander and Webb spoke some earnest words on the work of the Sunday School in reference to the Church, and Mr. Lawrence, with the aid of the blackboard, gave some useful hints on normal work. Afternoon Rev. Boyd, of Bellaire, gave a most profitable and characteristic address, and was followed by J. C. Bethel, of Flushing. Wm. Alexander, of Bridgeport, and A. T. McKelvey touched the heart of the matter in remarks on the practical application of the lesson, and Mr. Lawrence again made a most instructive and inspiring talk.

C. C. Mitchell, of Martin's Ferry, opened the evening service, and the eloquent young Rev. J. A. Alexander, of New Athens, followed with a fine address. All who ever opened and read a Bible were helped by the remarks of Rev. J. S. Bogle on the method of such work.

Throughout music was furnished by a combination choir, with some specially prepared numbers by the Presbyterian Quartette. So enjoyable and profitable was the convention that it was determined to hold one next year. The old board of officers were re-elected, and the time and place of holding the next convention left with them.

**High School.**

The High School Commencement exercises will be held to-night (Thursday) in the Presbyterian church, beginning at 8 o'clock. The class has four members. The subjects of the graduation addresses are as follows: "Wayside Flowers," Miss Clara Amos; "To Quench the Thirst of Curiosity We Drink at the Fountain of Knowledge," Miss Lorena Alexander; "People We Meet," Miss Emma Blair; "The Dime and the Dollar," John C. Nichols. Wm. Alexander, of Bridgeport, will present the diplomas to the class. A quartette of singers from Wheeling—Mrs. Williams, Miss Fimmel, Messrs. Day and Zulauf, will furnish abundant music. The class stipulates that there shall be "no flowers."

On Friday evening the class will be given a reception by the members of the Junior class. This function will come off in the Court-house Hall, and will be no doubt a pleasant social event, for many invitations have been issued, and it is safe to predict that many will be accepted. A program of music and recitation is preparing for this reception, so that there will be ample entertainment.

**Memorial Sunday.**

Drummond Post, about forty strong, and St. Clair Council, O. U. A. M., with over sixty men in line, marched to the Presbyterian church Sunday morning and listened to a sermon by the pastor, Dr. Alexander. The text was from the 137th Psalm, and the discourse was an eloquent tribute to the Orders, and a fervent and stirring appeal to the patriotism of their members. Dr. Alexander showed how the ranks of the Grand Army are thinning, and how the duties which the Order now do so well, will one day devolve on other Orders, and none are fitted to carry them on in spirit, and better than the U. A. M. He spoke of the portentous clouds that lower to-day on the horizon of "our National life, and urged those whose patriotism had been tried in the terrors of war, and whose calmness and firmness as never before for their country and its institutions.

A large attendance outside the societies was present, and the service was most interesting and impressive.

**Township Graduates.**

The second annual Commencement of the township will be held at Glencoe, Friday, beginning in the morning. The class has nine members—Elizabeth A. Hess, Thomas A. Johnson, S. Ellen Mc-Niece, Bruce W. Drennen, Annie V. McBride, Lavinia Watkins, Everett W. McPherson, Nora Neff, and Robert P. Patton. The members will deliver orations or declamations or read essays. An address will be made them by Rev. J. B. Ricketts. A male quartette, led by Prof. Hoopkins, will furnish the music.

**Found.**

Some eight months ago John Henderson lost a roll of greenbacks containing about ninety dollars. He had a large bill changed at the store of F. Troll & Sons, and went from there to the Northern depot. Mr. Henderson searched thoroughly for the money, but without avail. On Sunday he found it neatly put away in his pocket book. It was in a part of the wallet which he seldom used, but which it seems he had made use of on this occasion.

**Wetter's Show.**

This afternoon and evening (Thursday) the Wetter Show will exhibit on the Fair grounds. It will be remembered that this circus was here last season, and gave an excellent entertainment. This season they are greatly enlarged and has many pleasing features attached. Fish, the champion bare-back rider, being one, and a number of rare animals being another. If half is shown that is advertised, they certainly have a good circus.

**The Teachers.**

Two years ago the teachers of Richland township held five teachers' meetings with an average attendance of about five teachers at each one. Last year they held six meetings with an average attendance of nine and one-half each. For the year just closed they have held seven meetings with an average attendance of twelve and two-sevenths at each meeting. The interest is growing.

MARTIN'S FERRY High School graduates this year numbered eleven, and were sent out last week.

## CONGRESSIONAL GOSSIP.

**What is Said by Our Esteemed Contemporaries.**

During the past week the Congressional contest has been quite warm in several townships and the heat is likely to continue to increase until the primaries are over on Saturday. For the most part the contest is good natured, although in one or two localities some questionable work has been done by the circulation of absurd stories calculated to injure Capt. Danford, one being to the effect that Danford did not vote for Lincoln in 1860. The fight is fair and square between Capt. Danford and Col. Poorman and nothing can be gained for either side by the circulation of false reports.

The issue in this county seems to be well understood. Captain Danford has been in Congress, where he served with distinction, and wants to go back. His ability and qualifications need no comment. Colonel Poorman has long possessed the desire to go to Congress, and though he has failed of election three times, he would like to try again. Col. Poorman's qualifications too are well known. Which shall be Belmont county's candidate in the Steubenville Convention it is for the Republican voters to determine.

There is a growing feeling that if Belmont county gets the Congressional nomination it must be through a united delegation, and the feeling is to choose delegates to the Convention who will go to the other candidate from this county in case their favorite possesses less strength than the other. Such a course would seem to be good politics, and in case men are chosen whose second choice is a Belmont county man, the plan may be practicable, and deserves encouragement.

