SATURDAY, JANUARY 21, 1882.

MONDAY'S FIRE.

Four Buildings Burned - Contents Mostly Saved - Good Work Prevents a Destructive Conflagration.

About 4 o'clock Monday afternoon the building on Third street occupied as a saloon by John McCuaig was discovered to be on fire, it having caught from a defective flue and was burning under the roof. The alarm was given and soon the fire department and a large crowd of citizens were on hand to assist in staying the progress of the flames. Unfortunately the engine was first stationed at the tank at the corner of Main and Third streets, which it was found would not supply the engine. This necessitated a move to obtain a full supply and the engine was taken to the bridge where water could be obtained from the river. This delay was fatal for the chance to save the building or any portion of it, as it enabled the fire to gain such headway that by the time they succeeded in getting water the whole upper portion of the building was in flames and threatening destruction to the adjacent property, and at one time it looked as if a general conflagration could not be averted, it being surrounded by wooden structures, all in close proximity. Seeing the building which first took fire and those immediately adjoining were doomed, the main effort was directed to confine the fire to them and prevent it spreading beyond, and this, by the heroic efforts of the firemen and citizens, was accomplished, although it was a close call for John Goulden's building and the house on the corner of Third and Water streets, which were on fire a number of times. The buildings burned were the saloon building, owned by Mrs. Galvin, a small building east of it owned by Wm. Erratt and occupied by Mr. McCuaig as a clothing store; John Goulden's barn and a barn belonging to the property occupied by Mr. Peter Spooner. The contents of the saloon and clothing store were saved, but on account of the haste with which it was removed, it was more or less damaged. Le Gault's building on the opposite side of Third street was badly scorched and was only saved from burning by the means of Mr. Le Gault's force pump which did excellent work. The loss amounts to between \$2,000 and \$3,000 with no insurance.

Mr. McCuaig had been negotiating for the sale of his stock of clothing to Ralph Brown and the papers for the transfer were all drawn having been just completed by Mr. S. H. Taylor, at Bell & Adams, but not signed as Mr. Brown wanted to show them to his brother, James J. Brown, to see if they were all right and he and Mr. McCuaig had just started for Mr. Brown's office when the alarm was given. This makes the third time the saloon building had taken fire, and proved "the third time and out." It is conceded by all that our village was extremely fortunate in having the fire confined to the buildings that were burned. This was due to the good work that was done and the fact that what little breeze there was came from the northwest, the only favorable quarter there was, had it been from any other direction, we fear nothing could have prevented a much greater destruction of property.

One thing demonstrated itself clearly and that was a desire on the part of too many to be chief of the fire department. Orders came from all sides and this only tended to confusion. As long as there is a chief appointed he should have charge. If he proves incompetent let him be removed and somebody else appointed to the position.

O. B. Weed, former principal of our graded school, cannot altogether forego his first love and is going to relieve his brother Thurlow by taking charge of his school in Beaugrand.

The first of the week one of the heaviest creditors of Hendrie & McDonald received a telegram stating that a paymaster would be here this week to pay claims held against them, but so far that paymaster has not showed up and creditors are becoming impatient.

For good Japanese teas go to I. E. DeGowin on the east side.

Indian River Correspondence.

INDIAN RIVER, Jan. 12th, 1882.

To the Editor NORTHERN TRIBUNE.

I have just had the pleasure of a visit with W. W. Bowes, M. D. your esteemed fellow townsman and a right royal visit we had. Hope he arrived home all O. K. and "long may he wave."

We are at present in a state of quietude as all the railroad employes have gone north and no doubt Cheboygan has by this time heard from them. Had a pleasant trip over Burt Lake on the ice to Indian village at Indian point where there are about 60 Indians. Had the most pleasant trip that I have enjoyed for years. Indians all happy and well to do and have made arrangements to have a grand picnic up there as soon as the picnic season arrives. Come up and go with us.

Since the railroad company has been running their trains regularly we are over run with commercial travelers and all are very anxious to supply our business houses with merchandise of all kinds. The winter is so mild and beef is so high that our mutual friend has concluded not to marry until next Ma(r)y. Scott says he is reduced to a state of abject cussitude and we think he is. The snow—the snow the beautiful snow is falling and long may it fall. Our Mr. Martin has about 1,300,000 feet of logs scalded up with good prospects of as many more.

The presiding elder of this district from Bay City, Elder Richards, made us a visit and held quarterly meeting last Saturday and Sunday. Monday he held the quarterly conference and appointed a building committee consisting of Messrs F. E. Martin, E. S. Warren and the minister. A first-class selection and one that will "push" the church forward to an early completion. The site, a very beautiful and slightly lot, is located upon the hill near the school house. F. E. Martin is treasurer of the society.

In my last communication I used the expression "our mill" in regard to the accident to the saw. Some have put a wrong construction upon the word our and think it has reference to the mill located here, to correct this impression allow me to say that it was the mill of the Burt Lake mill company. This is a new mill just started operations and with good prospects of an A No. 1 business. The mill is located on the west side of Burt lake about three miles from here in what is known as the Ohio settlement.

Good skating on the lake and plenty of snow.

An abundant supply of white fish. Will you call and take a fish or two?

We have just learned of the appointment of our esteemed townsman Mr. A. McHenry as a member of the county poor commission—a first-class appointment as Mac is O. K.—honest and square and the needy poor will not suffer while he directs and the county will not be obliged to deplete its treasury by needless expenditure.

Very Truly,

ESCALAPIAS.

INDIAN RIVER, Jan. 19, 1882.

