The Board adjourned until the 15th day of November, 1876. The County Printing. As will be seen in the report of the proceedings of the Board of Supervisors in another column, the NORTHERN TRIBUNE was made the official paper of the county for the year commencing January 1st, 1876.

We are glad to note this fact, for it is highly gratifying to us to know that in the limited time which this paper has been published it has gained the public confidence to that degree to render this country will in the future, as in the past, be our firm.

Of course the larger the support received, the greater will be the good accomplished.

THE VILLAGE COUNCIL.

Adjourned Meetings—Saturday Evening a Quorum not Present—Report of the Meeting Monday Night. The adjourned meeting of the Council which was to have met on Saturday night was unable to transact any business on account of there not being a quorum present.

A. P. Newton, President, H. M. Airth, Recorder, and Trustee Long, being the only faithful ones. The meeting adjourned until Monday evening.

MONDAY EVENING. The council met pursuant to adjournment; the following members answering to their names at roll call: A. P. Newton, President; H. M. Airth, Recorder; and Trustees Long, Kezar, and Crumley. The minutes of the last meeting were read and approved.

The committee on streets and sidewalks reported that, Nelson street not being yet platted or laid out, the village would not be warranted in building the cross walks in accordance with the petition of J. P. Sutton, until said street was dedicated a public highway.

On motion of Trustee Long a resolution was adopted instructing the marshal to notify E. Nelson to build said cross walks at the intersection of Sammon's and Nelson streets.

The committee to which was referred the petition of C. L. DeCueninck, in regard to obstructions on B. and F. streets, reported that they had made an examination of the location, and that they found no occasion to remove any obstruction.

On motion of Trustee Crumley, it was resolved to open 6th street from 4th to 5th street in the spring of 1876.

On motion of Trustee Kezar, it was resolved that the petition of J. E. Nichols and others, to build a sidewalk on the northerly side of West Black River road, commencing at the end of the walk in front of lot No. 19 in F. M. Sammons' addition to the village of Cheboygan, thence easterly to Huron street, be granted.

On motion of Trustee Kezar, it was ordered that an order be drawn in favor of T. J. Crumley for \$15, in payment for a plow.

On motion of Trustee Crumley, the bonds of Burns & Gallagher were accepted.

The bill of D. Farrell for \$7.50 for building a sidewalk in front of M. W. Horne's property, was allowed and an order drawn for the same.

It was decided by a vote of the council that J. H. Riley's name on the bond of M. J. Hoppock was insufficient, and the bonds was not accepted.

The Recorder was then instructed to notify Mr. Hoppock that he will be required to furnish satisfactory bonds on or before Friday, the 15th, or his business would be ordered closed.

The council then adjourned.

Failure at Traverse City.

The announcement of the failure in business of Thomas T. Bates, Real Estate Agent of Traverse City, who made an assignment last week for the benefit of his creditors, will be received with regret by his numerous friends and acquaintances.

The Grand Traverse Herald places his liabilities at about \$35,000, and says Mr. Bates is very sanguine that his assets can be made to pay 100 cents on the dollar.

The cause of the failure was the shrinkage in value of real estate, and the complete stagnation of that line of business, owing to the great financial depression under which the whole country is laboring.

Mr. Bates, like most of the dealers in real estate, had made large purchases of lands, making an advance payment, and the balance of the purchase price remaining on a long time credit, he depending on the rise in value, and his ability to make sales to make the deferred payments.

The utter demoralization of finances almost entirely stopped any transactions in his line, and consequently when his paper matured, he was not prepared to meet his obligations, necessitating either bankruptcy or assignment.

Mr. Bates wisely chose the latter, and made an assignment of his entire assets—not even availing himself of his home-ested rights—to the Hon. Seth C. Moffatt, a gentleman in whom all the creditors will have the fullest confidence.

The honesty of Mr. Bates is no in the least questioned, and he has the sympathy of the people of the whole northern section of the state, and it is to be hoped he will come out of his troubles all right.

Petty Thieving.

For some time past the proprietor of the Spencer House has been missing small articles from his store house and around the house. As long as the articles missed were of small value he took very little notice of it, but when some jars of blackberry jam were missing, he commenced to investigate a little.