Belmont county has two candidates for Congress, and there ought to be a full expression of the voters as to their choice of the two at the primaries on Saturday. Turn out, and see that all your Republican neighbors are out. Vote for whoever you think will best represent you in Congress.

When the Republicans of Belmont county are called on to antagonize Lorenzo Danford a job is given them that is very generally distasteful. He stands to the front prominently as one of Ohio's big men. He is well-known, too, and loved by the "boys in blue," while his great all-round ability, his matchless oratory, his approachableness, his Americanism and unswerving loyalty to the younger party element. Among those who have grasped "citizenship" since the days of 72 Lorenzo Danford is to the very front as one prominently worthy their confidence, friendship and support—an able, consistent, and true man whose history is a compliment to his country, his party and his nativity; a man who though scarred by the stripes of patriotism comes out of the later contests of years in active professional life a conceded and honored victor—Barnesville Republican.

In urging the claims of Monroe's candidate for Congress, M. Cleveland, the Woodfield Gazette has this to say: "The Republicans of Monroe county are entitled to the nomination this year, and should have it. Not one of the other counties of the district has been more loyal to the Republican party through all its years of trials and triumphs, and has had less reward. Year after year the true blue Republicans of this county have worked earnestly and manfully for the success of their party in the face of a Democratic majority of 2,000 or more, and under the most trying circumstances. We have held no elective offices, we have received no appointments worth mentioning, and yet we have never failed to give the most liberal support to candidates from other counties. The Republicans of this county should, therefore, select delegates that will stand by Monroe county alone as long as there is a reasonable hope of securing the nomination."

If the Carrollton Free Press speaks the sentiments of the people, and not simply expresses the wish of the writer, it would seem that maybe Carroll county is not very loyal to Judge Taylor in spite of the fact that he is their only candidate. It is on second choice already. After indifferently recounting Judge Taylor's claims, it says: "Yet after all these considerations, provided the Carroll county delegation can not procure our own county's excellent candidate, we, for considerations of personal sympathy and the public considerations, that Col. Poorman was our candidate two years ago, beaten by a meagre majority, has filled public trusts of small incomes, has an ability second to no man in the district, we think the members of our delegation should consider him at further their second choice."

Those who have been figuring on the situation have concluded that Judge Taylor's chances for the Congressional nomination are bright. No one can go into the convention with enough to nominate and the disaffection will occur first in the ranks of the larger delegations. Mr. Taylor is entitled to the second term, and that fact will be recognized when the convention meets—Carroll Republican.

Dr. G. A. Keepers, of Beallsville, Morro county, has entered the field as a Congressional candidate, and, as he says, to win. It is not stated whether Monroe will also present Mr. Cleveland's name or not, since Keepers has entered the race. The more candidates the merrier the fight.

Capt. Danford's former experience in Congress, his standing as a leading lawyer of Ohio, his firmness and fairness in all that is good and right, and his ability to a general way make him a strong man and a very desirable candidate for Congress—Woodfield Gazette.

The New York Tribune, Farm and Fireside, and CHRONICLE, with the cook book thrown in, will be sent to any address one year, for \$1.75. All the newspapers any family needs for \$1.75. What more do you want?

**Another Miss Pollard.**

Susie Neely, in Common Pleas Court at New Lisbon, has sued Frank W. Silver, Secretary of the Silver Banking Company, of Wellsville, and brother of ex-Senator Thomas H. Silver, for \$25,000, for breach of promise.

In her petition Miss Neely says she is 21 years of age. Mr. Silver is 35. Mr. Silver kept her on his farm, several miles back of Wellsville. She took up her abode there, she says, on September 15, 1891, and left about August 30, 1892, when he threw her aside, and she says, refused to keep his promise to marry her.

She alleges that since that time she has had one child, of which he is the father. The plaintiff further says that through her cohabitation with Silver her reputation throughout the neighborhood was damaged. Up to that time her reputation had been untarnished, according to her story, but since then she has been under a cloud.

The State Board of Health has issued an important circular urging that means be taken to prevent the spread of consumption. The disease, says the circular, is communicable, and for the most part in one way. The germs are expectorated by a patient. When the expectoration dries, these germs are liberated, are blown about as dust, and enter the lungs of others, where if there is any predisposition to consumption, they set up the disease at once. This is almost the only way that the fell disease is communicated, and the plain precaution to be observed is that no person, known to be suffering from consumption should be allowed to expectorate on the streets, or in public places, or in any place where danger may result to others.

**Women's Convention.**

The Women's Christian Temperance Union, of Belmont county, will meet in convention at Colerain to-day (Thursday). A very interesting program will be rendered at the morning and afternoon sessions, and for the evening a rare treat is anticipated, as Miss Henrietta G. Moore, of the National Lecture Bureau, will speak. Subject—"Better Thyself."

MARY L. SPINER, Press Sup't.

**Notice To Teachers.**

The Board of Education of Colerain Township will receive applications for the schools in said township for the coming school year, until 12 o'clock, at noon, of June 18th, 1894. Teachers to file their applications with the directors of the schools they desire to teach; wages not to be over \$40 per month.

**ASSESSORS' WORK.**

There is Still Some Felling Off Reported.

The results of the Assessors' work reported during the past week are similar to those spoken of last week. There is almost everywhere a marked falling off in the number of sheep and horses, and more especially in the valuation of those two classes of animals. There seems to be about the same amount of cattle, and the values are practically the same. In many instances, as will be seen from the tables below, the number and value of hogs have increased, showing that the high prices for pork which have prevailed during the past year have stimulated this industry. Bethesda precinct of Goshen township, shows an increase of \$1300. The Assessor of precinct No. 3, Richland township, has not reported his work.