I am very much pained to chronicle the death of a very fine and promising young man, master Orie Berry, by the accidental discharge of a shot gun. He was the son of Mr. John Berry a gentleman living about three miles south of here. In attempting to reach a shelf above where the gun was resting upon a rack he loosened the rack and the gun in falling exploded and the contents, about 70 fine shot and the two wads with some shreds of clothing lodged in the right iliac region of the abdominal cavity. After undergoing a very painful examination and operation it was impossible to extract only seven of the shot and a part of the shreds of cloth. He lingered in most excruciating pain about 36 hours. His funeral will be to day. His father and family have the heartfelt sympathy of our whole community.

Our school attendance is depleted to about 11 on account of the measles and whooping cough. The measles are very prolific and the cough is whooping it up in good style. Be careful that you do not whoop.

We had quite a distinguished visitor from Cheboygan in the person of an undertaker who came here to superintend the funeral of one John Harris. The aforesaid undertaker departed in good shape thinking that John was the most lively corpse he ever encountered.

It has been currently reported that "Charlie" was to visit us in his official capacity as High Sheriff of Cheboygan county and do some immense business but dame rumor was this time mistaken.

As the communication did not reach you last week in time (no fault of ours) we hope to hear from you this week in double form.

Very Truly,

ESCALAPIAS.

Detroit, Mackinac & Marquette Railroad.

The following information in regard to the Upper Peninsula road we gather from the Detroit Free Press. It states that Superintendent McKeown and General Passenger and Ticket Agent Milligan had spent several days in Detroit arranging a freight and passenger tariff on through business. The policy of the company is to give low freights to the people of the Upper peninsula, and that policy will be lived up to, if possible.

The road has been doing a good local business from the first day that it ran a train, and up to date the earnings have been over \$3,000 a week. An average of 500 tons a week of iron ore have been hauled to the Martel furnace at Point St. Ignace, and last week the amount carried was 900 tons. From thirty to fifty car loads of logs are hauled every day.

The local passenger fares from St. Ignace are as follows: To Moran, forty cents; Palms, seventyfive cents; Trout Lake, \$1 10; Hendrie, \$1 40; Newberry, \$2 10; McMillan, \$2 60; Seney, \$3; Driggs, \$3 30; Creighton, \$3 60; Jeromeville, \$4; Munising, \$4 30; Au Train, \$4 85; Rock River, \$5; Onota, \$5 15; Deerton, \$5 20; White Fish, \$5 30; Sand River, \$5 40; Choclay, \$5 55; Marquette, \$6. The fare from Detroit is \$9 75 in addition.

STATE NEWS.

A company has been formed at Niles \$50,000 capital to manufacture grocers' plates from wood pulp.

The cashier of the Wabash Railroad office at Detroit has lost \$15,000 of the company's money in gambling houses.

The 10th annual state convention of Michigan's Y. M. C. A. workers will be held at Jackson February 23-26, and a large delegation is expected.

Body of John Burns, late of Muskegon and formerly of Belleville, Ont., was found in the river at East Saginaw Friday of last week. He was about 40 years old, and a few days ago walked of the dock while drunk.

Orders were received at Fort Wayne Friday of last week from the War department for a detail of three men from each company to proceed to Cleveland to relieve those in attendance there guarding the tomb of the late President Garfield.

Captain A. D. Perkins, a veteran lake captain, died at his home in Monroe on Monday aged 68 years. He commanded the craft which took the first load of wheat out of Chicago, and during the war commanded the Evening Star between New York and New Orleans.

The funeral of Mrs. Custer, mother of Gen. Custer, took place at Monroe Tuesday afternoon. She was 75 years old at the time of her death, and had been gradually failing ever since that terrible battle on the Little Big Horn river, when her son, the general, her two other sons, a grand son and son-in-law were killed.

A gentleman recently discovered a broken rail on the track of the Chicago & Grand Trunk railway near Vicksburg, and hearing a train thundering away in the distance hastily disrobed, took off his red undershirt and waved it as a danger signal. The train was stopped in time to avoid wreck, and perhaps destruction of life.—Lansing Republican.

The balance of cash in the state treasury, January 7 was \$1,388,634 19; receipts for the week ending January 14 were \$82,503 78; payments for the same time \$75,835 14; leaving a balance January 14, 1882, of \$395,302 84; of which \$589,000 belong to the sinking fund, \$597,898 14 are held in the trust funds, and \$208,404 70 are available for general purposes.

About 1,800 railroad men have been vaccinated in Jackson. Doctors were kept waiting at the depots; and every time a train came in, the men went at once to the doctors and were vaccinated. It was quick work, but well done, at the expense and by the order of the Michigan Central railroad company. A good idea for other railroads to adopt.

The Rev. W. M. Davis, late the Y. M. C. A. missionary to the lumber camps, has been furnished with a complete traveling outfit. The horses and harness were supplied by the committees of the Saginaws. The wagon was donated by the ladies of Manistee and gentlemen of Farwell. Heretofore the gentleman has depended on railroads for reaching lumber camps. Now he will be independent of them and push his work wherever duty calls him.

Comfortables or quilts, worth \$2 each, for \$1 50. This isn't taffy. Examine them and you will be agreeably astonished.

S. L. GAULT & SON.

A fact that John Becker is selling J. G. Meakin's graniteware for a very low price:

Unhanded cups and saucers, 40c per set

Handled " " " " 45c "

Breakfast plates " " 40c "

Dinner plates " " 45c "

The sales of crockery at Beckers are large. Why? Because he has the largest assortment at the lowest prices. Call and see for yourself.