A few days since he deemed that he had sufficient evidence to warrant such a course, so he took out a search warrant for a small house in the rear of the Spencer, occupied by a family named King. The search resulted in the discovery of a table cloth which Mr. Spencer identified as his. Mrs. King claimed that the cloth was given her by Mrs. Earle, which assertion was substantiated by Mrs. Earle, who claimed to have given her the cloth. This aroused Mr. Spencer's suspicions, and he took out a warrant for the search of Earle's house, but without any result. Thus the matter stands at present, but it is probable that the end is not yet. It is but justice to Mrs. Earle to state that she claims to have come by the cloth in a legitimate manner.

AGROUND.—During the heavy gale Thursday night the schooner Itsea loaded with coal for Chicago, ran aground off lighthouse point. The tug Bismarck and Eliza Williams went to her assistance and worked all Friday morning, but without success. It was then decided that she would have to be lightered off, and the Bismarck came in for the lighters. They were taken out, but when about two hours of coal were unloaded the vessel was pulled off.

Car Coupler.

Four of our citizens, Hugh McCurvey, C. R. Ramsey, P. McCrea, and Angus McKay, have just received a patent upon a device for coupling cars, which will do away entirely with the danger which accompanies the old-fashioned method.

We have examined the principle upon which it works, and have no hesitation in saying that it is the best device yet invented for this purpose. It is extremely simple, and can be attached with equal facility to either freight or passenger cars. The great defect in most of the safety couplers already before the public, is the impossibility of attaching them to freight cars, where they are most needed.

nine men being killed in coupling freight cars to one in coupling passenger cars. Hence, it is evident, that if this will the "long felt want" in this direction, it will bring many dollars in the pockets of the fortunate inventors, besides saving innumerable lives annually.

All railroad men who have examined the coupler, unite in their praises of it. We understand that the inventors have already received some flattering offers from some of the leading railroad companies for its use.

No Place Like Michigan. If any Cheboygan County man sighs for the fertile prairies of the far west or the more genial climate of the south, let him hear what George F. Lewis, editor of the Saginavian, has to say, for he has just made an extended trip through both sections: "We have met hundreds of Michigan men in Missouri, Kansas, Nebraska, Iowa and Texas, and not one in ten but was honest enough to say he would be glad to get back to Michigan. Corn ten cents a bushel in Southwestern Missouri, and other things in proportion; an abundant crop means no market, a failure of crops means utter destitution in many of localities that are represented 'rich, fertile, convenient to market,' etc. Year with year there is no state so thoroughly reliable for crops and markets as Michigan, and ten Michigan men who stay at home 'get rich' to where one who seeks his fortune further west succeeds in worrying out any sort of a competence."

Farming on the North Shore. Mr. John McKay left on the Eva English Tuesday night for the North Shore, with a number of men and the necessary materials to commence clearing operations upon his large tract of land over there. He expects to clear two or three thousand acres this fall and coming spring, and commence farming operations upon an extensive scale next season. Mr. McKay has a large tract of land in a body, which is nearly ready for preparation to put in crops, very little labor comparatively being required to prepare it. Mr. McKay has entered into this work with his usual energy, and we shall look forward to the result with great interest. We are satisfied however, that the enterprise must be a success, for the land is admirably adapted to hay, oats and wheat, and these crops cannot be so profitable. If Mr. McKay proves that these crops can be profitably raised, it will ensure a tide of emigration to that country.

Temperance Conventions. At a meeting of the State Temperance Convention held at Jackson, July 27th and 28th, it was resolved to organize the state, for the purpose of opposing the amendment to our State Constitution, giving the Legislature power to license the sale of intoxicating liquors; and for that purpose a State Board of nine persons was appointed (one from each Congressional District) to carry the resolution into execution. At a meeting of said Board, held in Lansing, August 23, each member of the Board was instructed to call a meeting of all temperance people in his Congressional District, as early as practicable, for the purpose of organizing his District in harmony with the plans and purpose of the Jackson Convention. In pursuance of the above design, District Conventions are being called, and temperance people generally are invited to participate.

MONEY OREN BUSINESS.—The following is a statement of the money order business of the Cheboygan postoffice for the quarter ending September 30th: There were issued during the quarter 258 money orders, amounting to \$3,696.43, upon which fees were received amounting to \$39.65. There were paid during the same time 61 orders, amounting to \$947.33.
